May 13, 2021

**Board of Supervisors  
Westside Haines City  
Community Development District**

Dear Board Members:

The regular meeting of the Board of Supervisors of **Westside Haines City Community Development District** will be held **Thursday, May 20, 2021, at 10:00 AM at 346 East Central Ave., Winter Haven, FL 33880.**

**Zoom Call-In Information: 1-646-876-9923**  
**Meeting ID: 989 4471 1075**

Following is the advance agenda for the meeting:

### **Landowners' Meeting**

1. Determination of Number of Voting Units Represented
2. Call to Order
3. Election of Chairman for the Purpose of Conducting the Landowners' Meeting
4. Nominations for the Position of Supervisor
5. Casting of Ballots
6. Ballot Tabulation
7. Landowner's Questions and Comments
8. Adjournment

### **Board of Supervisors Meeting**

1. Roll Call
2. Public Comment Period (<sup>1</sup>Speakers will fill out a card and submit it to the District Manager prior to the beginning of the meeting)
3. Organizational Matters
  - A. Administration of Oaths of Office to Newly Elected Board Members
  - B. Consideration of Resolution 2021-27 Canvassing and Certifying the Results of the Landowners' Election

---

<sup>1</sup> Comments will be limited to three (3) minutes

- C. Election of Officers
- D. Consideration of Resolution 2021-28 Electing Officers
- 4. Approval of Minutes of the April 15, 2021 Board of Supervisors Meeting
- 5. Public Hearings
  - A. Public Hearing on the Imposition of Special Assessments
    - i. Presentation of Engineer's Report
    - ii. Presentation of Assessment Methodology
    - iii. Consideration of Resolution 2021-29 Levying Special Assessments
    - iv. Consideration of Notice of Special Assessments
  - B. Public Hearing on Adoption of District Rules of Procedure
    - i. Consideration of Resolution 2021-30 Adopting the Rules of Procedure
  - C. Public Hearing on the District's Use of the Uniform Method of Levying, Collection, and Enforcement of Non-Ad Valorem Assessments
    - i. Consideration of Resolution 2021-31 Expressing the District's Intent to Utilize the Uniform Method of Collection
- 6. Ranking of Proposals for District Engineering Services and Selection of District Engineer
- 7. Staff Reports
  - A. Attorney
  - B. Engineer
  - C. District Manager's Report
- 8. Other Business
- 9. Supervisors Requests and Audience Comments
- 10. Adjournment

The second order of business is the Public Comment Period where the public has an opportunity to be heard on propositions coming before the Board as reflected on the agenda, and any other items. Speakers must fill out a Request to Speak form and submit it to the District Manager prior to the beginning of the meeting.

The third order of business is Organizational Matters. Section A is the Administration of Oaths of Office to the Newly Elected Board Members. Section B is the Consideration of Resolution 2021-27 Canvassing and Certifying the Results of the Landowners' Election. A copy of the resolution is enclosed for your review. Section C is the Election of Officers and Section D is the Consideration of Resolution 2021-28 Electing Officers. A copy of the resolution is enclosed for your review.

The fourth order of business is the approval of the minutes of the April 15, 2021 meeting. A copy of the minutes is enclosed for your review.

The fifth order of business opens the Public Hearings. Section A is the Public Hearing on the Imposition of Special Assessments. Sub-Section 1 is the Presentation of the Engineer's Report. Sub-Section 2 is the Presentation of the Assessment Methodology. Sub-Section 3 is the Consideration of Resolution 2021-29 Levying Special Assessments. A copy of the resolution and reports are enclosed for your review. Sub-Section 4 is the Consideration of Notice of Special Assessments. A copy of the notice is enclosed for your review. Section B is the Public Hearing to Adopt the District's Rules of Procedure. Sub-Section 1 is the Consideration of Resolution 2021-30 Adopting the Rules of Procedure. A copy of the resolution is enclosed for your review. Section C is the Public Hearing on the District's Use of the Uniform Method of Levying, Collection, and Enforcement of Non-Ad Valorem Assessments. Sub-Section 1 is the Consideration of Resolution 2021-31 Expressing the District's Intent to Utilize the Uniform Method of Collection. A copy of the resolution is enclosed for your review.

The sixth order of business is the Ranking of Proposals for District Engineering Services and the Selection of a District Engineer. A copy of the proposals and ranking sheet are included for your review.

The seventh order of business is Staff Reports. Any staff reports will be discussed at this time.

The balance of the agenda will be discussed at the meeting. In the meantime, if you should have any questions, please do not hesitate to contact me.

Sincerely,

Jill Burns  
District Manager

CC: Roy Van Wyk, District Counsel

# Landowners' Meeting

**INSTRUCTIONS RELATING TO LANDOWNERS' MEETING OF  
WESTSIDE HAINES CITY COMMUNITY DEVELOPMENT DISTRICT  
FOR THE ELECTION OF SUPERVISORS**

DATE OF LANDOWNERS' MEETING: **Thursday, May 20, 2021**

TIME: **10:00 AM**

LOCATION: **346 East Central Ave., Winter Haven, FL 33880**

Pursuant to Chapter 190, Florida Statutes, and after a Community Development District ("**District**") has been established and the landowners have held their initial election, there shall be a subsequent landowners' meeting for the purpose of electing members of the Board of Supervisors ("**Board**") every two years until the District qualifies to have its board members elected by the qualified electors of the District. The following instructions on how all landowners may participate in the election are intended to comply with Section 190.006(2)(b), Florida Statutes.

A landowner may vote in person at the landowners' meeting, or the landowner may nominate a proxy holder to vote at the meeting in place of the landowner. Whether in person or by proxy, each landowner shall be entitled to cast one vote per acre of land owned by him or her and located within the District, for each position on the Board that is open for election for the upcoming term. A fraction of an acre shall be treated as one (1) acre, entitling the landowner to one vote with respect thereto. Please note that a particular parcel of real property is entitled to only one vote for each eligible acre of land or fraction thereof; therefore, two or more people who own real property in common, that is one acre or less, are together entitled to only one vote for that real property.

At the landowners' meeting, the first step is to elect a chair for the meeting, who may be any person present at the meeting. The landowners shall also elect a secretary for the meeting who may be any person present at the meeting. The secretary shall be responsible for the minutes of the meeting. The chair shall conduct the nominations and the voting. If the chair is a landowner or proxy holder of a landowner, he or she may nominate candidates and make and second motions. Candidates must be nominated and then shall be elected by a vote of the landowners. Nominees may be elected only to a position on the Board that is open for election for the upcoming term.

Five (5) seats on the Board will be up for election by landowners. The two candidates receiving the highest number of votes shall be elected for a term of four (4) years. The three candidates receiving the next highest number of votes shall be elected for a term of two (2) years. The term of office for each successful candidate shall commence upon election.

A proxy is available upon request. To be valid, each proxy must be signed by one of the legal owners of the property for which the vote is cast and must contain the typed or printed name of the individual who signed the proxy; the street address, legal description of the property or tax parcel identification number; and the number of authorized votes. If the proxy authorizes more than one vote, each property must be listed and the number of acres of each property must be included. The signature on a proxy does not need to be notarized.

**LANDOWNER PROXY**  
**WESTSIDE HAINES CITY COMMUNITY DEVELOPMENT DISTRICT**  
**POLK COUNTY, FLORIDA**  
**LANDOWNERS' MEETING – THURSDAY, MAY 20, 2021 @ 10:00 AM**

KNOW ALL MEN BY THESE PRESENTS, that the undersigned, the fee simple owner of the lands described herein, hereby constitutes and appoints \_\_\_\_\_ ("**Proxy Holder**") for and on behalf of the undersigned, to vote as proxy at the meeting of the landowners of the Westside Haines City Community Development District to be held at 346 East Central Ave., Winter Haven, FL 33880, on Thursday, May 20, 2021 at 10:00 a.m. and at any adjournments thereof, according to the number of acres of unplatted land and/or platted lots owned by the undersigned landowner that the undersigned would be entitled to vote if then personally present, upon any question, proposition, or resolution or any other matter or thing that may be considered at said meeting including, but not limited to, the election of members of the Board of Supervisors. Said Proxy Holder may vote in accordance with his or her discretion on all matters not known or determined at the time of solicitation of this proxy, which may legally be considered at said meeting.

Any proxy heretofore given by the undersigned for said meeting is hereby revoked. This proxy is to continue in full force and effect from the date hereof until the conclusion of the landowners' meeting and any adjournment or adjournments thereof, but may be revoked at any time by written notice of such revocation presented at the landowners' meeting prior to the Proxy Holder's exercising the voting rights conferred herein.

# Board of Supervisors Meeting

## SECTION III

## SECTION B

**RESOLUTION 2021-27**

**A RESOLUTION OF THE BOARD OF SUPERVISORS OF THE WESTSIDE  
HAINES CITY COMMUNITY DEVELOPMENT DISTRICT CANVASSING  
AND CERTIFYING THE RESULTS OF THE LANDOWNER’S ELECTION  
OF SUPERVISORS HELD PURSUANT TO SECTION 190.006(2), FLORIDA  
STATUTES, AND PROVIDING FOR AN EFFECTIVE DATE**

**WHEREAS**, the Westside Haines City Community Development District (hereinafter the “District”) is a local unit of special-purpose government created and existing pursuant to Chapter 190, *Florida Statutes*, being situated entirely within unincorporated Polk County, Florida; and

**WHEREAS**, pursuant to Section 190.006(2), *Florida Statutes*, a landowners meeting is required to be held within 90 days of the District’s creation and every two years following the creation of the District for the purpose of electing supervisors of the District; and

**WHEREAS**, such landowners meeting was held on May 20, 2021, the Minutes of which are attached hereto as **Exhibit A**, and at which the below recited persons were duly elected by virtue of the votes cast in his/her favor; and

**WHEREAS**, the Board of Supervisors of the District, by means of this Resolution, desire to canvas the votes and declare and certify the results of said election.

**NOW THEREFORE, BE IT RESOLVED BY THE BOARD OF  
SUPERVISORS OF THE WESTSIDE HAINES CITY COMMUNITY  
DEVELOPMENT DISTRICT:**

**SECTION 1.** The following persons are found, certified, and declared to have been duly elected as Supervisor of and for the District, having been elected by the votes cast in their favor as shown:

_____	Seat 1	Votes _____
_____	Seat 2	Votes _____
_____	Seat 3	Votes _____
_____	Seat 4	Votes _____
_____	Seat 5	Votes _____

**SECTION 2.** In accordance with Section 190.006(2), *Florida Statutes*, and by virtue of the number of votes cast for the Supervisor, the above-named person is declared to have been elected for the following term of office:

_____	4 Year Term
_____	4 Year Term
_____	2 Year Term

\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_  
2 Year Term  
2 Year Term

**SECTION 3.** This resolution shall become effective immediately upon its adoption.

**PASSED AND ADOPTED** this 20<sup>th</sup> day of May, 2021.

**RESOLUTION 2021-28**

**A RESOLUTION OF THE BOARD OF SUPERVISORS OF THE WESTSIDE HAINES CITY COMMUNITY DEVELOPMENT DISTRICT ELECTING THE OFFICERS OF THE DISTRICT, AND PROVIDING FOR AN EFFECTIVE DATE.**

**WHEREAS**, the Westside Haines City Community Development District (“**District**”) is a local unit of special-purpose government created and existing pursuant to Chapter 190, *Florida Statutes*, being situated partially within the City of Haines City, Florida and partially within unincorporated Polk County; and

**WHEREAS**, pursuant to Chapter 190, *Florida Statutes*, the Board of Supervisors (“**Board**”), shall organize by electing one of its members as Chairperson and by electing a Secretary, and such other officers as the Board may deem necessary.

**NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF SUPERVISORS OF THE WESTSIDE HAINES CITY COMMUNITY DEVELOPMENT DISTRICT:**

- 1. DISTRICT OFFICERS.** The District officers are as follows:

_____	is appointed Chairperson.
_____	is appointed Vice-Chairperson.
_____	is appointed Secretary.
_____	is appointed Assistant Secretary.
_____	is appointed Assistant Secretary.
_____	is appointed Assistant Secretary.
_____	is appointed Assistant Secretary.

- 2. CONFLICTS.** All Resolutions or parts of Resolutions in conflict herewith are hereby repealed to the extent of such conflict.

- 3. EFFECTIVE DATE.** This Resolution shall become effective immediately upon its adoption.

**PASSED AND ADOPTED** this 20<sup>th</sup> day of May, 2021.

# MINUTES

**MINUTES OF MEETING  
WESTSIDE HAINES CITY  
COMMUNITY DEVELOPMENT DISTRICT**

The meeting of the Board of Supervisors of the Westside Haines City Community Development District was held Monday, **April 15, 2021** at 10:00 a.m. at 346 E. Central Avenue, Winter Haven, Florida.

Present and constituting a quorum:

Lauren Schwenk  
Patrick Marone  
Justin Frye  
April Payeur

Vice Chairman  
Assistant Secretary  
Assistant Secretary  
Assistant Secretary

Also present were:

Jill Burns  
Roy Van Wyk  
Rey Malave *by Zoom*

District Manager, GMS  
Hopping Green & Sams  
Dewberry

**FIRST ORDER OF BUSINESS**

**Introduction**

Ms. Burns called the meeting to order and called the roll. Four Board members were present constituting a quorum.

**SECOND ORDER OF BUSINESS**

**Public Comment Period**

Ms. Burns noted no members of the public were present or via zoom.

**THIRD ORDER OF BUSINESS**

**Approval of the Minutes of the March 29,  
2021 Board of Supervisors Meeting**

Ms. Burns asked for any comment, corrections, or changes to the minutes of the March 29, 2021 Board of Supervisors Meeting. Hearing no changes, she asked for a motion to approve.

On MOTION by Ms. Schwenk, seconded by Mr. Frye, with all in favor, the Minutes of the March 29, 2021 Board of Supervisors Meeting, was approved.
--

**FOURTH ORDER OF BUSINESS**

**Consideration of Notice of Cascades Phase  
2 RFP for Construction Services and  
Approval of Evaluation Criteria**

Ms. Burns stated the pick-up date was listed as April 20, 2021 and could change to May 3, 2021 if they were not ready for pick up. The evaluation criteria included in the package is the same criteria used by surrounding Districts.

On MOTION by Mr. Frye, seconded by Ms. Schwenk, with all in favor, the Notice of Cascades Phase 2 RFP for Construction Services and Approval of Evaluation Criteria, was approved.

**FIFTH ORDER OF BUSINESS**

**Staff Reports**

**A. Attorney**

Mr. Van Wyk stated the bond validation hearing is set for June 7, 2021. He also stated they should be able to issue bonds by the first week in July.

**B. Engineer**

Mr. Malave stated he had nothing new to report to the Board.

**C. District Manager's Report**

Ms. Burns stated she had nothing new to report to the Board.

**SIXTH ORDER OF BUSINESS**

**Other Business**

Ms. Burns stated there was no other business to discuss.

**SEVENTH ORDER OF BUSINESS**

**Adjournment**

Ms. Burns adjourned the meeting.

On MOTION by Mr. Frye, seconded by Ms. Payeur, with all in favor, the meeting was adjourned.

# Westside Haines City Community Development District

## INTRODUCTION

The Westside Haines City Community Development District (the "District" or "CDD") is located on the west side of US Highway 27 (SR 25) from the Minute Maid Ramp Road, south crossing Holly Hill Grove Road 1, 2, and 3 to the southern boundary of Massee Road. The District also crosses Holly Hill Tank Road to the west of FDC Grove Road. The District is located with the city limits of Haines City, Florida ("City") and the unincorporated area of Polk County ("County"). The District currently contains approximately 613.43 acres and is expected to consist of 2,752 residential lots of various sizes for single-family lots and townhome lots with recreation/amenity areas, parks, and associated infrastructure for the various villages.

The CDD was established under County Ordinance No. \_\_\_\_\_, which was approved by the Polk County Commission or City of Haines City on March 17, 2021, and became effective on \_\_\_\_\_. The District will own and operate the public roadways, utilities systems, and stormwater management facilities, as well as the landscape, irrigation, signage, and recreational facilities within the development.

The Master Developer ("Developer") GLK Real Estate LLC is based in Winter Haven, Florida. The Development is approved as a Planned Development (PD) for Residential Units and is divided into three (3) villages: Brentwood, Cascades, and Wynnstone. A land use summary is presented in Table 1.

Public improvements and facilities financed, acquired, and/or constructed by the District will be designed and constructed to conform to regulatory criteria from the city, county, Southwest Florida Water Management District (SWFWMD), and other applicable agencies with regulatory jurisdiction over the development, an overall estimate of the probable cost of the public improvements are provided in Exhibit 7 of this report.

The Capital Improvement Plan ("CIP" or this "Engineer's Report") reflects the present intentions of the District and the landowners. It should be noted that the location of proposed facilities and improvements may be adjusted during the final design, permitting, and implementation phases. It should also be noted that any modifications will not diminish the benefits to the property within the District. The District reserves the right to make reasonable adjustments to the development plan to meet applicable regulatory requirements of agencies with jurisdiction over the development while maintaining a comparable level of benefits to the lands served by the improvements. Changes and modifications are expected as changes in regulatory criteria are implemented.

<b>TOTAL LOTS IN THE DISTRICT</b>		<b>2,752</b>	<b>613.43</b>

Implementation of any proposed facilities or improvements outlined in this report requires written approval from the District's Board of Supervisors. Estimated costs outlined in this report are based on the best available information, which includes, but is not limited, to previous experience with similar projects. Actual costs could be different than estimates because final engineering and specific field conditions may affect construction costs.

COMPANY CONFIDENTIAL AND PROPRIETARY: Use or disclosure of data contained on this sheet is subject to restriction on the title page of this proposal.

All roadway improvements including sidewalks in the right-of-way and storm drainage collection systems (from the curb inlets to their connection to the stormwater ponds) within the development will be maintained by the District. Water distribution and wastewater collection systems (gravity lines, force mains, and lift stations) will be dedicated to the County or the City for ownership and maintenance upon completion. The southeastern 46 lots in Cascades Phase 1 will have a private lift station maintained by the CDD and will connect to Haines City's water and sewer service.

## PURPOSE AND SCOPE

The purpose of this report is to provide engineering support for the funding of the proposed improvements within the District. This report will identify the proposed public infrastructure to be constructed or acquired by the District along with an Opinion of Probable Construction Costs. The District will finance, construct, acquire, operate, and maintain all or specific portions of the proposed public infrastructure.

The predominant portion of this report provides descriptions of the proposed public infrastructure improvements, determination of estimated probable construction costs, and the corresponding benefits associated with the implementation of the described improvements. Detailed site construction plans and specifications have not yet been completed and permitted for the improvements described herein. The engineer has considered and in specific instances has relied upon, the information and documentation prepared or supplied by others to prepare this Engineer's Report.

## THE DEVELOPMENT

The development will consist of a total of 2,752 residential units and associated infrastructure. The development is a planned residential community located West of US Highway 27 (SR 25) and consisting of 613.43 acres from the northern boundary around Minute Main Ramp Road 1 and extending south to the southern boundary located around Mossee Road. The District is located within Polk County and the City of Haines City. The land use for the District is planned unit development. The development is zoned RL-1, RL-2, RL-3, and RM within the city limits and zoned RMX and ECX within the unincorporated area of Polk County. The development will be constructed in three (3) villages and have up to eleven (11) phases.

## CAPITAL IMPROVEMENTS

The CIP consists of public infrastructure in each village and each phase of said village. The primary portions of the CIP will provide for stormwater pond construction, roadways built to an urban roadway typical section, water, and sewer facilities including three (3) lift stations and one (1) regional lift station, and off-site improvements (including turn lanes and extension of water and sewer mains to serve the development).

There will also be stormwater structures and conveyance culverts within the CIP that will outfall into the various on-site stormwater ponds. These structures and pond areas comprise the overall stormwater facilities of the CIP. Installation of the water distribution and wastewater collection system will also occur at this time as well as the 4 (four) lift stations serving the project. Below-ground installation of telecommunications and cable television will occur but will not be funded by the District. Installation of streetlights and power within the public rights-of-way or easements will be funded by the District.

As a part of the recreational component of the CIP, there are various amenity centers within the development and specifically for each of the villages of the development. There are four (4) amenity centers: one (1) in the Village of Cascades, one (1) in Wynnstone, and two (2) within Brentwood. The total area of the amenity and recreational parcels is 12.89 acres. There will be conservation areas as well that can serve as passive parks within the various villages and the

development that are available to the public for utilization of the facilities. The amenity centers and recreational areas will have connectivity via sidewalks to the other portions of the District. The amenity centers and recreational areas will be accessed by the public roadways and sidewalks.

## CAPITAL IMPROVEMENT PLAN COMPONENTS

The CIP for the District includes the following:

### Stormwater Management Facilities

Stormwater Management facilities consisting of storm conveyance systems and retention/detention ponds are contained within the District boundaries. Stormwater will be discharged via roadway curb and gutter and storm inlets. Storm culverts convey the runoff into the proposed retention ponds for water quality treatment and attenuation. The proposed stormwater systems will utilize dry retention and wet retention for biological pollutant assimilation to achieve water quality treatment. The design criteria for the District's stormwater treatment systems are regulated by the city, the county, and SWFWMD. There are various conservation areas throughout the District and will be preserved in the existing condition and these will accept stormwater discharges from our ponds as shown on Exhibit 6.

Federal Emergency Management Agency Flood Insurance Rate Map (FEMA FIRM) Panel No. 12105C0225G, effective date December 22, 2016, demonstrates that the property is located within Flood Zones X, A, and AE. Based on this information and the site topography, it appears that 100-year compensation will be done in areas where we will impact existing depressions throughout the development and the 100-year flood volumes will be compensated as it is required by the city, county, and FEMA.

During the construction of stormwater management facilities, utilities, and roadway improvements the contractor will be required to adhere to a Stormwater Pollution Prevention Plan (SWPPP) as required by the FDEP as delegated by the Environmental Protection Agency (EPA). The SWPPP will be prepared to depict the proposed recommended locations of required erosion control measures and staked turbidity barriers specifically along the downgradient side of any proposed construction activity. The site contractor will be required to provide the necessary reporting as required by the National Pollutant Discharge Elimination System (NPDES) General Permit with erosion control, its maintenance, and any rainfall events that occur during construction activity.

### Public Roadways

The proposed public roadway sections include a 24-foot wide roadway consisting of asphalt and with Miami curbs or Type F curb and gutter on both sides along with a 50-foot right-of-way. The proposed roadway section will consist of stabilized subgrade, a lime rock, crushed concrete, or cement-treated base and asphalt type roadway wearing surface. The proposed curb is to be 2-feet wide and placed along the edge of the proposed roadway section for purposes of protecting the integrity of the pavement, and also to provide stormwater runoff conveyance to the proposed stormwater inlets.

The proposed roadways will also require signing and pavement markings within the public rights-of-way, as well as street signs depicting street name identifications, and addressing, which will be utilized by the residents and public. As stated above, the District's funding of roadway construction will occur for all public roadways.

### Water and Wastewater Facilities

A potable drinking water system inclusive of water main, gate valves, fire hydrants, and appurtenances will be installed for the District. The water service provider will be Polk County Public Utilities. The water system will be designed to provide an equally distributed system that provides redundancy to the system. These facilities will be installed within

the proposed public rights-of-way and will provide potable drinking water (domestic) and fire protection services to serve the entire District.

A domestic wastewater collection system inclusive of gravity sanitary sewer mains and sewer laterals will be installed. The gravity sanitary sewer mains will be a minimum of eight (8)-inch diameter PVC pipe systems. The gravity sanitary sewer lines will be placed inside of the proposed public rights-of-way, under the proposed paved roadways. Laterals will branch off from these sewer lines to serve the individual lots. Lift stations are anticipated for this CIP. Flow from the lift station shall be connected to a proposed force main that will interconnect three (3) lift stations and all discharge to a master lift station that will pump through a force main that will connect to the city water treatment facility located north of the development.

Polk County Public Utilities will provide the reclaimed water to be used for all irrigation within the CDD. The reclaimed water will be funded by the District and installed onsite within the roadways to provide for irrigation within the public right-of-way or any areas needing irrigation. Any water, sewer, or reclaim water pipes or facilities placed on private property will not be publicly funded.

### **Off-Site Improvements**

The District will provide funding for the anticipated turn lanes at the development entrances. The site construction activities associated with the CIP are anticipated to be completed by villages and phases based on the estimated schedule for each village and phase. The schedule is shown on Exhibit 7. Upon completion of each phase within each village, the improvements will be through the required inspections as well as final certifications of completions will be obtained from SWFWMD, Polk County Health Department (water distribution system), FDEP (wastewater collection), and the city/county.

### **Amenities and Parks**

The District will provide funding for an amenity center to include the following: parking areas, pavilion with public restroom facilities, pool, all-purpose playfields, and walking trails between the phases and villages to provide connectivity to the various amenity centers within the CDD. In addition, there will be public passive parks throughout the development, which will include benches and walking trails.

### **Electric Utilities and Lighting**

The electric distribution system thru the District is currently planned to be underground. The District presently intends to fund and construct the electric conduit, fund and construct the cost for the under-grounding of the electrical system, transformer/cabinet pads, and electric manholes required by Duke Energy (Duke). Electric facilities will be owned and maintained by Duke after the dedication, with Duke providing underground electrical service to the Development. The CDD presently intends to fund the cost to purchase and install the street lighting along the internal roadways within the CDD. These lights will be operated, and maintained by Duke after the completion, with the District funding maintenance costs.

### **Entry Feature**

Landscaping, irrigation, entry features, and walls at the entrances and along the outside boundary of the Development will be provided by the District. The irrigation system will use reclaimed water or an irrigation well. The well and irrigation water mains to the various phases of the development will be constructed and acquired by the CDD with District funds and operated and maintained by the CDD. Landscaping for the roadways will consist of sod, annual flowers, shrubs, ground cover, and trees for the internal roadways within the CDD. Perimeter fencing will be provided

at the site entrances and perimeters. These items will be funded, owned, and maintained by the CDD. It is noted that the City requires the walls as a buffer the development and thus will be funded together with the landscaping.

## Miscellaneous

The stormwater improvements, landscaping and irrigation, recreational improvements, street lighting, and certain permits and professional fees as described in this report are being financed by the District to benefit all of the developable real property within the District. The construction and maintenance of the proposed public improvements will benefit the development for the intended use as a single-family/residential planned development.

## Permitting

Construction permits for all phases are required and include the SWFWMD ERP, Polk County Health Department, FDEP, and City construction plan approval.

Following is a summary of required permits obtained or pending approval for the construction of the public infrastructure improvements for the District:

Phase 1 – All Villages			
Permits/Approvals	Approval/Expected Date		
	Cascades Phase 1	Cascades Phase 2	Brentwood Townhomes Phase 1
Zoning Approval	Haines City RPUD expected 4/1/21	Haines City RPUD – N/A	N/A
Preliminary Plat	Haines City - 4/1/21	Haines City Preliminary Plat – N/A	N/A
SWFWMD ERP	Expected 04/15/2021	Expected – 5/15/2021	Expected – 4/30/2021
Construction Permits	Expected 4/15/2021	Expected – 5/15/2021	Expected – 4/30/2021

Polk County Utilities Permits	TBO
Polk County Health Department General Water Distribution Permit	TBO
FDEP Sanitary Sewer General Permit	TBO
FDEP NOI – NPDES	TBO
City of Haines City Construction Permit	TBO

## RECOMMENDATION

As previously explained within this report, the public infrastructure, as described, is necessary for the development and functional operation as required by the City and County. The site planning, engineering design, and construction plans for the infrastructure are or will be in accordance with the applicable requirements of the City, the County, and the SWFWMD. It should be noted that the infrastructure will provide its intended use and function so long as the construction and installation are in substantial conformance with the design construction plans and regulatory permits.

Items utilized in the Opinion of Probable Costs for this report are based upon the proposed plan infrastructure as shown on construction drawings incorporating specifications in the most current SWFWMD, Polk County, and the City regulations.

## REPORT MODIFICATION

During the development and implementation of the designed public infrastructure improvements, it may be necessary to make modifications and/or deviations to the plans. However, if such deviations and/or revisions do not change the overall primary objective of the plan for such improvements, then the cost differences would not materially affect the proposed construction cost estimates.

## SUMMARY AND CONCLUSION

The improvements as outlined are necessary for the functional development of the Project. The Project is being designed in accordance with current government regulatory requirements. The Project will serve its intended function provided the construction is in substantial compliance with the design. Items of construction for the Project are based upon current development plans.

## ENGINEER'S CERTIFICATION

It is our professional opinion that the public infrastructure costs for the CIP provided in this report are reasonable to complete the construction of the public infrastructure improvements. Furthermore, the public infrastructure improvements will benefit and add value to lands within the District and the value is at least the same as the costs for said improvements. It is noted that all financed property improvements will be located on district owned lands that is or will be at the time of conveyance to the district or subject to a permanent easement in favor of the district or another public governmental entity.

The Opinion of Probable Costs for the public infrastructure improvements is only an estimate and is not a guaranteed maximum price. The estimated costs are based upon current unit prices and on our experience with ongoing and similar projects and basis in the county and city. However; labor market, future costs of equipment; materials, changes to the regulatory permitting agencies' activities, and the actual construction processes employed by the chosen site contractor are beyond the engineer's control. Due to this inherent opportunity for changes (upward or downward) in the construction costs, the total, final construction cost may be more or less than this estimate.

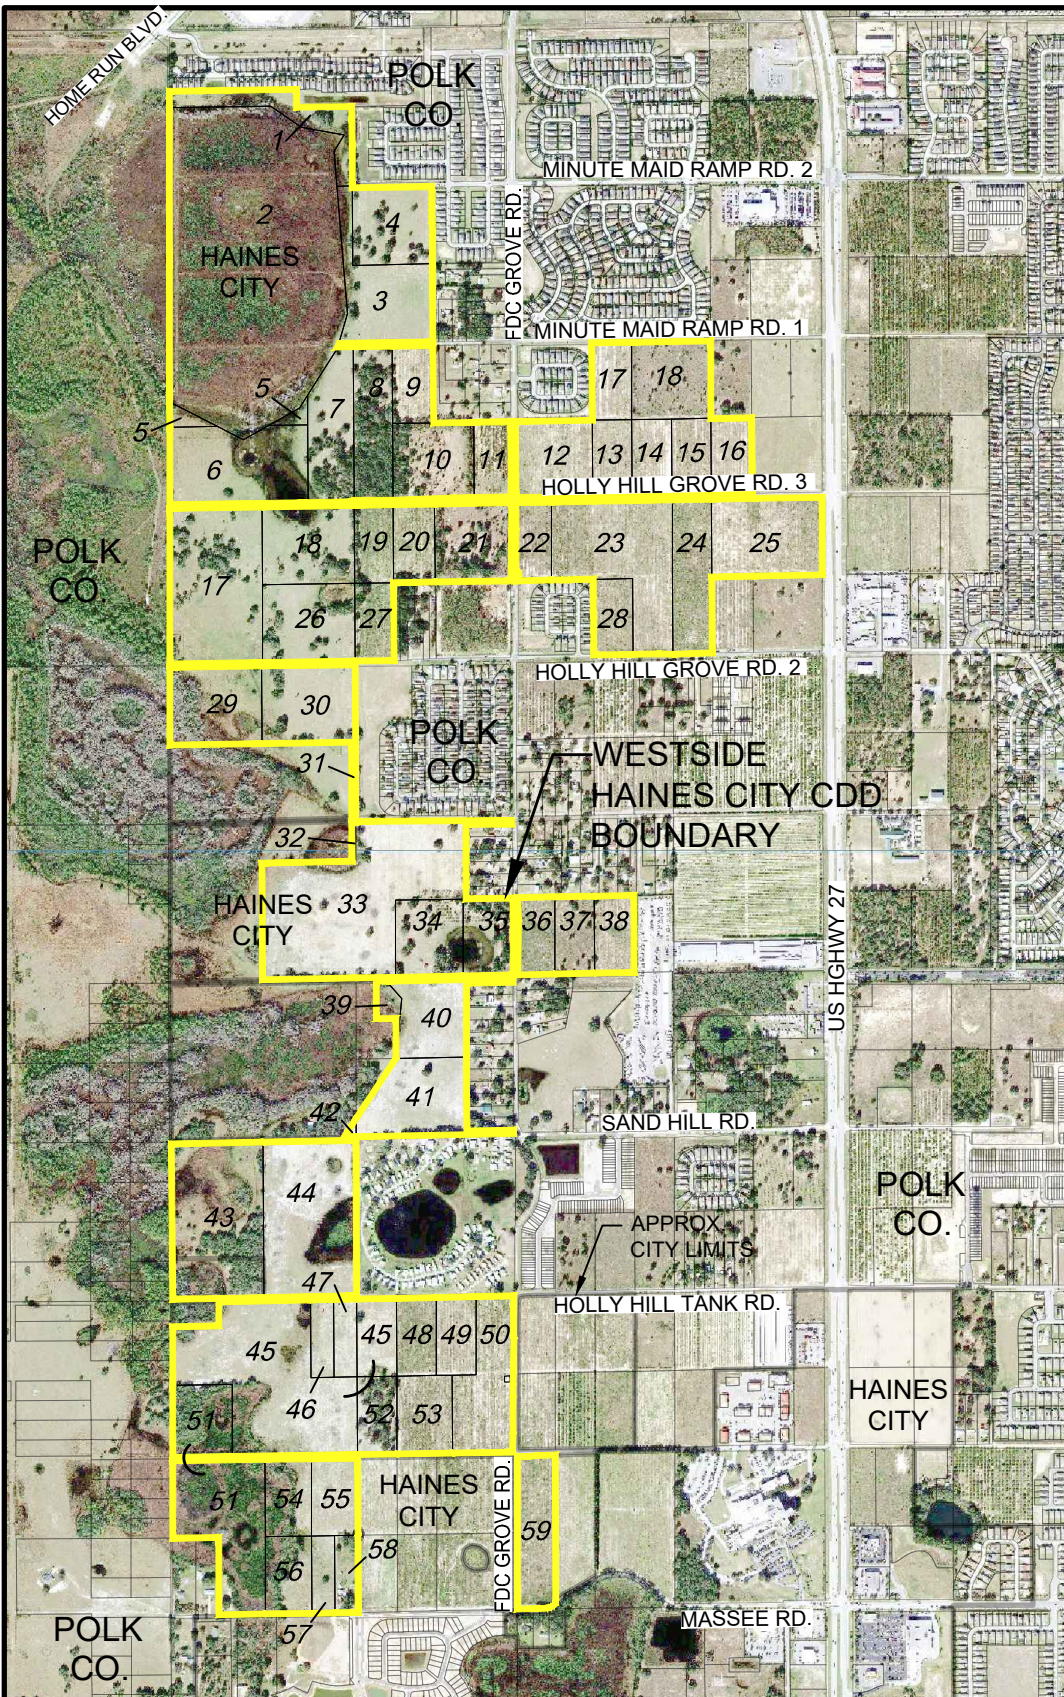

Based upon the presumption that the CIP construction continues in a timely manner, it is our opinion that the costs of the CIP proposed represent a system of improvements benefitting all developable property located within the District, are fair and reasonable, and that the District-funded improvements are assessable improvements within the meaning of Chapter 190, F.S. We have no reason to believe that the CUP improvements cannot be constructed at the cost described in this report. We expect the improvements to be constructed or acquired by the District with bond proceeds, as indicated within this report. We believe that the District will be well served by the improvements discussed in this report.

I hereby certify that the foregoing is a true and correct copy of the engineer's report for the Westside Haines City Community Development District.

A handwritten signature in blue ink, appearing to read 'RM', is written over a horizontal line.

- Notes:
1. Infrastructure consists of public roadway improvements, Stormwater management facilities, master sanitary sewer lift station and utilities, entry feature, landscaping and signage, and public neighborhood parks, all of which will be located on land owned by or subject to a permanent easement in favor of the District or another governmental entity.
  2. Excludes grading of each lot in conjunction with home construction, which will be provided by home builder.
  3. Includes Stormwater pond excavation. Does not include the cost of transportation of fill for use of private lots.
  4. Includes sub-grade, base, asphalt paving, curbing, and civil/site engineering.
  5. Includes subdivision infrastructure and civil/site engineering.
  6. Stormwater does not include grading associated with building pads.
  7. Estimates are based on 2020 cost.
  8. Includes entry features, signage, hardscape, landscape, irrigation and fencing.
  9. CDD will enter into a Lighting Agreement with Duke Energy for the streetlight poles and lighting service. Includes only the cost of undergrounding.
  10. Estimates based on 2,752 lots.
  11. The costs associated with the infrastructure are a master cost and is effectively shared by the entire project (All phases).

GMS-CF, LLC does not represent the Westside Haines City Community Development District as a Municipal Advisor or Securities Broker nor is GMS-CF, LLC registered to provide such services as described in Section 15B of the Securities and Exchange Act of 1934, as amended. Similarly, GMS-CF, LLC does not provide the Westside Haines City Community Development District with financial advisory services or offer investment advice in any form.

## **1.0 Introduction**

The Westside Haines City Community Development District (the “District”) is a local unit of special-purpose government organized and existing under Chapter 190, Florida Statutes as amended. The District anticipates the issuance at this time of not to exceed \$88,000,000 of tax-exempt bonds in one or more series (the “Bonds”) for the purpose of financing certain infrastructure improvements (“Capital Improvement Plan”) within the District more specifically described in the Engineer’s Report dated March 29, 2021 prepared by Dewberry Engineers Inc. as may be amended and supplemented from time to time (the “Engineer’s Report”). The District anticipates the construction of all or a portion of the Capital Improvements or Capital Improvement Plan (“Capital Improvements”) that benefit property owners within the District.

### **1.1 Purpose**

This Master Assessment Methodology (the “Assessment Report”) provides for an assessment methodology that allocates the debt to be incurred by the District to benefiting properties within the District. This Assessment Report allocates the debt to properties based on the special benefits each receives from the Capital Improvements. This Assessment Report will be supplemented with one or more supplemental methodology reports to reflect the actual terms and conditions at the time of the issuance of each series of Bonds issued to finance all or a portion of the Capital Improvements. This Assessment Report is designed to conform to the requirements of Chapters 190 and 170, Florida Statutes, with respect to special assessments and is consistent with our understanding of case law on this subject.

The District intends to levy, impose and collect non ad valorem special assessments (“Special Assessments”) on the benefited lands within the District securing repayment of the Bonds based on this Assessment Report. It is anticipated that all of the proposed Special Assessments will be collected through the Uniform Method of Collection described in Section 197.3632, Florida Statutes or any other legal means available to the District. It is not the intent of this Assessment Report to address any other assessments, if applicable, that may be levied by the District including those for maintenance and operation of the Bonds, a homeowner’s association, or any other unit of government.

### **1.2 Background**

The District currently includes approximately 599.92 acres within Haines City, Florida. The development program for the District currently envisions approximately 2,752 residential units. The proposed development program is depicted in Table 1. It is recognized that such development plan may change, and this Assessment Report will be modified or supplemented accordingly.

The Capital Improvements contemplated by the District in the Capital Improvement Plan will provide facilities that benefit certain property within the District. Specifically, the District will construct and/or acquire certain offsite improvements, stormwater

management facilities, utility facilities, roadways, entry features, and park and amenity features. The acquisition and construction costs are summarized in Table 2.

The assessment methodology is a four-step process.

1. The District Engineer must first determine the public infrastructure improvements that may be provided by the District and the costs to implement the Capital Improvements.
2. The District Engineer determines the assessable acres that benefit from the District's Capital Improvements.
3. A calculation is made to determine the funding amounts necessary to acquire and/or construct the Capital Improvements.
4. This amount is initially divided equally among the benefited properties on a prorated assessable acreage basis. Ultimately, as land is platted, this amount will be assigned to each of the benefited properties based on the number and type of platted units.

### **1.3 Special Benefits and General Benefits**

Capital Improvements undertaken by the District create special and peculiar benefits to the property, different in kind and degree, for properties within its borders as well as general benefits to the public at large. However, as discussed within this Assessment Report, these general benefits are incidental in nature and are readily distinguishable from the special and peculiar benefits, which accrue to property within the District. The implementation of the Capital Improvement Plan enables properties within the boundaries of the District to be developed. Without the District's Capital Improvement Plan, there would be no infrastructure to support development of land within the District. Without these improvements, development of the property within the District would be prohibited by law.

The general public and property owners outside of the District may benefit from the provision of the Capital Improvements. However, any such benefit will be incidental for the purpose of the Capital Improvement Plan, which is designed solely to meet the needs of property within the District. Properties outside of the District boundaries do not depend upon the District's Capital Improvements. The property owners within the District are therefore receiving special benefits not received by the general public and those outside the District's boundaries.

### **1.4 Requirements of a Valid Assessment Methodology**

There are two requirements under Florida law for a valid special assessment:

- 1) The properties must receive a special benefit from the Capital Improvements being paid for.

- 2) The assessments must be fairly and reasonably allocated or apportioned to the properties being assessed based on the special benefit such properties receive.

Florida law provides for a wide application of special assessments that meet these two characteristics of special assessments.

## **1.5 Special Benefits Will Equal or Exceed the Costs Allocated**

The special benefits provided to the property within the District will be equal to or greater than the costs associated with providing these benefits. The District Engineer estimates that the District's Capital Improvement Plan that is necessary to support full development of property within the District will cost approximately \$68,625,000. The District's Underwriter projects that financing costs required to fund the Capital Improvement Plan costs, the cost of issuance of the Bonds, the funding of a debt service reserve account and capitalized interest, will be approximately \$88,000,000. Without the Capital Improvement Plan, the property within the District would not be able to be developed and occupied by future residents of the community.

## **2.0 Assessment Methodology**

### **2.1 Overview**

The District anticipates issuing approximately \$88,000,000 in Bonds in one or more series to fund the District's entire Capital Improvement Plan, provide for capitalized interest, a debt service reserve account and pay cost of issuance. It is the purpose of this Assessment Report to allocate the \$88,000,000 in debt to the properties within the District benefiting from the Capital Improvement Plan. This report will be supplemented to reflect actual bond terms.

Table 1 identifies the land uses and lot sizes in the development as identified by the Developer within the District. The District has commissioned an Engineer's Report that includes estimated construction costs for the Capital Improvements needed to support the development; these construction costs are outlined in Table 2. The Capital Improvements needed to support the development are described in detail in the Engineer's Report and are estimated to cost \$68,625,000. Based on the estimated costs, the size of the Bond issue under current market conditions needed to generate funds to pay for the Capital Improvements and related costs was determined by the District's Underwriter to total approximately \$88,000,000. Table 3 shows the breakdown of the Bond sizing.

## **2.2 Allocation of Debt**

Allocation of debt is a continuous process until the development plan for the District is completed. Until the platting process occurs, the Capital Improvements funded by District Bonds benefits all acres within the District.

The initial assessments will be levied on an equal basis to all gross acreage within the District. A fair and reasonable methodology allocates the debt incurred by the District proportionately to the properties receiving the special benefits. At this point all of the lands within the District are benefiting from the Capital Improvements.

Once platting or the recording of a declaration of condominium of any portion of the District into individual lots or units ("Assigned Properties") has begun, the Special Assessments will be levied to the Assigned Properties based on the benefits they receive, on a first platted, first assigned basis. The "Unassigned Properties" defined as property that has not been platted or subjected to a declaration of condominium, will continue to be assessed on a per acre basis. Eventually the development plan will be completed and the debt relating to the Bonds will be allocated to the assigned properties within the District, which are the beneficiaries of the Capital Improvement Plan, as depicted in Table 5 and Table 6. If there are changes to development plan, a true up of the assessment will be calculated to determine if a debt reduction or true-up payment from the Developer is required. The process is outlined in Section 3.0.

The assignment of debt in this Assessment Report sets forth the process by which debt is apportioned. As mentioned herein, this Assessment Report will be supplemented from time to time.

## **2.3 Allocation of Benefit**

The Capital Improvement Plan consists of offsite improvements, stormwater management facilities, utility facilities, roadways, entry features, and park and amenity features and professional fees along with related incidental costs. There is one product types within the planned development. The single-family home has been set as the base unit and has been assigned one equivalent residential unit ("ERU"). Table 4 shows the allocation of benefit to the particular product type. It is important to note that the benefit derived from the Capital Improvements on a particular unit will exceed the cost that the unit will be paying for such benefits.

## **2.4 Lienability Test: Special and Peculiar Benefit to the Property**

Construction and/or acquisition by the District of its proposed Capital Improvements will provide several types of systems, facilities and services for its residents. These include offsite improvements, stormwater management facilities, utility facilities,

roadways, entry features, and park and amenity features. The benefit from the Capital Improvements accrue in differing amounts and are somewhat dependent on the product type receiving the special benefits peculiar to that property type, which flow from the logical relationship of the Capital Improvements to the assigned properties.

Once these determinations are made, they are reviewed in the light of the special benefits peculiar to the property, which flow to the properties as a result of their logical connection from the Capital Improvements actually provided.

For the provision of the Capital Improvement Plan, the special and peculiar benefits are:

- 1) the added use of the property,
- 2) added enjoyment of the property, and
- 3) the increased marketability and value of the property.

These special and peculiar benefits are real and ascertainable but are not yet capable of being calculated as to value with mathematical certainty. However, each is more valuable than either the cost of, or the actual Special Assessment levied for the Capital Improvement as allocated.

## **2.5 Lienability Test: Reasonable and Fair Apportionment of the Duty to Pay Non-Ad Valorem Assessments**

A reasonable estimate of the proportion of special and peculiar benefits received from the public improvements described in the Capital Improvement Plan is delineated in Table 5 (expressed as Allocation of Par Debt per Product Type). This is also shown on Table 7 depicting Allocation of Par Debt per Product Type.

The determination has been made that the duty to pay the non-ad valorem special assessments is fairly and reasonably apportioned because the special and peculiar benefits to the property derived from the acquisition and/or construction of Capital Improvement Plan have been apportioned to the property within the District according to reasonable estimates of the special and peculiar benefits provided consistent with the product type of assignable properties.

Accordingly, no acre or parcel of property within the boundaries of the District will have a lien for the payment of any Special Assessment more than the determined special benefit particular to that property and therefore, the debt allocation will not be increased more than the debt allocation set forth in this Assessment Report.

In accordance with the benefit allocation suggested for the product types in Table 4, a total debt per unit and an annual assessment per unit have been calculated for each product type (Table 6). These amounts represent the preliminary anticipated per unit

debt allocation assuming all anticipated assigned properties are built and sold as planned, and the entire proposed Capital Improvement Plan is constructed.

### **3.0 True Up Mechanism**

Although the District does not process plats, declaration of condominiums, site plans or revisions thereto, it does have an important role to play during the course of platting and site planning. Whenever a plat, declaration of condominium or site plan is approved, the District must allocate a portion of its debt to the property according to this Assessment Report outlined herein ("Assigned Property"). In addition, the District must also prevent any buildup of debt on property or land that could be fully conveyed and/or platted without all of the debt being allocated ("Unassigned Property"). To preclude this, when platting for 25%, 50%, 75% and 100% of the units planned for platting has occurred within the District, the District will determine the amount of anticipated Bond Special Assessment revenue that remains on the Unassigned Properties, taking into account the full development plan of the District. If the total anticipated Bond Special Assessment revenue to be generated from the Assigned and Unassigned Properties is greater than or equal to the maximum annual debt service then no debt reduction or true-up payment is required. In the case that the revenue generated is less than the required amount then a debt reduction or true-up payment by the landowner in the amount necessary to reduce the par amount of the outstanding Bonds plus accrued interest to a level that will be supported by the new net annual debt service assessments will be required.

If a true-up payment is made less than 45 days prior to an interest payment date, the amount of accrued interest will be calculated to the next succeeding interest payment date.

### **4.0 Assessment Roll**

The District will initially distribute the Special Assessments across the property within the District boundaries on a gross acreage basis. As Assigned Properties become known with certainty, the District will refine its allocation of debt from a per acre basis to a per unit basis as shown in Table 6. If the land use plan or product type changes, then the District will update Table 6 to reflect the changes as part of the foregoing true-up process. As a result, the assessment liens are not finalized with certainty on any acre of land in the District prior to the time final Assigned Properties become known. The preliminary assessment roll is attached as Table 7.

## SECTION 3

## RESOLUTION 2021-29

**A RESOLUTION OF THE BOARD OF SUPERVISORS OF THE WESTSIDE HAINES CITY COMMUNITY DEVELOPMENT DISTRICT AUTHORIZING DISTRICT PROJECTS FOR CONSTRUCTION AND/OR ACQUISITION OF INFRASTRUCTURE IMPROVEMENTS; EQUALIZING, APPROVING, CONFIRMING, AND LEVYING SPECIAL ASSESSMENTS ON PROPERTY SPECIALLY BENEFITED BY SUCH PROJECTS TO PAY THE COST THEREOF; PROVIDING FOR THE PAYMENT AND THE COLLECTION OF SUCH SPECIAL ASSESSMENTS BY THE METHODS PROVIDED FOR BY CHAPTERS 170, 190, AND 197, FLORIDA STATUTES; CONFIRMING THE DISTRICT'S INTENTION TO ISSUE SPECIAL ASSESSMENT BONDS; MAKING PROVISIONS FOR TRANSFERS OF REAL PROPERTY TO GOVERNMENTAL BODIES; PROVIDING FOR THE RECORDING OF AN ASSESSMENT NOTICE; PROVIDING FOR SEVERABILITY, CONFLICTS AND AN EFFECTIVE DATE.**

**WHEREAS**, the Westside Haines City Community Development District (the "District") previously indicated its intention to construct certain types of infrastructure improvements and to finance such infrastructure improvements through the issuance of bonds, which bonds would be repaid by the imposition of special assessments on benefited property within the District; and

**WHEREAS**, the District Board of Supervisors (the "Board") noticed and conducted a public hearing pursuant to Chapters 170, 190, and 197, *Florida Statutes*, relating to the imposition, levy, collection and enforcement of such assessments.

**NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF SUPERVISORS OF THE WESTSIDE HAINES CITY COMMUNITY DEVELOPMENT DISTRICT AS FOLLOWS:**

**SECTION 1. AUTHORITY FOR THIS RESOLUTION.** This Resolution is adopted pursuant to Chapters 170, 190, and 197, *Florida Statutes*, including without limitation, Section 170.08, *Florida Statutes*.

**SECTION 2. FINDINGS.** The Board hereby finds and determines as follows:

(a) The District is a local unit of special-purpose government organized and existing under and pursuant to Chapter 190, *Florida Statutes*, as amended.

(b) The District is authorized by Chapter 190, *Florida Statutes*, to finance, fund, plan, establish, acquire, install, equip, operate, extend, construct, or reconstruct stormwater management facilities; roadways; water and wastewater facilities; off-site improvements (turn lanes); electrical utilities (street lighting); entry features and signage; parks and amenities; and other infrastructure

projects and services necessitated by the development of, and serving lands within, the District, together the “Improvements.”

(c) The District is authorized by Chapter 190, *Florida Statutes*, to levy and impose special assessments to pay all, or any part of, the cost of such infrastructure projects and services and to issue special assessment bonds payable from such special assessments as provided in Chapters 170, 190, and 197, *Florida Statutes*.

(d) It is necessary to the public health, safety and welfare and in the best interests of the District that (i) the District provide the capital improvements (“Capital Improvements”), the nature and location of which was initially described in Resolution 2021-25, and is shown in the *Engineer’s Report*, dated March 29, 2021 (the “Engineer’s Report”) (attached as **Exhibit A** hereto and incorporated herein by this reference), and which the plans and specifications are on file at the office of the District Manager c/o Governmental Management Services – Central Florida, LLC, 219 East Livingston Street, Orlando, Florida 32801 (“District Records Offices”); (ii) the cost of such Capital Improvements be assessed against the lands specially benefited by such Capital Improvements; and (iii) the District issue bonds to provide funds for such purposes pending the receipt of such special assessments.

(e) The provision of said Capital Improvements, the levying of such Assessments (hereinafter defined) and the sale and issuance of such bonds serves a proper, essential, and valid public purpose and is in the best interests of the District, its landowners, and residents.

(f) In order to provide funds with which to pay all or a portion of the costs of the Capital Improvements which are to be assessed against the benefitted properties, pending the collection of such Assessments, it is necessary for the District from time to time to sell and issue its Special Assessment Bonds, in one or more series (the “Bonds”).

(g) By Resolution 2021-25, the Board determined to provide the Capital Improvements and to defray the costs thereof by making Assessments on benefitted property and expressed an intention to issue Bonds, notes or other specific financing mechanisms to provide all or a portion of the funds needed for the Capital Improvements prior to the collection of such Assessments. Resolution 2021-25 was adopted in compliance with the requirements of Section 170.03, *Florida Statutes*, and prior to the time it was adopted, the requirements of Section 170.04, *Florida Statutes*, had been met.

(h) As directed by Resolution 2021-25, said Resolution 2021-25 was published as required by Section 170.05, *Florida Statutes*, and a copy of the publisher’s affidavit of publication is on file with the Secretary of the Board.

(i) As directed by Resolution 2021-25, a preliminary assessment roll was adopted and filed with the Board as required by Section 170.06, *Florida Statutes*.

(j) As required by Section 170.07, *Florida Statutes*, upon completion of the preliminary assessment roll, the Board adopted Resolution 2021-26, fixing the time and place of a public hearing at which owners of the property to be assessed and other persons interested therein may appear before the Board and be heard as to (1) the propriety and advisability of making the infrastructure improvements, (2) the cost thereof, (3) the manner of payment therefore, and (4) the amount thereof

to be assessed against each specially benefited property or parcel and provided for publication of notice of such public hearing and individual mailed notice in accordance with Chapters 170, 190, and 197, *Florida Statutes*.

**(k)** Notice of such public hearing was given by publication and also by mail as required by Section 170.07, *Florida Statutes*. Affidavits as to such publications and mailings are on file in the office of the Secretary of the Board.

**(l)** On May 20, 2021, at the time and place specified in Resolution 2021-25 and the notice referred to in paragraph (k) above, the Board met as an Equalization Board, conducted such public hearing, and heard and considered all complaints and testimony as to the matters described in paragraph (j) above. The Board has made such modifications in the preliminary assessment roll as it deems necessary, just and right in the making of the final assessment roll.

**(m)** Having considered the estimated costs of the Capital Improvements, estimates of financing costs and all complaints and evidence presented at such public hearing, the Board further finds and determines:

**i.** that the estimated costs of the Capital Improvements is as specified in the Engineer's Report, which Engineer's Report is hereby adopted and approved, and that the amount of such costs is reasonable and proper; and

**ii.** it is reasonable, proper, just and right to assess the cost of such Capital Improvements against the properties specially benefited thereby using the method determined by the Board set forth in the *Master Assessment Methodology* dated March 29, 2021 (the "Assessment Report," attached hereto as **Exhibit B** and incorporated herein by this reference), for the Bonds, which results in the special assessments set forth on the final assessment roll included within such Exhibit B (the "Assessments"); and

**iii.** the Assessment Report is hereby approved, adopted and confirmed. The District ratifies its use in connection with the issuance of the Bonds;

**iv.** it is hereby declared that the Capital Improvements will constitute a special benefit to all parcels of real property listed on said final assessment roll and that the benefit, in the case of each such parcel, will be equal to or in excess of the Assessments thereon when allocated as set forth in Exhibit B;

**v.** that the costs of the Capital Improvements are fairly and reasonably apportioned to the properties specifically benefitted as set forth in Exhibit B;

**vi.** it is in the best interests of the District that the Assessments be paid and collected as herein provided; and

**vii.** it is reasonable, proper, just and right for the District to utilize the true-up mechanisms and calculations contained in the Assessment Report in order to ensure that all parcels of real property benefiting from the Capital Improvements are assessed accordingly and that sufficient assessment receipts are being generated in

order to pay the corresponding Bond debt-service when due;

**SECTION 3. AUTHORIZATION OF DISTRICT PROJECT.** That construction of Capital Improvements initially described in Resolution No. 2021-25, and more specifically identified and described in Exhibit A attached hereto, is hereby authorized and approved and the proper officers, employees and/or agents of the District are hereby authorized and directed to take such further action as may be necessary or desirable to cause the same to be made.

**SECTION 4. ESTIMATED COST OF IMPROVEMENTS.** The total estimated costs of the Capital Improvements and the costs to be paid by Assessments on all specially benefited property are set forth in Exhibits A and B, respectively, hereto.

**SECTION 5. EQUALIZATION, APPROVAL, CONFIRMATION AND LEVY OF SPECIAL ASSESSMENTS.** The Assessments on the parcels specially benefited by the Capital Improvements, all as specified in the final assessment roll set forth in Exhibit B, attached hereto, are hereby equalized, approved, confirmed and levied. Immediately following the adoption of this Resolution, these Assessments, as reflected in Exhibit B attached hereto, shall be recorded by the Secretary of the Board of the District in a special book, to be known as the "Improvement Lien Book." The Assessment or assessments against each respective parcel shown on such final assessment roll and interest, costs and penalties thereon, as hereafter provided, shall be and shall remain a legal, valid and binding first lien on such parcel until paid and such lien shall be coequal with the lien of all state, county, district, municipal or other governmental taxes and superior in dignity to all other liens, titles, and claims. Prior to the issuance of any Bonds, including refunding bonds, the District may, by subsequent resolution, adjust the acreage assigned to particular parcel identification numbers listed on the final assessment roll to reflect accurate apportionment of acreage within the District amongst individual parcel identification numbers. The District may make any other such acreage and boundary adjustments to parcels listed on the final assessment roll as may be necessary in the best interests of the District as determined by the Board by subsequent resolution. Any such adjustment in the assessment roll shall be consistent with the requirements of law. In the event the issuance of Bonds, including refunding bonds, by the District would result in a decrease of the Assessments, then the District shall by subsequent resolution, adopted within sixty (60) days of the sale of such Bonds at a publicly noticed meeting and without the need for further public hearing, evidence such a decrease and amend the final assessment roll as shown in the Improvement Lien Book to reflect such a decrease.

**SECTION 6. FINALIZATION OF SPECIAL ASSESSMENTS.** When the entire Capital Improvements project has both been constructed or otherwise provided to the satisfaction of the Board, the Board shall adopt a resolution accepting the same and determining the actual costs (including financing costs) thereof, as required by Sections 170.08 and 170.09, *Florida Statutes*. Pursuant to the provisions of Section 170.08, *Florida Statutes*, regarding completion of a project funded by a particular series of bonds, the District shall credit to each Assessment the difference, if any, between the Assessment as hereby made, approved and confirmed and the proportionate part of the actual costs of the Capital Improvements, as finally determined upon completion thereof, but in no event shall the final amount of any such special assessment exceed the amount of benefits originally assessed hereunder. In making such credits, no credit shall be given for bond financing costs, capitalized interest, funded reserves or bond discounts. Such credits, if any, shall be entered in the Improvement Lien Book.

## **SECTION 7. PAYMENT OF SPECIAL ASSESSMENTS AND METHOD OF COLLECTION.**

(a) The Assessments may be paid in not more than thirty (30) substantially equal consecutive annual installments of principal and interest. The Assessments may be paid in full without interest at any time within thirty (30) days after the completion of the Capital Improvements and the adoption by the Board of a resolution accepting the Capital Improvements, unless such option has been waived by the owner of the land subject to the Assessments; provided, however, that the Board shall at any time make such adjustments by resolution, at a noticed meeting of the Board, to that payment schedule as may be necessary and in the best interests of the District to account for changes in long and short term debt as actually issued by the District. All impact fee credits received and/or value received for impact fee credits shall be applied against the Capital Improvements costs and/or the outstanding indebtedness of any debt issuance that funded the improvement giving rise to the credits which application may be addressed by such resolutions. At any time subsequent to thirty (30) days after the Capital Improvements have been completed and a resolution accepting the Capital Improvements has been adopted by the Board, the Assessments may be prepaid in full including interest amounts to the next succeeding interest payment date or to the second succeeding interest payment date if such a prepayment is made within forty-five (45) calendar days before an interest payment date. The owner of property subject to Assessments may prepay the entire remaining balance of the Assessments at any time, or a portion of the remaining balance of the Assessment one time if there is also paid, in addition to the prepaid principal balance of the Assessment, an amount equal to the interest that would otherwise be due on such prepaid amount on the next succeeding interest payment date, or, if prepaid during the forty-five day (45) period preceding such interest payment date, to the interest payment date following such next succeeding interest payment date. Prepayment of Assessments does not entitle the property owner to any discounts for early payment.

(b) The District may elect to use the method of collecting Assessments authorized by Sections 197.3632 and 197.3635, *Florida Statutes* (the "Uniform Method"). The District has heretofore taken or will use its best efforts to take as timely required, any necessary actions to comply with the provisions of said Sections 197.3632 and 197.3635, *Florida Statutes*. Such Assessments may be subject to all of the collection provisions of Chapter 197, *Florida Statutes*. Notwithstanding the above, in the event the Uniform Method of collecting its special or non-ad valorem assessments is not available to the District in any year, or if determined by the District to be in its best interest, the Assessments may be collected as is otherwise permitted by law. The District may, in its sole discretion, collect Assessments by directly assessing landowner(s) and enforcing said collection in any manner authorized by law.

(c) For the period the District uses the Uniform Method, the District shall enter into an agreement with the Tax Collector of Polk County who may notify each owner of a lot or parcel within the District of the amount of the special assessment, including interest thereon, in the manner provided in Section 197.3635, *Florida Statutes*.

## **SECTION 8. APPLICATION OF TRUE-UP PAYMENTS.**

(a) Pursuant to the Assessment Report, attached hereto as Exhibit B, there may be required from time to time certain true-up payments. As parcels of land or lots are platted, the Assessments securing the Bonds shall be allocated as set forth in the Assessment Report. In

furtherance thereof, at such time as parcels or land or lots are platted, it shall be an express condition of the lien established by this Resolution that any and all initial plats of any portion of the lands within the District, as the District's boundaries may be amended from time to time, shall be presented to the District Manager for review, approval and calculation of the percentage of acres and numbers of units which will be, after the plat, considered to be developed. No further action by the Board of Supervisors shall be required. The District's review shall be limited solely to this function and the enforcement of the lien established by this Resolution. The District Manager shall cause the Assessments to be reallocated to the units being platted and the remaining property in accordance with Exhibit B, cause such reallocation to be recorded in the District's Improvement Lien Book, and shall perform the true-up calculations described in Exhibit B, which process is incorporated herein as if fully set forth (the "True-Up Methodology"). Any resulting true-up payment shall become due and payable that tax year by the landowner(s) of record of the remaining unplatted property, in addition to the regular assessment installment payable with respect to such remaining unplatted acres.

(b) The District will take all necessary steps to ensure that true-up payments are collected in a timely fashion to ensure its debt service obligations are met. The District shall record all true-up payments in its Improvement Lien Book.

(c) The foregoing is based on the District's understanding with GLK Real Estate, LLC, that it intends to develop the unit numbers and types shown in Exhibit B, on the net developable acres and is intended to provide a formula to ensure that the appropriate ratio of the Assessments to gross acres is maintained if fewer units are developed. However, no action by the District prohibits more than the maximum units shown in Exhibit B from being developed. In no event shall the District collect Assessments pursuant to this Resolution in excess of the total debt service related to the Capital Improvements, including all costs of financing and interest. The District recognizes that such events as regulatory requirements and market conditions may affect the timing and scope of the development in the District. If the strict application of the True-Up Methodology to any assessment reallocation pursuant to this paragraph would result in Assessments collected in excess of the District's total debt service obligation for the Capital Improvements, the Board shall by resolution take appropriate action to equitably reallocate the Assessments. Further, upon the District's review of the final plat for the developable acres, any unallocated Assessments shall become due and payable and must be paid prior to the District's approval of that plat.

(d) The application of the monies received from true-up payments or Assessments to the actual debt service obligations of the District, whether long term or short term, shall be set forth in the supplemental assessment resolution adopted for each series of Bonds actually issued. Such subsequent resolution shall be adopted at a noticed meeting of the District, and shall set forth the actual amounts financed, costs of issuance, expected costs of collection, and the total amount of the assessments pledged to that issue, which amount shall be consistent with the lien imposed by this Resolution. Each such supplemental resolution shall also address the allocation of any impact fee credits expected to be received from the provision of the project funded by the corresponding series of Bonds issued or to be issued.

**SECTION 9. GOVERNMENT PROPERTY; TRANSFERS OF PROPERTY TO UNITS OF LOCAL, STATE, AND FEDERAL GOVERNMENT.** Property owned by units of local, state, and federal government shall not be subject to the Assessments without specific consent thereto. If at any time,

any real property on which Assessments are imposed by this Resolution is sold or otherwise transferred to a unit of local, state, or federal government (without consent of such governmental unit to the imposition of Assessments thereon), all future unpaid Assessments for such tax parcel shall become due and payable immediately prior to such transfer without any further action of the District.

**SECTION 10. ASSESSMENT NOTICE.** The District's Secretary is hereby directed to record a general Notice of Assessments in the Official Records of Polk County, Florida, which shall be updated from time to time in a manner consistent with changes in the boundaries of the District.

**SECTION 11. SEVERABILITY.** If any section or part of a section of this Resolution be declared invalid or unconstitutional, the validity, force and effect of any other section or part of a section of this Resolution shall not thereby be affected or impaired unless it clearly appears that such other section or part of a section of this Resolution is wholly or necessarily dependent upon the section or part of a section so held to be invalid or unconstitutional.

**SECTION 12. CONFLICTS.** All resolutions or parts thereof in conflict herewith are, to the extent of such conflict, superseded and repealed.

**SECTION 13. EFFECTIVE DATE.** This Resolution shall become effective upon its adoption.

*[Remainder of this page intentionally left blank]*

**APPROVED AND ADOPTED** this 20<sup>th</sup> day of May, 2021.

# Westside Haines City Community Development District

## INTRODUCTION

The Westside Haines City Community Development District (the "District" or "CDD") is located on the west side of US Highway 27 (SR 25) from the Minute Maid Ramp Road, south crossing Holly Hill Grove Road 1, 2, and 3 to the southern boundary of Massee Road. The District also crosses Holly Hill Tank Road to the west of FDC Grove Road. The District is located with the city limits of Haines City, Florida ("City") and the unincorporated area of Polk County ("County"). The District currently contains approximately 613.43 acres and is expected to consist of 2,752 residential lots of various sizes for single-family lots and townhome lots with recreation/amenity areas, parks, and associated infrastructure for the various villages.

The CDD was established under County Ordinance No. \_\_\_\_\_, which was approved by the Polk County Commission or City of Haines City on March 17, 2021, and became effective on \_\_\_\_\_. The District will own and operate the public roadways, utilities systems, and stormwater management facilities, as well as the landscape, irrigation, signage, and recreational facilities within the development.

The Master Developer ("Developer") GLK Real Estate LLC is based in Winter Haven, Florida. The Development is approved as a Planned Development (PD) for Residential Units and is divided into three (3) villages: Brentwood, Cascades, and Wynnstone. A land use summary is presented in Table 1.

Public improvements and facilities financed, acquired, and/or constructed by the District will be designed and constructed to conform to regulatory criteria from the city, county, Southwest Florida Water Management District (SWFWMD), and other applicable agencies with regulatory jurisdiction over the development, an overall estimate of the probable cost of the public improvements are provided in Exhibit 7 of this report.

The Capital Improvement Plan ("CIP" or this "Engineer's Report") reflects the present intentions of the District and the landowners. It should be noted that the location of proposed facilities and improvements may be adjusted during the final design, permitting, and implementation phases. It should also be noted that any modifications will not diminish the benefits to the property within the District. The District reserves the right to make reasonable adjustments to the development plan to meet applicable regulatory requirements of agencies with jurisdiction over the development while maintaining a comparable level of benefits to the lands served by the improvements. Changes and modifications are expected as changes in regulatory criteria are implemented.

Implementation of any proposed facilities or improvements outlined in this report requires written approval from the District's Board of Supervisors. Estimated costs outlined in this report are based on the best available information, which includes, but is not limited, to previous experience with similar projects. Actual costs could be different than estimates because final engineering and specific field conditions may affect construction costs.

COMPANY CONFIDENTIAL AND PROPRIETARY: Use or disclosure of data contained on this sheet is subject to restriction on the title page of this proposal.

All roadway improvements including sidewalks in the right-of-way and storm drainage collection systems (from the curb inlets to their connection to the stormwater ponds) within the development will be maintained by the District. Water distribution and wastewater collection systems (gravity lines, force mains, and lift stations) will be dedicated to the County or the City for ownership and maintenance upon completion. The southeastern 46 lots in Cascades Phase 1 will have a private lift station maintained by the CDD and will connect to Haines City's water and sewer service.

## PURPOSE AND SCOPE

The purpose of this report is to provide engineering support for the funding of the proposed improvements within the District. This report will identify the proposed public infrastructure to be constructed or acquired by the District along with an Opinion of Probable Construction Costs. The District will finance, construct, acquire, operate, and maintain all or specific portions of the proposed public infrastructure.

The predominant portion of this report provides descriptions of the proposed public infrastructure improvements, determination of estimated probable construction costs, and the corresponding benefits associated with the implementation of the described improvements. Detailed site construction plans and specifications have not yet been completed and permitted for the improvements described herein. The engineer has considered and in specific instances has relied upon, the information and documentation prepared or supplied by others to prepare this Engineer's Report.

## THE DEVELOPMENT

The development will consist of a total of 2,752 residential units and associated infrastructure. The development is a planned residential community located West of US Highway 27 (SR 25) and consisting of 613.43 acres from the northern boundary around Minute Main Ramp Road 1 and extending south to the southern boundary located around Mossee Road. The District is located within Polk County and the City of Haines City. The land use for the District is planned unit development. The development is zoned RL-1, RL-2, RL-3, and RM within the city limits and zoned RMX and ECX within the unincorporated area of Polk County. The development will be constructed in three (3) villages and have up to eleven (11) phases.

## CAPITAL IMPROVEMENTS

The CIP consists of public infrastructure in each village and each phase of said village. The primary portions of the CIP will provide for stormwater pond construction, roadways built to an urban roadway typical section, water, and sewer facilities including three (3) lift stations and one (1) regional lift station, and off-site improvements (including turn lanes and extension of water and sewer mains to serve the development).

There will also be stormwater structures and conveyance culverts within the CIP that will outfall into the various on-site stormwater ponds. These structures and pond areas comprise the overall stormwater facilities of the CIP. Installation of the water distribution and wastewater collection system will also occur at this time as well as the 4 (four) lift stations serving the project. Below-ground installation of telecommunications and cable television will occur but will not be funded by the District. Installation of streetlights and power within the public rights-of-way or easements will be funded by the District.

As a part of the recreational component of the CIP, there are various amenity centers within the development and specifically for each of the villages of the development. There are four (4) amenity centers: one (1) in the Village of Cascades, one (1) in Wynnstone, and two (2) within Brentwood. The total area of the amenity and recreational parcels is 12.89 acres. There will be conservation areas as well that can serve as passive parks within the various villages and the

development that are available to the public for utilization of the facilities. The amenity centers and recreational areas will have connectivity via sidewalks to the other portions of the District. The amenity centers and recreational areas will be accessed by the public roadways and sidewalks.

## **CAPITAL IMPROVEMENT PLAN COMPONENTS**

The CIP for the District includes the following:

### **Stormwater Management Facilities**

Stormwater Management facilities consisting of storm conveyance systems and retention/detention ponds are contained within the District boundaries. Stormwater will be discharged via roadway curb and gutter and storm inlets. Storm culverts convey the runoff into the proposed retention ponds for water quality treatment and attenuation. The proposed stormwater systems will utilize dry retention and wet retention for biological pollutant assimilation to achieve water quality treatment. The design criteria for the District's stormwater treatment systems are regulated by the city, the county, and SWFWMD. There are various conservation areas throughout the District and will be preserved in the existing condition and these will accept stormwater discharges from our ponds as shown on Exhibit 6.

Federal Emergency Management Agency Flood Insurance Rate Map (FEMA FIRM) Panel No. 12105C0225G, effective date December 22, 2016, demonstrates that the property is located within Flood Zones X, A, and AE. Based on this information and the site topography, it appears that 100-year compensation will be done in areas where we will impact existing depressions throughout the development and the 100-year flood volumes will be compensated as it is required by the city, county, and FEMA.

During the construction of stormwater management facilities, utilities, and roadway improvements the contractor will be required to adhere to a Stormwater Pollution Prevention Plan (SWPPP) as required by the FDEP as delegated by the Environmental Protection Agency (EPA). The SWPPP will be prepared to depict the proposed recommended locations of required erosion control measures and staked turbidity barriers specifically along the downgradient side of any proposed construction activity. The site contractor will be required to provide the necessary reporting as required by the National Pollutant Discharge Elimination System (NPDES) General Permit with erosion control, its maintenance, and any rainfall events that occur during construction activity.

### **Public Roadways**

The proposed public roadway sections include a 24-foot wide roadway consisting of asphalt and with Miami curbs or Type F curb and gutter on both sides along with a 50-foot right-of-way. The proposed roadway section will consist of stabilized subgrade, a lime rock, crushed concrete, or cement-treated base and asphalt type roadway wearing surface. The proposed curb is to be 2-feet wide and placed along the edge of the proposed roadway section for purposes of protecting the integrity of the pavement, and also to provide stormwater runoff conveyance to the proposed stormwater inlets.

The proposed roadways will also require signing and pavement markings within the public rights-of-way, as well as street signs depicting street name identifications, and addressing, which will be utilized by the residents and public. As stated above, the District's funding of roadway construction will occur for all public roadways.

### **Water and Wastewater Facilities**

A potable drinking water system inclusive of water main, gate valves, fire hydrants, and appurtenances will be installed for the District. The water service provider will be Polk County Public Utilities. The water system will be designed to provide an equally distributed system that provides redundancy to the system. These facilities will be installed within

the proposed public rights-of-way and will provide potable drinking water (domestic) and fire protection services to serve the entire District.

A domestic wastewater collection system inclusive of gravity sanitary sewer mains and sewer laterals will be installed. The gravity sanitary sewer mains will be a minimum of eight (8)-inch diameter PVC pipe systems. The gravity sanitary sewer lines will be placed inside of the proposed public rights-of-way, under the proposed paved roadways. Laterals will branch off from these sewer lines to serve the individual lots. Lift stations are anticipated for this CIP. Flow from the lift station shall be connected to a proposed force main that will interconnect three (3) lift stations and all discharge to a master lift station that will pump through a force main that will connect to the city water treatment facility located north of the development.

Polk County Public Utilities will provide the reclaimed water to be used for all irrigation within the CDD. The reclaimed water will be funded by the District and installed onsite within the roadways to provide for irrigation within the public right-of-way or any areas needing irrigation. Any water, sewer, or reclaim water pipes or facilities placed on private property will not be publicly funded.

### **Off-Site Improvements**

The District will provide funding for the anticipated turn lanes at the development entrances. The site construction activities associated with the CIP are anticipated to be completed by villages and phases based on the estimated schedule for each village and phase. The schedule is shown on Exhibit 7. Upon completion of each phase within each village, the improvements will be through the required inspections as well as final certifications of completions will be obtained from SWFWMD, Polk County Health Department (water distribution system), FDEP (wastewater collection), and the city/county.

### **Amenities and Parks**

The District will provide funding for an amenity center to include the following: parking areas, pavilion with public restroom facilities, pool, all-purpose playfields, and walking trails between the phases and villages to provide connectivity to the various amenity centers within the CDD. In addition, there will be public passive parks throughout the development, which will include benches and walking trails.

### **Electric Utilities and Lighting**

The electric distribution system thru the District is currently planned to be underground. The District presently intends to fund and construct the electric conduit, fund and construct the cost for the under-grounding of the electrical system, transformer/cabinet pads, and electric manholes required by Duke Energy (Duke). Electric facilities will be owned and maintained by Duke after the dedication, with Duke providing underground electrical service to the Development. The CDD presently intends to fund the cost to purchase and install the street lighting along the internal roadways within the CDD. These lights will be operated, and maintained by Duke after the completion, with the District funding maintenance costs.

### **Entry Feature**

Landscaping, irrigation, entry features, and walls at the entrances and along the outside boundary of the Development will be provided by the District. The irrigation system will use reclaimed water or an irrigation well. The well and irrigation water mains to the various phases of the development will be constructed and acquired by the CDD with District funds and operated and maintained by the CDD. Landscaping for the roadways will consist of sod, annual flowers, shrubs, ground cover, and trees for the internal roadways within the CDD. Perimeter fencing will be provided

at the site entrances and perimeters. These items will be funded, owned, and maintained by the CDD. It is noted that the City requires the walls as a buffer the development and thus will be funded together with the landscaping.

## Miscellaneous

The stormwater improvements, landscaping and irrigation, recreational improvements, street lighting, and certain permits and professional fees as described in this report are being financed by the District to benefit all of the developable real property within the District. The construction and maintenance of the proposed public improvements will benefit the development for the intended use as a single-family/residential planned development.

## Permitting

Construction permits for all phases are required and include the SWFWMD ERP, Polk County Health Department, FDEP, and City construction plan approval.

Following is a summary of required permits obtained or pending approval for the construction of the public infrastructure improvements for the District:

Phase 1 – All Villages			
Permits/Approvals	Approval/Expected Date		
	Cascades Phase 1	Cascades Phase 2	Brentwood Townhomes Phase 1
Zoning Approval	Haines City RPUD expected 4/1/21	Haines City RPUD – N/A	N/A
Preliminary Plat	Haines City - 4/1/21	Haines City Preliminary Plat – N/A	N/A
SWFWMD ERP	Expected 04/15/2021	Expected – 5/15/2021	Expected – 4/30/2021
Construction Permits	Expected 4/15/2021	Expected – 5/15/2021	Expected – 4/30/2021
Polk County Health Department Water	Expected 4/30/2021	Expected – 5/30/2021	Expected – 5/15/2021
FDEP Sanitary Sewer General Permit	Expected 4/30/2021	Expected – 5/30/2021	Expected – 5/15/2021
FDEP NOI	Expected 4/30/2021	Expected – 5/30/2021	Expected – 5/15/2021

Other Phases and Villages	
Permits/Approvals	Approval/Expected Date
Zoning Approval	TBO
Preliminary Plat	TBO
SWFWMD ERP	TBO
Polk County Utilities Permits	TBO
Polk County Health Department General Water Distribution Permit	TBO
FDEP Sanitary Sewer General Permit	TBO
FDEP NOI – NPDES	TBO
City of Haines City Construction Permit	TBO

## RECOMMENDATION

As previously explained within this report, the public infrastructure, as described, is necessary for the development and functional operation as required by the City and County. The site planning, engineering design, and construction plans for the infrastructure are or will be in accordance with the applicable requirements of the City, the County, and the SWFWMD. It should be noted that the infrastructure will provide its intended use and function so long as the construction and installation are in substantial conformance with the design construction plans and regulatory permits.

Items utilized in the Opinion of Probable Costs for this report are based upon the proposed plan infrastructure as shown on construction drawings incorporating specifications in the most current SWFWMD, Polk County, and the City regulations.

## REPORT MODIFICATION

During the development and implementation of the designed public infrastructure improvements, it may be necessary to make modifications and/or deviations to the plans. However, if such deviations and/or revisions do not change the overall primary objective of the plan for such improvements, then the cost differences would not materially affect the proposed construction cost estimates.

## SUMMARY AND CONCLUSION

The improvements as outlined are necessary for the functional development of the Project. The Project is being designed in accordance with current government regulatory requirements. The Project will serve its intended function provided the construction is in substantial compliance with the design. Items of construction for the Project are based upon current development plans.

## ENGINEER'S CERTIFICATION

It is our professional opinion that the public infrastructure costs for the CIP provided in this report are reasonable to complete the construction of the public infrastructure improvements. Furthermore, the public infrastructure improvements will benefit and add value to lands within the District and the value is at least the same as the costs for said improvements. It is noted that all financed property improvements will be located on district owned lands that is or will be at the time of conveyance to the district or subject to a permanent easement in favor of the district or another public governmental entity.

The Opinion of Probable Costs for the public infrastructure improvements is only an estimate and is not a guaranteed maximum price. The estimated costs are based upon current unit prices and on our experience with ongoing and similar projects and basis in the county and city. However; labor market, future costs of equipment; materials, changes to the regulatory permitting agencies' activities, and the actual construction processes employed by the chosen site contractor are beyond the engineer's control. Due to this inherent opportunity for changes (upward or downward) in the construction costs, the total, final construction cost may be more or less than this estimate.

Based upon the presumption that the CIP construction continues in a timely manner, it is our opinion that the costs of the CIP proposed represent a system of improvements benefitting all developable property located within the District, are fair and reasonable, and that the District-funded improvements are assessable improvements within the meaning of Chapter 190, F.S. We have no reason to believe that the CUP improvements cannot be constructed at the cost described in this report. We expect the improvements to be constructed or acquired by the District with bond proceeds, as indicated within this report. We believe that the District will be well served by the improvements discussed in this report.

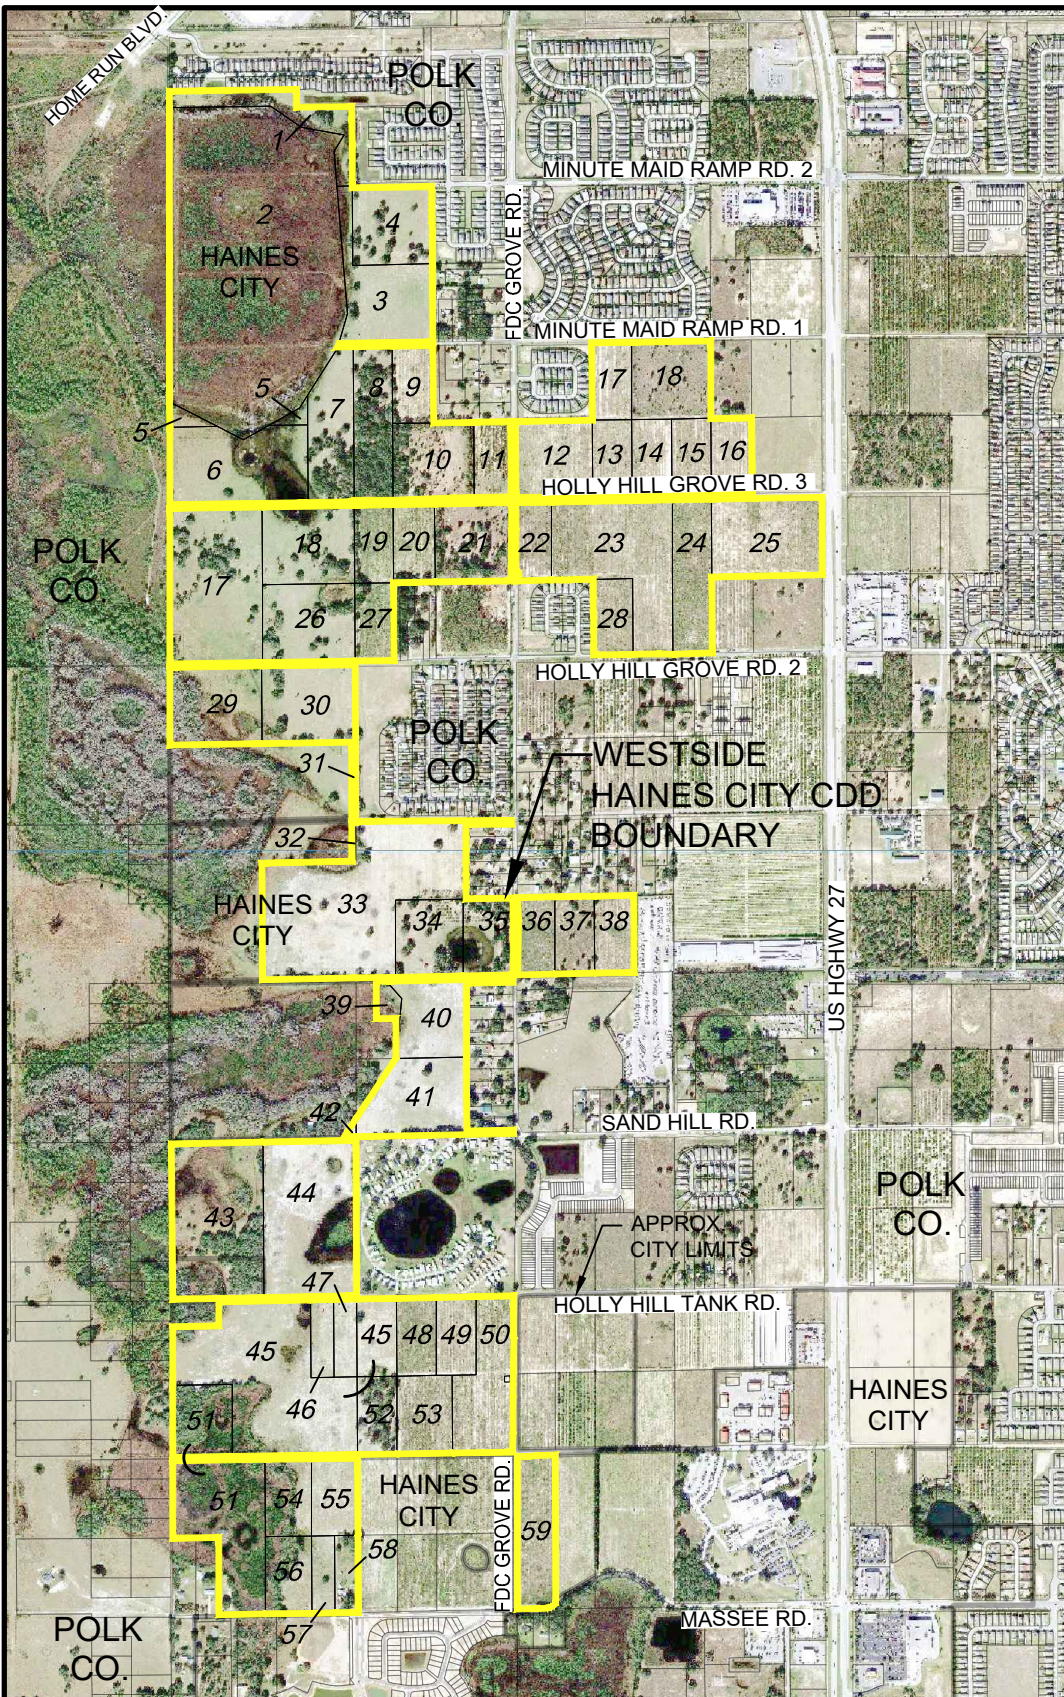

I hereby certify that the foregoing is a true and correct copy of the engineer's report for the Westside Haines City Community Development District.

A handwritten signature in blue ink, appearing to read 'RM', is written over a horizontal line.

- Notes:
- 1. Infrastructure consists of public roadway improvements, Stormwater management facilities, master sanitary sewer lift station and utilities, entry feature, landscaping and signage, and public neighborhood parks, all of which will be located on land owned by or subject to a permanent easement in favor of the District or another governmental entity.
  - 2. Excludes grading of each lot in conjunction with home construction, which will be provided by home builder.
  - 3. Includes Stormwater pond excavation. Does not include the cost of transportation of fill for use of private lots.
  - 4. Includes sub-grade, base, asphalt paving, curbing, and civil/site engineering.
  - 5. Includes subdivision infrastructure and civil/site engineering.
  - 6. Stormwater does not include grading associated with building pads.
  - 7. Estimates are based on 2020 cost.
  - 8. Includes entry features, signage, hardscape, landscape, irrigation and fencing.
  - 9. CDD will enter into a Lighting Agreement with Duke Energy for the streetlight poles and lighting service. Includes only the cost of undergrounding.
  - 10. Estimates based on 2,752 lots.
  - 11. The costs associated with the infrastructure are a master cost and is effectively shared by the entire project (All phases).

GMS-CF, LLC does not represent the Westside Haines City Community Development District as a Municipal Advisor or Securities Broker nor is GMS-CF, LLC registered to provide such services as described in Section 15B of the Securities and Exchange Act of 1934, as amended. Similarly, GMS-CF, LLC does not provide the Westside Haines City Community Development District with financial advisory services or offer investment advice in any form.

## **1.0 Introduction**

The Westside Haines City Community Development District (the “District”) is a local unit of special-purpose government organized and existing under Chapter 190, Florida Statutes as amended. The District anticipates the issuance at this time of not to exceed \$88,000,000 of tax-exempt bonds in one or more series (the “Bonds”) for the purpose of financing certain infrastructure improvements (“Capital Improvement Plan”) within the District more specifically described in the Engineer’s Report dated March 29, 2021 prepared by Dewberry Engineers Inc. as may be amended and supplemented from time to time (the “Engineer’s Report”). The District anticipates the construction of all or a portion of the Capital Improvements or Capital Improvement Plan (“Capital Improvements”) that benefit property owners within the District.

### **1.1 Purpose**

This Master Assessment Methodology (the “Assessment Report”) provides for an assessment methodology that allocates the debt to be incurred by the District to benefiting properties within the District. This Assessment Report allocates the debt to properties based on the special benefits each receives from the Capital Improvements. This Assessment Report will be supplemented with one or more supplemental methodology reports to reflect the actual terms and conditions at the time of the issuance of each series of Bonds issued to finance all or a portion of the Capital Improvements. This Assessment Report is designed to conform to the requirements of Chapters 190 and 170, Florida Statutes, with respect to special assessments and is consistent with our understanding of case law on this subject.

The District intends to levy, impose and collect non ad valorem special assessments (“Special Assessments”) on the benefited lands within the District securing repayment of the Bonds based on this Assessment Report. It is anticipated that all of the proposed Special Assessments will be collected through the Uniform Method of Collection described in Section 197.3632, Florida Statutes or any other legal means available to the District. It is not the intent of this Assessment Report to address any other assessments, if applicable, that may be levied by the District including those for maintenance and operation of the Bonds, a homeowner’s association, or any other unit of government.

### **1.2 Background**

The District currently includes approximately 599.92 acres within Haines City, Florida. The development program for the District currently envisions approximately 2,752 residential units. The proposed development program is depicted in Table 1. It is recognized that such development plan may change, and this Assessment Report will be modified or supplemented accordingly.

The Capital Improvements contemplated by the District in the Capital Improvement Plan will provide facilities that benefit certain property within the District. Specifically, the District will construct and/or acquire certain offsite improvements, stormwater

management facilities, utility facilities, roadways, entry features, and park and amenity features. The acquisition and construction costs are summarized in Table 2.

The assessment methodology is a four-step process.

1. The District Engineer must first determine the public infrastructure improvements that may be provided by the District and the costs to implement the Capital Improvements.
2. The District Engineer determines the assessable acres that benefit from the District's Capital Improvements.
3. A calculation is made to determine the funding amounts necessary to acquire and/or construct the Capital Improvements.
4. This amount is initially divided equally among the benefited properties on a prorated assessable acreage basis. Ultimately, as land is platted, this amount will be assigned to each of the benefited properties based on the number and type of platted units.

### **1.3 Special Benefits and General Benefits**

Capital Improvements undertaken by the District create special and peculiar benefits to the property, different in kind and degree, for properties within its borders as well as general benefits to the public at large. However, as discussed within this Assessment Report, these general benefits are incidental in nature and are readily distinguishable from the special and peculiar benefits, which accrue to property within the District. The implementation of the Capital Improvement Plan enables properties within the boundaries of the District to be developed. Without the District's Capital Improvement Plan, there would be no infrastructure to support development of land within the District. Without these improvements, development of the property within the District would be prohibited by law.

The general public and property owners outside of the District may benefit from the provision of the Capital Improvements. However, any such benefit will be incidental for the purpose of the Capital Improvement Plan, which is designed solely to meet the needs of property within the District. Properties outside of the District boundaries do not depend upon the District's Capital Improvements. The property owners within the District are therefore receiving special benefits not received by the general public and those outside the District's boundaries.

### **1.4 Requirements of a Valid Assessment Methodology**

There are two requirements under Florida law for a valid special assessment:

- 1) The properties must receive a special benefit from the Capital Improvements being paid for.

- 2) The assessments must be fairly and reasonably allocated or apportioned to the properties being assessed based on the special benefit such properties receive.

Florida law provides for a wide application of special assessments that meet these two characteristics of special assessments.

## **1.5 Special Benefits Will Equal or Exceed the Costs Allocated**

The special benefits provided to the property within the District will be equal to or greater than the costs associated with providing these benefits. The District Engineer estimates that the District's Capital Improvement Plan that is necessary to support full development of property within the District will cost approximately \$68,625,000. The District's Underwriter projects that financing costs required to fund the Capital Improvement Plan costs, the cost of issuance of the Bonds, the funding of a debt service reserve account and capitalized interest, will be approximately \$88,000,000. Without the Capital Improvement Plan, the property within the District would not be able to be developed and occupied by future residents of the community.

## **2.0 Assessment Methodology**

### **2.1 Overview**

The District anticipates issuing approximately \$88,000,000 in Bonds in one or more series to fund the District's entire Capital Improvement Plan, provide for capitalized interest, a debt service reserve account and pay cost of issuance. It is the purpose of this Assessment Report to allocate the \$88,000,000 in debt to the properties within the District benefiting from the Capital Improvement Plan. This report will be supplemented to reflect actual bond terms.

Table 1 identifies the land uses and lot sizes in the development as identified by the Developer within the District. The District has commissioned an Engineer's Report that includes estimated construction costs for the Capital Improvements needed to support the development; these construction costs are outlined in Table 2. The Capital Improvements needed to support the development are described in detail in the Engineer's Report and are estimated to cost \$68,625,000. Based on the estimated costs, the size of the Bond issue under current market conditions needed to generate funds to pay for the Capital Improvements and related costs was determined by the District's Underwriter to total approximately \$88,000,000. Table 3 shows the breakdown of the Bond sizing.

## **2.2 Allocation of Debt**

Allocation of debt is a continuous process until the development plan for the District is completed. Until the platting process occurs, the Capital Improvements funded by District Bonds benefits all acres within the District.

The initial assessments will be levied on an equal basis to all gross acreage within the District. A fair and reasonable methodology allocates the debt incurred by the District proportionately to the properties receiving the special benefits. At this point all of the lands within the District are benefiting from the Capital Improvements.

Once platting or the recording of a declaration of condominium of any portion of the District into individual lots or units ("Assigned Properties") has begun, the Special Assessments will be levied to the Assigned Properties based on the benefits they receive, on a first platted, first assigned basis. The "Unassigned Properties" defined as property that has not been platted or subjected to a declaration of condominium, will continue to be assessed on a per acre basis. Eventually the development plan will be completed and the debt relating to the Bonds will be allocated to the assigned properties within the District, which are the beneficiaries of the Capital Improvement Plan, as depicted in Table 5 and Table 6. If there are changes to development plan, a true up of the assessment will be calculated to determine if a debt reduction or true-up payment from the Developer is required. The process is outlined in Section 3.0.

The assignment of debt in this Assessment Report sets forth the process by which debt is apportioned. As mentioned herein, this Assessment Report will be supplemented from time to time.

## **2.3 Allocation of Benefit**

The Capital Improvement Plan consists of offsite improvements, stormwater management facilities, utility facilities, roadways, entry features, and park and amenity features and professional fees along with related incidental costs. There is one product types within the planned development. The single-family home has been set as the base unit and has been assigned one equivalent residential unit ("ERU"). Table 4 shows the allocation of benefit to the particular product type. It is important to note that the benefit derived from the Capital Improvements on a particular unit will exceed the cost that the unit will be paying for such benefits.

## **2.4 Lienability Test: Special and Peculiar Benefit to the Property**

Construction and/or acquisition by the District of its proposed Capital Improvements will provide several types of systems, facilities and services for its residents. These include offsite improvements, stormwater management facilities, utility facilities,

roadways, entry features, and park and amenity features. The benefit from the Capital Improvements accrue in differing amounts and are somewhat dependent on the product type receiving the special benefits peculiar to that property type, which flow from the logical relationship of the Capital Improvements to the assigned properties.

Once these determinations are made, they are reviewed in the light of the special benefits peculiar to the property, which flow to the properties as a result of their logical connection from the Capital Improvements actually provided.

For the provision of the Capital Improvement Plan, the special and peculiar benefits are:

- 1) the added use of the property,
- 2) added enjoyment of the property, and
- 3) the increased marketability and value of the property.

These special and peculiar benefits are real and ascertainable but are not yet capable of being calculated as to value with mathematical certainty. However, each is more valuable than either the cost of, or the actual Special Assessment levied for the Capital Improvement as allocated.

## **2.5 Lienability Test: Reasonable and Fair Apportionment of the Duty to Pay Non-Ad Valorem Assessments**

A reasonable estimate of the proportion of special and peculiar benefits received from the public improvements described in the Capital Improvement Plan is delineated in Table 5 (expressed as Allocation of Par Debt per Product Type). This is also shown on Table 7 depicting Allocation of Par Debt per Product Type.

The determination has been made that the duty to pay the non-ad valorem special assessments is fairly and reasonably apportioned because the special and peculiar benefits to the property derived from the acquisition and/or construction of Capital Improvement Plan have been apportioned to the property within the District according to reasonable estimates of the special and peculiar benefits provided consistent with the product type of assignable properties.

Accordingly, no acre or parcel of property within the boundaries of the District will have a lien for the payment of any Special Assessment more than the determined special benefit particular to that property and therefore, the debt allocation will not be increased more than the debt allocation set forth in this Assessment Report.

In accordance with the benefit allocation suggested for the product types in Table 4, a total debt per unit and an annual assessment per unit have been calculated for each product type (Table 6). These amounts represent the preliminary anticipated per unit

debt allocation assuming all anticipated assigned properties are built and sold as planned, and the entire proposed Capital Improvement Plan is constructed.

### **3.0 True Up Mechanism**

Although the District does not process plats, declaration of condominiums, site plans or revisions thereto, it does have an important role to play during the course of platting and site planning. Whenever a plat, declaration of condominium or site plan is approved, the District must allocate a portion of its debt to the property according to this Assessment Report outlined herein ("Assigned Property"). In addition, the District must also prevent any buildup of debt on property or land that could be fully conveyed and/or platted without all of the debt being allocated ("Unassigned Property"). To preclude this, when platting for 25%, 50%, 75% and 100% of the units planned for platting has occurred within the District, the District will determine the amount of anticipated Bond Special Assessment revenue that remains on the Unassigned Properties, taking into account the full development plan of the District. If the total anticipated Bond Special Assessment revenue to be generated from the Assigned and Unassigned Properties is greater than or equal to the maximum annual debt service then no debt reduction or true-up payment is required. In the case that the revenue generated is less than the required amount then a debt reduction or true-up payment by the landowner in the amount necessary to reduce the par amount of the outstanding Bonds plus accrued interest to a level that will be supported by the new net annual debt service assessments will be required.

If a true-up payment is made less than 45 days prior to an interest payment date, the amount of accrued interest will be calculated to the next succeeding interest payment date.

### **4.0 Assessment Roll**

The District will initially distribute the Special Assessments across the property within the District boundaries on a gross acreage basis. As Assigned Properties become known with certainty, the District will refine its allocation of debt from a per acre basis to a per unit basis as shown in Table 6. If the land use plan or product type changes, then the District will update Table 6 to reflect the changes as part of the foregoing true-up process. As a result, the assessment liens are not finalized with certainty on any acre of land in the District prior to the time final Assigned Properties become known. The preliminary assessment roll is attached as Table 7.

**WESTSIDE HAINES CITY COMMUNITY DEVELOPMENT DISTRICT  
NOTICE OF SPECIAL ASSESSMENTS AND GOVERNMENT LIEN OF RECORD**

**NOTICE IS HEREBY GIVEN** that the Board of Supervisors of the Westside Haines City Community Development District (the “District”), a special-purpose local government established under and pursuant to Chapter 190, Florida Statutes, enjoys a governmental lien on certain lands contained within the real property known as the Westside Haines City Community Development District, and described in **Exhibit A** attached hereto (the “Property”). Such lien is coequal with the lien of all state, county, district and municipal taxes, superior in dignity to all other liens, titles and claims until paid pursuant to Section 170.09 of the Florida Statutes. The District has adopted Resolution Numbers 2021-25, 2021-26, and 2021-29 (the “Assessment Resolutions”), which provide for, levy, and set forth the terms of the non-ad valorem special assessments on the Property (the “Westside Haines City Master Assessments”), which is specifically benefitted by the improvements anticipated to be financed with the proceeds of the District’s Special Assessment Bonds, or other indebtedness (collectively, the “Bonds”). As provided in the Assessment Resolutions, these non-ad valorem assessments do not apply to governmental properties dedicated by plats, deeds or otherwise, including rights of way.

The non-ad valorem special assessments provided for in the Assessment Resolutions were legally and validly determined and levied in accordance with all applicable requirements of Florida law, and these non-ad valorem special assessments constitute, and will at all relevant times in the future constitute, legal, valid, and binding first liens on the land against which assessed until paid, coequal with the liens of all state, county, district, and municipal taxes, and superior in dignity to all other liens, titles, and claims.

The District may collect assessments on any of the lands described in the attached **Exhibit A** by any method authorized by law, which method may change from year to year.

The District is a special-purpose form of local government established pursuant to and governed by Chapter 190, Florida Statutes. Pursuant to Section 190.048, Florida Statutes, you are hereby notified that: **THE WESTSIDE HAINES CITY COMMUNITY DEVELOPMENT DISTRICT MAY IMPOSE AND LEVY TAXES OR ASSESSMENTS, OR BOTH TAXES AND ASSESSMENTS, ON THIS PROPERTY. THESE TAXES AND ASSESSMENTS PAY THE CONSTRUCTION, OPERATION, AND MAINTENANCE COSTS OF CERTAIN PUBLIC FACILITIES AND SERVICES OF THE DISTRICT AND ARE SET ANNUALLY BY THE GOVERNING BOARD OF THE DISTRICT. THESE TAXES AND ASSESSMENTS ARE IN ADDITION TO COUNTY AND OTHER LOCAL GOVERNMENTAL TAXES AND ASSESSMENTS AND ALL OTHER TAXES AND ASSESSMENTS PROVIDED FOR BY LAW.** The District's lien secures the payment of special assessments levied in accordance with Florida Statutes, which special assessments in turn secure the payment of the Bonds. Copies of the *Master Assessment Methodology* dated March 29, 2021, and Assessment Resolutions may be obtained from the registered agent of the District as designated by the Florida Department of Economic Opportunity in accordance with Section 189.014, Florida Statutes, or by contacting the District at:

Westside Haines City Community Development District  
c/o Governmental Management Services – Central Florida, LLC,  
219 East Livingston Street  
Orlando, Florida 32801  
(407) 841-5524

**THE LIEN FOR THE SPECIAL ASSESSMENTS IS STATUTORY AND NO FILING IS NECESSARY IN ORDER TO PERFECT OR PROVIDE RECORD NOTICE THEREOF. THIS NOTICE IS FOR INFORMATION PURPOSES. IN ADDITION TO THE MINUTES, RECORDS AND OTHER MATERIAL OF THE DISTRICT AVAILABLE FROM THE DISTRICT, THIS ALSO CONSTITUTES A LIEN OF RECORD FOR PURPOSES OF SECTION 197.573 OF THE**

**FLORIDA STATUTES AND ALL OTHER APPLICABLE PROVISIONS OF THE FLORIDA  
STATUTES AND ANY OTHER APPLICABLE LAW.**

**IN WITNESS WHEREOF**, this Notice has been executed as of the 20<sup>th</sup> day of May, 2021, and  
recorded in the Official Records of Polk County, Florida.

## **RESOLUTION 2021-30**

### **A RESOLUTION OF THE BOARD OF SUPERVISORS OF THE WESTSIDE HAINES CITY COMMUNITY DEVELOPMENT DISTRICT ADOPTING RULES OF PROCEDURE; PROVIDING A SEVERABILITY CLAUSE; AND PROVIDING AN EFFECTIVE DATE.**

**WHEREAS**, Westside Haines City Community Development District (“**District**”) is a local unit of special purpose government created and existing pursuant to Chapter 190, *Florida Statutes*, being situated partially within the City of Haines City and partially within unincorporated Polk County, Florida; and

**WHEREAS**, Chapter 190, *Florida Statutes*, authorizes the District to adopt rules to govern the administration of the District and to adopt resolutions as may be necessary for the conduct of District business; and

**WHEREAS**, to provide for efficient and effective District operations and to maintain compliance with Florida law, the Board of Supervisors finds that it is in the best interests of the District to adopt by resolution the Rules of Procedure attached hereto as **Exhibit A** for immediate use and application; and

**WHEREAS**, the Board of Supervisors has complied with applicable Florida law concerning rule development and adoption.

### **NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF SUPERVISORS OF THE WESTSIDE HAINES CITY COMMUNITY DEVELOPMENT DISTRICT:**

**SECTION 1.** The attached Rules of Procedure are hereby adopted pursuant to this resolution as necessary for the conduct of District business. These Rules of Procedure shall stay in full force and effect until such time as the Board of Supervisors may amend these rules in accordance with Chapter 190, *Florida Statutes*, or as otherwise to reflect statutory change.

**SECTION 2.** If any provision of this resolution is held to be illegal or invalid, the other provisions shall remain in full force and effect.

**SECTION 3.** This resolution shall become effective upon its passage and shall remain in effect unless rescinded or repealed.

**PASSED AND ADOPTED** this 20<sup>th</sup> day of May, 2021.

**Rule 1.0      General.**

- (1)    The Westside Haines City Community Development District (the “District”) was created pursuant to the provisions of Chapter 190 of the Florida Statutes, and was established to provide for the ownership, operation, maintenance, and provision of various capital facilities and services within its jurisdiction. The purpose of these rules (the “Rules”) is to describe the general operations of the District.
- (2)    Definitions located within any section of these Rules shall be applicable within all other sections, unless specifically stated to the contrary.
- (3)    Unless specifically permitted by a written agreement with the District, the District does not accept documents filed by electronic mail or facsimile transmission. Filings are only accepted during normal business hours.
- (4)    A Rule of the District shall be effective upon adoption by affirmative vote of the District Board. After a Rule becomes effective, it may be repealed or amended only through the rulemaking procedures specified in these Rules. Notwithstanding, the District may immediately suspend the application of a Rule if the District determines that the Rule conflicts with Florida law. In the event that a Rule conflicts with Florida law and its application has not been suspended by the District, such Rule should be interpreted in the manner that best effectuates the intent of the Rule while also complying with Florida law. If the intent of the Rule absolutely cannot be effectuated while complying with Florida law, the Rule shall be automatically suspended.

**Specific Authority:** §§ 190.011(5), 190.011(15), Fla. Stat.

**Law Implemented:** §§ 190.011(5), 190.011(15), Fla. Stat.

**Rule 1.1      Board of Supervisors; Officers and Voting.**

- (1) Board of Supervisors. The Board of Supervisors of the District (the “Board”) shall consist of five (5) members. Members of the Board (“Supervisors”) appointed by ordinance or rule or elected by landowners must be citizens of the United States of America and residents of the State of Florida. Supervisors elected or appointed by the Board to elector seats must be citizens of the United States of America, residents of the State of Florida and of the District and registered to vote with the Supervisor of Elections of the county in which the District is located and for those elected, shall also be qualified to run by the Supervisor of Elections. The Board shall exercise the powers granted to the District under Florida law.
  - (a) Supervisors shall hold office for the term specified by Section 190.006 of the Florida Statutes. If, during the term of office, any Board member(s) vacates their office, the remaining member(s) of the Board shall fill the vacancies by appointment for the remainder of the term(s). If three or more vacancies exist at the same time, a quorum, as defined herein, shall not be required to appoint replacement Board members.
  - (b) Three (3) members of the Board shall constitute a quorum for the purposes of conducting business, exercising powers and all other purposes. A Board member shall be counted toward the quorum if physically present at the meeting, regardless of whether such Board member is prohibited from, or abstains from, participating in discussion or voting on a particular item.
  - (c) Action taken by the Board shall be upon a majority vote of the members present, unless otherwise provided in the Rules or required by law. Subject to Rule 1.3(10), a Board member participating in the Board meeting by teleconference or videoconference shall be entitled to vote and take all other action as though physically present.
  - (d) Unless otherwise provided for by an act of the Board, any one Board member may attend a mediation session on behalf of the Board. Any agreement resulting from such mediation session must be approved pursuant to subsection (1)(c) of this Rule.
- (2) Officers. At the first Board meeting held after each election where the newly elected members take office, the Board shall select a Chairperson, Vice-Chairperson, Secretary, Assistant Secretary, and Treasurer.
  - (a) The Chairperson must be a member of the Board. If the Chairperson resigns from that office or ceases to be a member of the Board, the Board shall select a Chairperson. The Chairperson serves at the pleasure of the Board. The Chairperson shall be authorized to execute resolutions and contracts on the District’s behalf. The Chairperson shall convene and conduct all meetings of the Board. In the event the Chairperson is unable

to attend a meeting, the Vice-Chairperson shall convene and conduct the meeting. The Chairperson or Vice-Chairperson may delegate the responsibility of conducting the meeting to the District's manager ("District Manager") or District Counsel, in whole or in part.

- (b) The Vice-Chairperson shall be a member of the Board and shall have such duties and responsibilities as specifically designated by the Board from time to time. The Vice-Chairperson has the authority to execute resolutions and contracts on the District's behalf in the absence of the Chairperson. If the Vice-Chairperson resigns from office or ceases to be a member of the Board, the Board shall select a Vice-Chairperson. The Vice-Chairperson serves at the pleasure of the Board.
- (c) The Secretary of the Board serves at the pleasure of the Board and need not be a member of the Board. The Secretary shall be responsible for maintaining the minutes of Board meetings and may have other duties assigned by the Board from time to time. An employee of the District Manager may serve as Secretary. The Secretary shall be bonded by a reputable and qualified bonding company in at least the amount of one million dollars (\$1,000,000), or have in place a fidelity bond, employee theft insurance policy, or a comparable product in at least the amount of one million dollars (\$1,000,000) that names the District as an additional insured.
- (d) The Treasurer need not be a member of the Board but must be a resident of the State of Florida. The Treasurer shall perform duties described in Section 190.007(2) and (3) of the Florida Statutes, as well as those assigned by the Board from time to time. The Treasurer shall serve at the pleasure of the Board. The Treasurer shall either be bonded by a reputable and qualified bonding company in at least the amount of one million dollars (\$1,000,000), or have in place a fidelity bond, employee theft insurance policy, or a comparable product in at least the amount of one million dollars (\$1,000,000) that names the District as an additional insured.
- (e) In the event that both the Chairperson and Vice-Chairperson are absent from a Board meeting and a quorum is present, the Board may designate one of its members or a member of District staff to convene and conduct the meeting. In such circumstances, any of the Board members present are authorized to execute agreements, resolutions, and other documents approved by the Board at such meeting. In the event that the Chairperson and Vice-Chairperson are both unavailable to execute a document previously approved by the Board, the Secretary or any Assistant Secretary may execute such document.

- (f) The Board may assign additional duties to District officers from time to time, which include, but are not limited to, executing documents on behalf of the District.
  - (g) The Chairperson, Vice-Chairperson, and any other person authorized by District Resolution may sign checks and warrants for the District, countersigned by the Treasurer or other persons authorized by the Board.
- (3) Committees. The Board may establish committees of the Board, either on a permanent or temporary basis, to perform specifically designated functions. Committees may include individuals who are not members of the Board. Such functions may include, but are not limited to, review of bids, proposals, and qualifications, contract negotiations, personnel matters, and budget preparation.
- (4) Record Book. The Board shall keep a permanent record book entitled "Record of Proceedings," in which shall be recorded minutes of all meetings, resolutions, proceedings, certificates, and corporate acts. The Records of Proceedings shall be located at a District office and shall be available for inspection by the public.
- (5) Meetings. For each fiscal year, the Board shall establish a schedule of regular meetings, which shall be published in a newspaper of general circulation in the county in which the District is located and filed with the local general-purpose governments within whose boundaries the District is located. All meetings of the Board and Committees serving an advisory function shall be open to the public in accord with the provisions of Chapter 286 of the Florida Statutes.
- (6) Voting Conflict of Interest. The Board shall comply with Section 112.3143 of the Florida Statutes, so as to ensure the proper disclosure of conflicts of interest on matters coming before the Board for a vote. For the purposes of this section, "voting conflict of interest" shall be governed by the Florida Constitution and Chapters 112 and 190 of the Florida Statutes, as amended from time to time. Generally, a voting conflict exists when a Board member is called upon to vote on an item which would inure to the Board member's special private gain or loss or the Board member knows would inure to the special private gain or loss of a principal by whom the Board member is retained, the parent organization or subsidiary of a corporate principal, a business associate, or a relative including only a father, mother, son, daughter, husband, wife, brother, sister, father-in-law, mother-in-law, son-in-law, and daughter-in-law.
  - (a) When a Board member knows the member has a conflict of interest on a matter coming before the Board, the member should notify the Board's Secretary prior to participating in any discussion with the Board on the matter. The member shall publicly announce the conflict of interest at the meeting. This announcement shall appear in the minutes.

If the Board member was elected at a landowner's election or appointed to fill a vacancy of a seat last filled at a landowner's election, the Board member may vote or abstain from voting on the matter at issue. If the Board member was elected by electors residing within the District, the Board member is prohibited from voting on the matter at issue. In the event that the Board member intends to abstain or is prohibited from voting, such Board member shall not participate in the discussion on the item subject to the vote.

The Board's Secretary shall prepare a Memorandum of Voting Conflict (Form 8B) which shall then be signed by the Board member, filed with the Board's Secretary, and provided for attachment to the minutes of the meeting within fifteen (15) days of the meeting.

- (b) If a Board member inadvertently votes on a matter and later learns he or she has a conflict on the matter, the member shall immediately notify the Board's Secretary. Within fifteen (15) days of the notification, the member shall file the appropriate Memorandum of Voting Conflict, which will be attached to the minutes of the Board meeting during which the vote on the matter occurred. The Memorandum of Voting Conflict shall immediately be provided to other Board members and shall be read publicly at the next meeting held subsequent to the filing of the Memorandum of Voting Conflict. The Board member's vote is unaffected by this filing.
- (c) It is not a conflict of interest for a Board member, the District Manager, or an employee of the District to be a stockholder, officer or employee of a landowner or of an entity affiliated with a landowner.
- (d) In the event that a Board member elected at a landowner's election or appointed to fill a vacancy of a seat last filled at a landowner's election, has a continuing conflict of interest, such Board member is permitted to file a Memorandum of Voting Conflict at any time in which it shall state the nature of the continuing conflict. Only one such continuing Memorandum of Voting Conflict shall be required to be filed for each term the Board member is in office.

**Specific Authority:** §§ 190.011(5), 190.011(15), Fla. Stat.

**Law Implemented:** §§ 112.3143, 190.006, 190.007, Fla. Stat.

**Rule 1.2      District Offices; Public Information and Inspection of Records; Policies; Service Contract Requirements; Financial Disclosure Coordination.**

(1)    District Offices. Unless otherwise designated by the Board, the official District office shall be the District Manager's office identified by the District Manager. If the District Manager's office is not located within the county in which the District is located, the Board shall designate a local records office within such county which shall at a minimum contain, but not be limited to, the following documents:

- (a)    Agenda packages for prior 24 months and next meeting;
- (b)    Official minutes of meetings, including adopted resolutions of the Board;
- (c)    Names and addresses of current Board members and District Manager, unless such addresses are protected from disclosure by law;
- (d)    Adopted engineer's reports;
- (e)    Adopted assessment methodologies/reports;
- (f)    Adopted disclosure of public financing;
- (g)    Limited Offering Memorandum for each financing undertaken by the District;
- (h)    Proceedings, certificates, bonds given by all employees, and any and all corporate acts;
- (i)    District policies and rules;
- (j)    Fiscal year end audits; and
- (k)    Adopted budget for the current fiscal year.

The District Manager shall ensure that each District records office contains the documents required by Florida law.

(2)    Public Records. District public records include all documents, papers, letters, maps, books, tapes, photographs, films, sound recordings, data processing software, or other material, regardless of the physical form, characteristics, or means of transmission, made or received in connection with the transaction of official business of the District. All District public records not otherwise restricted by law may be copied or inspected at the District Manager's office during regular business hours. Certain District records can also be inspected and copied at the District's local records office during regular business hours. All written public records requests shall be directed to the Secretary who by these rules is appointed

as the District's records custodian. Regardless of the form of the request, any Board member or staff member who receives a public records request shall immediately forward or communicate such request to the Secretary for coordination of a prompt response. The Secretary, after consulting with District Counsel as to the applicability of any exceptions under the public records laws, shall be responsible for responding to the public records request. At no time can the District be required to create records or summaries of records, or prepare opinions regarding District policies, in response to a public records request.

- (3) Service Contracts. Any contract for services, regardless of cost, shall include provisions required by law that require the contractor to comply with public records laws. The District Manager shall be responsible for initially enforcing all contract provisions related to a contractor's duty to comply with public records laws.
- (4) Fees; Copies. Copies of public records shall be made available to the requesting person at a charge of \$0.15 per page for one-sided copies and \$0.20 per page for two-sided copies if not more than 8 ½ by 14 inches. For copies of public records in excess of the sizes listed in this section and for outside duplication services, the charge shall be equal to the actual cost of reproduction. Certified copies of public records shall be made available at a charge of one dollar (\$1.00) per page. If the nature or volume of records requested requires extensive use of information technology resources or extensive clerical or supervisory assistance, the District may charge, in addition to the duplication charge, a special service charge that is based on the cost the District incurs to produce the records requested. This charge may include, but is not limited to, the cost of information technology resource, employee labor, and fees charged to the District by consultants employed in fulfilling the request. In cases where the special service charge is based in whole or in part on the costs incurred by the District due to employee labor, consultant fees, or other forms of labor, those portions of the charge shall be calculated based on the lowest labor cost of the individual(s) who is/are qualified to perform the labor, taking into account the nature or volume of the public records to be inspected or copied. The charge may include the labor costs of supervisory and/or clerical staff whose assistance is required to complete the records request, in accordance with Florida law. For purposes of this Rule, the word "extensive" shall mean that it will take more than 15 minutes to locate, review for confidential information, copy and re-file the requested material. In cases where extensive personnel time is determined by the District to be necessary to safeguard original records being inspected, the special service charge provided for in this section shall apply. If the total fees, including but not limited to special service charges, are anticipated to exceed twenty-five dollars (\$25.00), then, prior to commencing work on the request, the District will inform the person making the public records request of the estimated cost, with the understanding that the final cost may vary from that estimate. If the person making the public records request decides to proceed with the request, payment of the estimated cost is required in advance. Should the person fail to pay the estimate, the District

is under no duty to produce the requested records. After the request has been fulfilled, additional payments or credits may be due. The District is under no duty to produce records in response to future records requests if the person making the request owes the District for past unpaid duplication charges, special service charges, or other required payments or credits.

- (5) Records Retention. The Secretary of the District shall be responsible for retaining the District's records in accordance with applicable Florida law.
- (6) Policies. The Board may adopt policies related to the conduct of its business and the provision of services either by resolution or motion.
- (7) Financial Disclosure Coordination. Unless specifically designated by Board resolution otherwise, the Secretary shall serve as the Financial Disclosure Coordinator ("Coordinator") for the District as required by the Florida Commission on Ethics ("Commission"). The Coordinator shall create, maintain and update a list of the names, e-mail addresses, physical addresses, and names of the agency of, and the office or position held by, all Supervisors and other persons required by Florida law to file a statement of financial interest due to his or her affiliation with the District ("Reporting Individual"). The Coordinator shall provide this list to the Commission by February 1 of each year, which list shall be current as of December 31 of the prior year. Each Supervisor and Reporting Individual shall promptly notify the Coordinator in writing if there are any changes to such person's name, e-mail address, or physical address. Each Supervisor and Reporting Individual shall promptly notify the Commission in the manner prescribed by the Commission if there are any changes to such person's e-mail address.

**Specific Authority:** §§ 190.011(5), 190.011(15), Fla. Stat.

**Law Implemented:** §§ 112.31446(3), 112.3145(8)(a)1., 119.07, 119.0701, 190.006, Fla. Stat.

**Rule 1.3      Public Meetings, Hearings, and Workshops.**

- (1) Notice. Except in emergencies, or as otherwise required by statute or these Rules, at least seven (7) days, but no more than thirty (30) days public notice shall be given of any public meeting, hearing or workshop of the Board. Public notice shall be given by publication in a newspaper of general circulation in the District and in the county in which the District is located. "General circulation" means a publication that is printed and published at least once a week for the preceding year, offering at least 25% of its words in the English language, qualifies as a periodicals material for postal purposes in the county in which the District is located, is for sale to the public generally, is available to the public generally for the publication of official or other notices, and is customarily containing information of a public character or of interest or of value to the residents or owners of property in the county where published, or of interest or of value to the general public. The annual meeting notice required to be published by Section 189.015 of the Florida Statutes, shall be published in a newspaper not of limited subject matter, which is published at least five days a week, unless the only newspaper in the county is published less than five days a week. Each Notice shall state, as applicable:
  - (a) The date, time and place of the meeting, hearing or workshop;
  - (b) A brief description of the nature, subjects, and purposes of the meeting, hearing, or workshop;
  - (c) The District office address for the submission of requests for copies of the agenda, as well as a contact name and telephone number for verbal requests for copies of the agenda; and
  - (d) The following or substantially similar language: "Pursuant to provisions of the Americans with Disabilities Act, any person requiring special accommodations to participate in this meeting/hearing/workshop is asked to advise the District Office at least forty-eight (48) hours before the meeting/hearing/workshop by contacting the District Manager at (407) 841-5524. If you are hearing or speech impaired, please contact the Florida Relay Service at 1 (800) 955-8770 or 1 (800) 955-8771, who can aid you in contacting the District Office."
  - (e) The following or substantially similar language: "A person who decides to appeal any decision made at the meeting/hearing/workshop with respect to any matter considered at the meeting/hearing/workshop is advised that person will need a record of the proceedings and that accordingly, the person may need to ensure that a verbatim record of the proceedings is made including the testimony and evidence upon which the appeal is to be based."

- (f) The following or substantially similar language: “The meeting [or hearing or workshop] may be continued in progress without additional notice to a time, date, and location stated on the record.”
- (2) Mistake. In the event that a meeting is held under the incorrect assumption that notice required by law and these Rules has been given, the Board at its next properly noticed meeting shall cure such defect by considering the agenda items from the prior meeting individually and anew.
- (3) Agenda. The District Manager, under the guidance of District Counsel and the Chairperson or Vice-Chairperson, shall prepare an agenda of the meeting/hearing/workshop. The agenda and any meeting materials available in an electronic format, excluding any confidential and any confidential and exempt information, shall be available to the public at least seven days before the meeting/hearing/workshop, except in an emergency. Meeting materials shall be defined as, and limited to, the agenda, meeting minutes, resolutions, and agreements of the District that District staff deems necessary for Board approval. Inclusion of additional materials for Board consideration other than those defined herein as “meeting materials” shall not convert such materials into “meeting materials.” For good cause, the agenda may be changed after it is first made available for distribution, and additional materials may be added or provided under separate cover at the meeting. The requirement of good cause shall be liberally construed to allow the District to efficiently conduct business and to avoid the expenses associated with special meetings.

The District may, but is not required to, use the following format in preparing its agenda for its regular meetings:

- Call to order
- Roll call
- Public comment
- Organizational matters
- Review of minutes
- Specific items of old business
- Specific items of new business
- Staff reports
  - (a) District Counsel
  - (b) District Engineer
  - (c) District Manager
    - 1. Financial Report
    - 2. Approval of Expenditures
- Supervisor’s requests and comments
- Public comment
- Adjournment

- (4) Minutes. The Secretary shall be responsible for preparing and keeping the minutes of each meeting of the Board. Minutes shall be corrected and approved by the Board at a subsequent meeting. The Secretary may work with other staff members in preparing draft minutes for the Board's consideration.
- (5) Special Requests. Persons wishing to receive, by mail, notices or agendas of meetings, may so advise the District Manager or Secretary at the District Office. Such persons shall furnish a mailing address in writing and shall be required to pre-pay the cost of the copying and postage.
- (6) Emergency Meetings. The Chairperson, or Vice-Chairperson if the Chairperson is unavailable, upon consultation with the District Manager and District Counsel, if available, may convene an emergency meeting of the Board without first having complied with sections (1) and (3) of this Rule, to act on emergency matters that may affect the public health, safety, or welfare. Whenever possible, the District Manager shall make reasonable efforts to provide public notice and notify all Board members of an emergency meeting twenty-four (24) hours in advance. Reasonable efforts may include telephone notification. Notice of the emergency meeting must be provided both before and after the meeting on the District's website, if it has one. Whenever an emergency meeting is called, the District Manager shall be responsible for notifying at least one newspaper of general circulation in the District. After an emergency meeting, the Board shall publish in a newspaper of general circulation in the District, the time, date and place of the emergency meeting, the reasons why an emergency meeting was necessary, and a description of the action taken. Actions taken at an emergency meeting may be ratified by the Board at a regularly noticed meeting subsequently held.
- (7) Public Comment. The Board shall set aside a reasonable amount of time at each meeting for public comment and members of the public shall be permitted to provide comment on any proposition before the Board. The portion of the meeting generally reserved for public comment shall be identified in the agenda. Policies governing public comment may be adopted by the Board in accordance with Florida law.
- (8) Budget Hearing. Notice of hearing on the annual budget(s) shall be in accord with Section 190.008 of the Florida Statutes. Once adopted in accord with Section 190.008 of the Florida Statutes, the annual budget(s) may be amended from time to time by action of the Board. Approval of invoices by the Board in excess of the funds allocated to a particular budgeted line item shall serve to amend the budgeted line item.
- (9) Public Hearings. Notice of required public hearings shall contain the information required by applicable Florida law and by these Rules applicable to meeting notices and shall be mailed and published as required by Florida law. The District Manager shall ensure that all such notices, whether mailed or published, contain the information required by Florida law and these Rules and are mailed and

published as required by Florida law. Public hearings may be held during Board meetings when the agenda includes such public hearing.

- (10) Participation by Teleconference/Videoconference. District staff may participate in Board meetings by teleconference or videoconference. Board members may also participate in Board meetings by teleconference or videoconference if in the good judgment of the Board extraordinary circumstances exist; provided however, at least three Board members must be physically present at the meeting location to establish a quorum. Such extraordinary circumstances shall be presumed when a Board member participates by teleconference or videoconference, unless a majority of the Board members physically present determines that extraordinary circumstances do not exist.
- (11) Board Authorization. The District has not adopted Robert's Rules of Order. For each agenda item, there shall be discussion permitted among the Board members during the meeting. Unless such procedure is waived by the Board, approval or disapproval of resolutions and other proposed Board actions shall be in the form of a motion by one Board member, a second by another Board member, and an affirmative vote by the majority of the Board members present. Any Board member, including the Chairperson, can make or second a motion.
- (12) Continuances. Any meeting or public hearing of the Board may be continued without re-notice or re-advertising provided that:
  - (a) The Board identifies on the record at the original meeting a reasonable need for a continuance;
  - (b) The continuance is to a specified date, time, and location publicly announced at the original meeting; and
  - (c) The public notice for the original meeting states that the meeting may be continued to a date and time and states that the date, time, and location of any continuance shall be publicly announced at the original meeting and posted at the District Office immediately following the original meeting.
- (13) Attorney-Client Sessions. An Attorney-Client Session is permitted when the District's attorneys deem it necessary to meet in private with the Board to discuss pending litigation to which the District is a party before a court or administrative agency or as may be authorized by law. The District's attorney must request such session at a public meeting. Prior to holding the Attorney-Client Session, the District must give reasonable public notice of the time and date of the session and the names of the persons anticipated to attend the session. The session must commence at an open meeting in which the Chairperson or Vice-Chairperson announces the commencement of the session, the estimated length of the session, and the names of the persons who will be attending the session. The discussion during the session is confined to settlement negotiations or strategy

related to litigation expenses or as may be authorized by law. Only the Board, the District's attorneys (including outside counsel), the District Manager, and the court reporter may attend an Attorney-Client Session. During the session, no votes may be taken and no final decisions concerning settlement can be made. Upon the conclusion of the session, the public meeting is reopened, and the Chairperson or Vice-Chairperson must announce that the session has concluded. The session must be transcribed by a court-reporter and the transcript of the session filed with the District Secretary within a reasonable time after the session. The transcript shall not be available for public inspection until after the conclusion of the litigation.

- (14) Security and Firesafety Board Discussions. Portions of a meeting which relate to or would reveal a security or firesafety system plan or portion thereof made confidential and exempt by section 119.071(3)(a), Florida Statutes, are exempt from the public meeting requirements and other requirements of section 286.011, Florida Statutes, and section 24(b), Article 1 of the State Constitution. Should the Board wish to discuss such matters, members of the public shall be required to leave the meeting room during such discussion. Any records of the Board's discussion of such matters, including recordings or minutes, shall be maintained as confidential and exempt records in accordance with Florida law.

**Specific Authority:** §§ 190.011(5), 190.011(15), Fla. Stat.

**Law Implemented:** §§ 189.069(2)(a)16, 190.006, 190.007, 190.008, 286.0105, 286.011, 286.0113, 286.0114, Fla. Stat.

**Rule 1.4      Internal Controls to Prevent Fraud, Waste and Abuse**

- (1)    Internal Controls.    The District shall establish and maintain internal controls designed to:
- (a)    Prevent and detect “fraud,” “waste” and “abuse” as those terms are defined in section 11.45(1), Florida Statutes; and
  - (b)    Promote and encourage compliance with applicable laws, rules contracts, grant agreements, and best practices; and
  - (c)    Support economical and efficient operations; and
  - (d)    Ensure reliability of financial records and reports; and
  - (e)    Safeguard assets.
- (2)    Adoption.    The internal controls to prevent fraud, waste and abuse shall be adopted and amended by the District in the same manner as District policies.

**Specific Authority:** §§ 190.011(5), 190.011(15), Fla. Stat.

**Law Implemented:** § 218.33(3), Fla. Stat.

## **Rule 2.0      Rulemaking Proceedings.**

- (1) Commencement of Proceedings. Proceedings held for adoption, amendment, or repeal of a District rule shall be conducted according to these Rules. Rulemaking proceedings shall be deemed to have been initiated upon publication of notice by the District. A “rule” is a District statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedure or practice requirements of the District (“Rule”). Nothing herein shall be construed as requiring the District to consider or adopt rules unless required by Chapter 190 of the Florida Statutes. Policies adopted by the District which do not consist of rates, fees, rentals or other monetary charges may be, but are not required to be, implemented through rulemaking proceedings.
- (2) Notice of Rule Development.
  - (a) Except when the intended action is the repeal of a Rule, the District shall provide notice of the development of a proposed rule by publication of a Notice of Rule Development in a newspaper of general circulation in the District before providing notice of a proposed rule as required by section (3) of this Rule. Consequently, the Notice of Rule Development shall be published at least twenty-nine (29) days prior to the public hearing on the proposed Rule. The Notice of Rule Development shall indicate the subject area to be addressed by rule development, provide a short, plain explanation of the purpose and effect of the proposed rule, cite the specific legal authority for the proposed rule, and include a statement of how a person may promptly obtain, without cost, a copy of any preliminary draft, if available.
  - (b) All rules as drafted shall be consistent with Sections 120.54(1)(g) and 120.54(2)(b) of the Florida Statutes.
- (3) Notice of Proceedings and Proposed Rules.
  - (a) Prior to the adoption, amendment, or repeal of any rule other than an emergency rule, the District shall give notice of its intended action, setting forth a short, plain explanation of the purpose and effect of the proposed action, a reference to the specific rulemaking authority pursuant to which the rule is adopted, and a reference to the section or subsection of the Florida Statutes being implemented, interpreted, or made specific. The notice shall include a summary of the District’s statement of the estimated regulatory costs, if one has been prepared, based on the factors set forth in Section 120.541(2) of the Florida Statutes, and a statement that any person who wishes to provide the District with a lower cost regulatory alternative as provided by Section 120.541(1), must do so in writing within twenty-one (21) days after publication of the notice. The notice shall additionally include a statement that any affected person may request a

public hearing by submitting a written request within twenty-one (21) days after the date of publication of the notice. Except when intended action is the repeal of a rule, the notice shall include a reference to both the date on which and the place where the Notice of Rule Development required by section (2) of this Rule appeared.

- (b) The notice shall be published in a newspaper of general circulation in the District and each county in which the District is located not less than twenty-eight (28) days prior to the intended action. The proposed rule shall be available for inspection and copying by the public at the time of the publication of notice.
  - (c) The notice shall be mailed to all persons named in the proposed rule and to all persons who, at least fourteen (14) days prior to such mailing, have made requests of the District for advance notice of its rulemaking proceedings. Any person may file a written request with the District Manager to receive notice by mail of District proceedings to adopt, amend, or repeal a rule. Such persons must furnish a mailing address and may be required to pay the cost of copying and mailing.
- (4) Rule Development Workshops. Whenever requested in writing by any affected person, the District must either conduct a rule development workshop prior to proposing rules for adoption or the Chairperson must explain in writing why a workshop is unnecessary. The District may initiate a rule development workshop but is not required to do so.
- (5) Petitions to Initiate Rulemaking. All Petitions to Initiate Rulemaking proceedings must contain the name, address, and telephone number of the petitioner, the specific action requested, the specific reason for adoption, amendment, or repeal, the date submitted, the text of the proposed rule, and the facts showing that the petitioner is regulated by the District or has a substantial interest in the rulemaking. Not later than sixty (60) calendar days following the date of filing a petition, the Board shall initiate rulemaking proceedings or deny the petition with a written statement of its reasons for the denial. If the petition is directed to an existing policy that the District has not formally adopted as a rule, the District may, in its discretion, notice and hold a public hearing on the petition to consider the comments of the public directed to the policy, its scope and application, and to consider whether the public interest is served adequately by the application of the policy on a case-by-case basis, as contrasted with its formal adoption as a rule. However, this section shall not be construed as requiring the District to adopt a rule to replace a policy.
- (6) Rulemaking Materials. After the publication of the notice referenced in section (3) of this Rule, the Board shall make available for public inspection and shall provide, upon request and payment of the cost of copies, the following materials:

- (a) The text of the proposed rule, or any amendment or repeal of any existing rules;
  - (b) A detailed written statement of the facts and circumstances justifying the proposed rule;
  - (c) A copy of the statement of estimated regulatory costs if required by Section 120.541 of the Florida Statutes; and
  - (d) The published notice.
- (7) Hearing. The District may, or, upon the written request of any affected person received within twenty-one (21) days after the date of publication of the notice described in section (3) of this Rule, shall, provide a public hearing for the presentation of evidence, argument, and oral statements, within the reasonable conditions and limitations imposed by the District to avoid duplication, irrelevant comments, unnecessary delay, or disruption of the proceedings. The District shall publish notice of the public hearing in a newspaper of general circulation within the District either in the text of the notice described in section (3) of this Rule or in a separate publication at least seven (7) days before the scheduled public hearing. The notice shall specify the date, time, and location of the public hearing, and the name, address, and telephone number of the District contact person who can provide information about the public hearing. Written statements may be submitted by any person prior to or at the public hearing. All timely submitted written statements shall be considered by the District and made part of the rulemaking record.
- (8) Emergency Rule Adoption. The Board may adopt an emergency rule if it finds that immediate danger to the public health, safety, or welfare exists which requires immediate action. Prior to the adoption of an emergency rule, the District Manager shall make reasonable efforts to notify a newspaper of general circulation in the District. Notice of emergency rules shall be published as soon as possible in a newspaper of general circulation in the District. The District may use any procedure which is fair under the circumstances in the adoption of an emergency rule as long as it protects the public interest as determined by the District and otherwise complies with these provisions.
- (9) Negotiated Rulemaking. The District may use negotiated rulemaking in developing and adopting rules pursuant to Section 120.54(2)(d) of the Florida Statutes, except that any notices required under Section 120.54(2)(d) of the Florida Statutes, may be published in a newspaper of general circulation in the county in which the District is located.
- (10) Rulemaking Record. In all rulemaking proceedings, the District shall compile and maintain a rulemaking record. The record shall include, if applicable:

- (a) The texts of the proposed rule and the adopted rule;
- (b) All notices given for a proposed rule;
- (c) Any statement of estimated regulatory costs for the rule;
- (d) A written summary of hearings, if any, on the proposed rule;
- (e) All written comments received by the District and responses to those written comments; and
- (f) All notices and findings pertaining to an emergency rule.

(11) Petitions to Challenge Existing Rules.

- (a) Any person substantially affected by a rule may seek an administrative determination of the invalidity of the rule on the ground that the rule is an invalid exercise of the District's authority.
- (b) The petition seeking an administrative determination must state with particularity the provisions alleged to be invalid with sufficient explanation of the facts or grounds for the alleged invalidity and facts sufficient to show that the person challenging a rule is substantially affected by it.
- (c) The petition shall be filed with the District. Within 10 days after receiving the petition, the Chairperson shall, if the petition complies with the requirements of subsection (b) of this section, designate any member of the Board (including the Chairperson), District Manager, District Counsel, or other person as a hearing officer who shall conduct a hearing within 30 days thereafter, unless the petition is withdrawn or a continuance is granted by agreement of the parties. The failure of the District to follow the applicable rulemaking procedures or requirements in this Rule shall be presumed to be material; however, the District may rebut this presumption by showing that the substantial interests of the petitioner and the fairness of the proceedings have not been impaired.
- (d) Within 30 days after the hearing, the hearing officer shall render a decision and state the reasons therefor in writing.
- (e) Hearings held under this section shall be de novo in nature. The petitioner has a burden of proving by a preponderance of the evidence that the existing rule is an invalid exercise of District authority as to the objections raised. The hearing officer may:
  - (i) Administer oaths and affirmations;

- (ii) Rule upon offers of proof and receive relevant evidence;
    - (iii) Regulate the course of the hearing, including any pre-hearing matters;
    - (iv) Enter orders; and
    - (v) Make or receive offers of settlement, stipulation, and adjustment.
  - (f) The petitioner and the District shall be adverse parties. Other substantially affected persons may join the proceedings as intervenors on appropriate terms which shall not unduly delay the proceedings.
- (12) Variances and Waivers. A “variance” means a decision by the District to grant a modification to all or part of the literal requirements of a rule to a person who is subject to the rule. A “waiver” means a decision by the District not to apply all or part of a rule to a person who is subject to the rule. Variances and waivers from District rules may be granted subject to the following:
- (a) Variances and waivers shall be granted when the person subject to the rule demonstrates that the purpose of the underlying statute will be or has been achieved by other means by the person, and when application of the rule would create a substantial hardship or would violate principles of fairness. For purposes of this section, "substantial hardship" means a demonstrated economic, technological, legal, or other type of hardship to the person requesting the variance or waiver. For purposes of this section, "principles of fairness" are violated when the literal application of a rule affects a particular person in a manner significantly different from the way it affects other similarly situated persons who are subject to the rule.
  - (b) A person who is subject to regulation by a District Rule may file a petition with the District, requesting a variance or waiver from the District’s Rule. Each petition shall specify:
    - (i) The rule from which a variance or waiver is requested;
    - (ii) The type of action requested;
    - (iii) The specific facts that would justify a waiver or variance for the petitioner; and
    - (iv) The reason why the variance or the waiver requested would serve the purposes of the underlying statute.
  - (c) The District shall review the petition and may request only that information needed to clarify the petition or to answer new questions raised by or directly related to the petition. If the petitioner asserts that

any request for additional information is not authorized by law or by Rule of the District, the District shall proceed, at the petitioner's written request, to process the petition.

- (d) The Board shall grant or deny a petition for variance or waiver and shall announce such disposition at a publicly held meeting of the Board, within ninety (90) days after receipt of the original petition, the last item of timely requested additional material, or the petitioner's written request to finish processing the petition. The District's statement granting or denying the petition shall contain a statement of the relevant facts and reasons supporting the District's action.

- (13) Rates, Fees, Rentals and Other Charges. All rates, fees, rentals, or other charges shall be subject to rulemaking proceedings. Policies adopted by the District which do not consist of rates, fees, rentals or other charges may be, but are not required to be, implemented through rulemaking proceedings.

**Specific Authority:** §§ 190.011(5), 190.011(15), 190.035, Fla. Stat.

**Law Implemented:** §§ 190.011(5), 190.035(2), Fla. Stat.

**Rule 3.0      Competitive Purchase.**

- (1) Purpose and Scope. In order to comply with Sections 190.033(1) through (3), 287.055 and 287.017 of the Florida Statutes, the following provisions shall apply to the purchase of Professional Services, insurance, construction contracts, design-build services, goods, supplies, and materials, Contractual Services, and maintenance services.
- (2) Board Authorization. Except in cases of an Emergency Purchase, a competitive purchase governed by these Rules shall only be undertaken after authorization by the Board.
- (3) Definitions.
  - (a) “Competitive Solicitation” means a formal, advertised procurement process, other than an Invitation to Bid, Request for Proposals, or Invitation to Negotiate, approved by the Board to purchase commodities and/or services which affords vendors fair treatment in the competition for award of a District purchase contract.
  - (b) “Continuing Contract” means a contract for Professional Services entered into in accordance with Section 287.055 of the Florida Statutes, between the District and a firm, whereby the firm provides Professional Services to the District for projects in which the costs do not exceed two million dollars (\$2,000,000), for a study activity when the fee for such Professional Services to the District does not exceed two hundred thousand dollars (\$200,000), or for work of a specified nature as outlined in the contract with the District, with no time limitation except that the contract must provide a termination clause (for example, a contract for general District engineering services). Firms providing Professional Services under Continuing Contracts shall not be required to bid against one another.
  - (c) “Contractual Service” means the rendering by a contractor of its time and effort rather than the furnishing of specific commodities. The term applies only to those services rendered by individuals and firms who are independent contractors. Contractual Services do not include auditing services, Maintenance Services, or Professional Services as defined in Section 287.055(2)(a) of the Florida Statutes, and these Rules. Contractual Services also do not include any contract for the furnishing of labor or materials for the construction, renovation, repair, modification, or demolition of any facility, building, portion of building, utility, park, parking lot, or structure or other improvement to real property entered into pursuant to Chapter 255 of the Florida Statutes, and Rules 3.5 or 3.6.
  - (d) “Design-Build Contract” means a single contract with a Design-Build Firm for the design and construction of a public construction project.

- (e) “Design-Build Firm” means a partnership, corporation or other legal entity that:
  - (i) Is certified under Section 489.119 of the Florida Statutes, to engage in contracting through a certified or registered general contractor or a certified or registered building contractor as the qualifying agent; or
  - (ii) Is certified under Section 471.023 of the Florida Statutes, to practice or to offer to practice engineering; certified under Section 481.219 of the Florida Statutes, to practice or to offer to practice architecture; or certified under Section 481.319 of the Florida Statutes, to practice or to offer to practice landscape architecture.
- (f) “Design Criteria Package” means concise, performance-oriented drawings or specifications for a public construction project. The purpose of the Design Criteria Package is to furnish sufficient information to permit Design-Build Firms to prepare a bid or a response to the District’s Request for Proposals, or to permit the District to enter into a negotiated Design-Build Contract. The Design Criteria Package must specify performance-based criteria for the public construction project, including the legal description of the site, survey information concerning the site, interior space requirements, material quality standards, schematic layouts and conceptual design criteria of the project, cost or budget estimates, design and construction schedules, site development requirements, provisions for utilities, stormwater retention and disposal, and parking requirements applicable to the project. Design Criteria Packages shall require firms to submit information regarding the qualifications, availability, and past work of the firms, including the partners and members thereof.
- (g) “Design Criteria Professional” means a firm who holds a current certificate of registration under Chapter 481 of the Florida Statutes, to practice architecture or landscape architecture, or a firm who holds a current certificate as a registered engineer under Chapter 471 of the Florida Statutes, to practice engineering, and who is employed by or under contract to the District to provide professional architect services, landscape architect services, or engineering services in connection with the preparation of the Design Criteria Package.
- (h) “Emergency Purchase” means a purchase necessitated by a sudden unexpected turn of events (for example, acts of God, riot, fires, floods, hurricanes, accidents, or any circumstances or cause beyond the control of the Board in the normal conduct of its business), where the Board finds that the delay incident to competitive purchase would be detrimental to the interests of the District. This includes, but is not limited to, instances

where the time to competitively award the project will jeopardize the funding for the project, will materially increase the cost of the project, or will create an undue hardship on the public health, safety, or welfare.

- (i) “Invitation to Bid” is a written solicitation for sealed bids with the title, date, and hour of the public bid opening designated specifically and defining the commodity or service involved. It includes printed instructions prescribing conditions for bidding, qualification, evaluation criteria, and provides for a manual signature of an authorized representative. It may include one or more bid alternates.
- (j) “Invitation to Negotiate” means a written solicitation for competitive sealed replies to select one or more vendors with which to commence negotiations for the procurement of commodities or services.
- (k) “Negotiate” means to conduct legitimate, arm’s length discussions and conferences to reach an agreement on a term or price.
- (l) “Professional Services” means those services within the scope of the practice of architecture, professional engineering, landscape architecture, or registered surveying and mapping, as defined by the laws of Florida, or those services performed by any architect, professional engineer, landscape architect, or registered surveyor and mapper, in connection with the firm's or individual's professional employment or practice.
- (m) “Proposal (or Reply or Response) Most Advantageous to the District” means, as determined in the sole discretion of the Board, the proposal, reply, or response that is:
  - (i) Submitted by a person or firm capable and qualified in all respects to perform fully the contract requirements, who has the integrity and reliability to assure good faith performance;
  - (ii) The most responsive to the Request for Proposals, Invitation to Negotiate, or Competitive Solicitation as determined by the Board; and
  - (iii) For a cost to the District deemed by the Board to be reasonable.
- (n) “Purchase” means acquisition by sale, rent, lease, lease/purchase, or installment sale. It does not include transfer, sale, or exchange of goods, supplies, or materials between the District and any federal, state, regional or local governmental entity or political subdivision of the State of Florida.
- (o) “Request for Proposals” or “RFP” is a written solicitation for sealed proposals with the title, date, and hour of the public opening designated

and requiring the manual signature of an authorized representative. It may provide general information, applicable laws and rules, statement of work, functional or general specifications, qualifications, proposal instructions, work detail analysis, and evaluation criteria as necessary.

- (p) “Responsive and Responsible Bidder” means an entity or individual that has submitted a bid that conforms in all material respects to the Invitation to Bid and has the capability in all respects to fully perform the contract requirements and the integrity and reliability that will assure good faith performance. “Responsive and Responsible Vendor” means an entity or individual that has submitted a proposal, reply, or response that conforms in all material respects to the Request for Proposals, Invitation to Negotiate, or Competitive Solicitation and has the capability in all respects to fully perform the contract requirements and the integrity and reliability that will assure good faith performance. In determining whether an entity or individual is a Responsive and Responsible Bidder (or Vendor), the District may consider, in addition to factors described in the Invitation to Bid, Request for Proposals, Invitation to Negotiate, or Competitive Solicitation, the following:
  - (i) The ability and adequacy of the professional personnel employed by the entity/individual;
  - (ii) The past performance of the entity/individual for the District and in other professional employment;
  - (iii) The willingness of the entity/individual to meet time and budget requirements;
  - (iv) The geographic location of the entity’s/individual’s headquarters or office in relation to the project;
  - (v) The recent, current, and projected workloads of the entity/individual;
  - (vi) The volume of work previously awarded to the entity/individual;
  - (vii) Whether the cost components of the bid or proposal are appropriately balanced; and
  - (viii) Whether the entity/individual is a certified minority business enterprise.
- (q) “Responsive Bid,” “Responsive Proposal,” “Responsive Reply,” and “Responsive Response” all mean a bid, proposal, reply, or response which conforms in all material respects to the specifications and conditions in the

Invitation to Bid, Request for Proposals, Invitations to Negotiate, or Competitive Solicitation document and these Rules, and the cost components of which, if any, are appropriately balanced. A bid, proposal, reply or response is not responsive if the person or firm submitting it fails to meet any material requirement relating to the qualifications, financial stability, or licensing of the bidder.

**Specific Authority:** §§ 190.011(5), 190.011(15), Fla. Stat.

**Law Implemented:** §§ 190.033, 255.20, 287.055, Fla. Stat.

**Rule 3.1      Procedure Under the Consultants' Competitive Negotiations Act.**

- (1) Scope. The following procedures are adopted for the selection of firms or individuals to provide Professional Services exceeding the thresholds herein described, for the negotiation of such contracts, and to provide for protest of actions of the Board under this Rule. As used in this Rule, "Project" means that fixed capital outlay study or planning activity when basic construction cost is estimated by the District to exceed the threshold amount provided in Section 287.017 of the Florida Statutes, for CATEGORY FIVE, or for a planning study activity when the fee for Professional Services is estimated by the District to exceed the threshold amount provided in Section 287.017 for CATEGORY TWO, as such categories may be amended or adjusted from time to time.
- (2) Qualifying Procedures. In order to be eligible to provide Professional Services to the District, a consultant must, at the time of receipt of the firm's qualification submittal:
  - (a) Hold all required applicable state professional licenses in good standing;
  - (b) Hold all required applicable federal licenses in good standing, if any;
  - (c) Hold a current and active Florida corporate charter or be authorized to do business in the State of Florida in accordance with Chapter 607 of the Florida Statutes, if the consultant is a corporation; and
  - (d) Meet any qualification requirements set forth in the District's Request for Qualifications.

Evidence of compliance with this Rule may be submitted with the qualifications, if requested by the District. In addition, evidence of compliance must be submitted any time requested by the District.

- (3) Public Announcement. Except in cases of valid public emergencies as certified by the Board, the District shall announce each occasion when Professional Services are required for a Project or a Continuing Contract by publishing a notice providing a general description of the Project, or the nature of the Continuing Contract, and the method for interested consultants to apply for consideration. The notice shall appear in at least one (1) newspaper of general circulation in the District and in such other places as the District deems appropriate. The notice must allow at least fourteen (14) days for submittal of qualifications from the date of publication. The District may maintain lists of consultants interested in receiving such notices. These consultants are encouraged to submit annually statements of qualifications and performance data. The District shall make reasonable efforts to provide copies of any notices to such consultants, but the failure to do so shall not give such consultants any bid protest or other rights or otherwise disqualify any otherwise valid procurement process. The Board has the right to reject any and

all qualifications, and such reservation shall be included in the published notice. Consultants not receiving a contract award shall not be entitled to recover from the District any costs of qualification package preparation or submittal.

(4) Competitive Selection.

- (a) The Board shall review and evaluate the data submitted in response to the notice described in section (3) of this Rule regarding qualifications and performance ability, as well as any statements of qualifications on file. The Board shall conduct discussions with, and may require public presentation by consultants regarding their qualifications, approach to the Project, and ability to furnish the required services. The Board shall then select and list the consultants, in order of preference, deemed to be the most highly capable and qualified to perform the required Professional Services, after considering these and other appropriate criteria:
  - (i) The ability and adequacy of the professional personnel employed by each consultant;
  - (ii) Whether a consultant is a certified minority business enterprise;
  - (iii) Each consultant's past performance;
  - (iv) The willingness of each consultant to meet time and budget requirements;
  - (v) The geographic location of each consultant's headquarters, office and personnel in relation to the project;
  - (vi) The recent, current, and projected workloads of each consultant; and
  - (vii) The volume of work previously awarded to each consultant by the District.
- (b) Nothing in these Rules shall prevent the District from evaluating and eventually selecting a consultant if less than three (3) Responsive qualification packages, including packages indicating a desire not to provide Professional Services on a given Project, are received.
- (c) If the selection process is administered by any person or committee other than the full Board, the selection made will be presented to the full Board with a recommendation that competitive negotiations be instituted with the selected firms in order of preference listed.

- (d) Notice of the rankings adopted by the Board, including the rejection of some or all qualification packages, shall be provided in writing to all consultants by United States Mail, hand delivery, facsimile, or overnight delivery service. The notice shall include the following statement: "Failure to file a protest within the time prescribed in Rule 3.11 of the Rules of the District shall constitute a waiver of proceedings under those Rules," or wording to that effect. Protests of the District's ranking decisions under this Rule shall be in accordance with the procedures set forth in Rule 3.11.

(5) Competitive Negotiation.

- (a) After the Board has authorized the beginning of competitive negotiations, the District may begin such negotiations with the firm listed as most qualified to perform the required Professional Services at a rate or amount of compensation which the Board determines is fair, competitive, and reasonable.
- (b) In negotiating a lump-sum or cost-plus-a-fixed-fee professional contract for more than the threshold amount provided in Section 287.017 of the Florida Statutes, for CATEGORY FOUR, the firm receiving the award shall be required to execute a truth-in-negotiation certificate stating that "wage rates and other factual unit costs supporting the compensation are accurate, complete and current at the time of contracting." In addition, any professional service contract under which such a certificate is required, shall contain a provision that "the original contract price and any additions thereto, shall be adjusted to exclude any significant sums by which the Board determines the contract price was increased due to inaccurate, incomplete, or noncurrent wage rates and other factual unit costs."
- (c) Should the District be unable to negotiate a satisfactory agreement with the firm determined to be the most qualified at a price deemed by the District to be fair, competitive, and reasonable, then negotiations with that firm shall be terminated and the District shall immediately begin negotiations with the second most qualified firm. If a satisfactory agreement with the second firm cannot be reached, those negotiations shall be terminated and negotiations with the third most qualified firm shall be undertaken.
- (d) Should the District be unable to negotiate a satisfactory agreement with one of the top three (3) ranked consultants, additional firms shall be selected by the District, in order of their competence and qualifications. Negotiations shall continue, beginning with the first-named firm on the list, until an agreement is reached or the list of firms is exhausted.

- (6) Contracts; Public Records. In accordance with Florida law, each contract entered into pursuant to this Rule shall include provisions required by law that require the contractor to comply with public records laws.
- (7) Continuing Contract. Nothing in this Rule shall prohibit a Continuing Contract between a consultant and the District.
- (8) Emergency Purchase. The District may make an Emergency Purchase without complying with these Rules. The fact that an Emergency Purchase has occurred or is necessary shall be noted in the minutes of the next Board meeting.

**Specific Authority:** §§ 190.011(5), 190.011(15), Fla. Stat.

**Law Implemented:** §§ 119.0701, 190.011(3), 190.033, 287.055, Fla. Stat.

### **Rule 3.2      Procedure Regarding Auditor Selection.**

In order to comply with the requirements of Section 218.391 of the Florida Statutes, the following procedures are outlined for selection of firms or individuals to provide Auditing Services and for the negotiation of such contracts. For audits required under Chapter 190 of the Florida Statutes but not meeting the thresholds of Chapter 218 of the Florida Statutes, the District need not follow these procedures but may proceed with the selection of a firm or individual to provide Auditing Services and for the negotiation of such contracts in the manner the Board determines is in the best interests of the District.

(1)      Definitions.

- (a)      "Auditing Services" means those services within the scope of the practice of a certified public accounting firm licensed under Chapter 473 of the Florida Statutes, and qualified to conduct audits in accordance with government auditing standards as adopted by the Florida Board of Accountancy.
- (b)      "Committee" means the auditor selection committee appointed by the Board as described in section (2) of this Rule.

(2)      Establishment of Auditor Selection Committee. Prior to a public announcement under section (4) of this Rule that Auditing Services are required, the Board shall establish an auditor selection committee ("Committee"), the primary purpose of which is to assist the Board in selecting an auditor to conduct the annual financial audit required by Section 218.39 of the Florida Statutes. The Committee shall include at least three individuals, at least one of which must also be a member of the Board. The establishment and selection of the Committee must be conducted at a publicly noticed and held meeting of the Board. The Chairperson of the Committee must be a member of the Board. An employee, a chief executive officer, or a chief financial officer of the District may not serve as a member of the Committee; provided however such individual may serve the Committee in an advisory capacity.

(3)      Establishment of Minimum Qualifications and Evaluation Criteria. Prior to a public announcement under section (4) of this Rule that Auditing Services are required, the Committee shall meet at a publicly noticed meeting to establish minimum qualifications and factors to use for the evaluation of Auditing Services to be provided by a certified public accounting firm licensed under Chapter 473 of the Florida Statutes, and qualified to conduct audits in accordance with government auditing standards as adopted by the Florida Board of Accountancy.

- (a)      Minimum Qualifications. In order to be eligible to submit a proposal, a firm must, at all relevant times including the time of receipt of the proposal by the District:

- (i) Hold all required applicable state professional licenses in good standing;
- (ii) Hold all required applicable federal licenses in good standing, if any;
- (iii) Hold a current and active Florida corporate charter or be authorized to do business in the State of Florida in accordance with Chapter 607 of the Florida Statutes, if the proposer is a corporation; and
- (iv) Meet any pre-qualification requirements established by the Committee and set forth in the RFP or other specifications.

If requested in the RFP or other specifications, evidence of compliance with the minimum qualifications as established by the Committee must be submitted with the proposal.

- (b) Evaluation Criteria. The factors established for the evaluation of Auditing Services by the Committee shall include, but are not limited to:
  - (i) Ability of personnel;
  - (ii) Experience;
  - (iii) Ability to furnish the required services; and
  - (iv) Such other factors as may be determined by the Committee to be applicable to its particular requirements.

The Committee may also choose to consider compensation as a factor. If the Committee establishes compensation as one of the factors, compensation shall not be the sole or predominant factor used to evaluate proposals.

- (4) Public Announcement. After identifying the factors to be used in evaluating the proposals for Auditing Services as set forth in section (3) of this Rule, the Committee shall publicly announce the opportunity to provide Auditing Services. Such public announcement shall include a brief description of the audit and how interested firms can apply for consideration and obtain the RFP. The notice shall appear in at least one (1) newspaper of general circulation in the District and the county in which the District is located. The public announcement shall allow for at least seven (7) days for the submission of proposals.
- (5) Request for Proposals. The Committee shall provide interested firms with a Request for Proposals ("RFP"). The RFP shall provide information on how proposals are to be evaluated and such other information the Committee

determines is necessary for the firm to prepare a proposal. The RFP shall state the time and place for submitting proposals.

- (6) Committee's Evaluation of Proposals and Recommendation. The Committee shall meet at a publicly held meeting that is publicly noticed for a reasonable time in advance of the meeting to evaluate all qualified proposals and may, as part of the evaluation, require that each interested firm provide a public presentation where the Committee may conduct discussions with the firm, and where the firm may present information, regarding the firm's qualifications. At the public meeting, the Committee shall rank and recommend in order of preference no fewer than three firms deemed to be the most highly qualified to perform the required services after considering the factors established pursuant to subsection (3)(b) of this Rule. If fewer than three firms respond to the RFP or if no firms respond to the RFP, the Committee shall recommend such firm as it deems to be the most highly qualified. Notwithstanding the foregoing, the Committee may recommend that any and all proposals be rejected.

- (7) Board Selection of Auditor.

- (a) Where compensation was not selected as a factor used in evaluating the proposals, the Board shall negotiate with the firm ranked first and inquire of that firm as to the basis of compensation. If the Board is unable to negotiate a satisfactory agreement with the first ranked firm at a price deemed by the Board to be fair, competitive, and reasonable, then negotiations with that firm shall be terminated and the Board shall immediately begin negotiations with the second ranked firm. If a satisfactory agreement with the second ranked firm cannot be reached, those negotiations shall be terminated and negotiations with the third ranked firm shall be undertaken. The Board may reopen formal negotiations with any one of the three top-ranked firms, but it may not negotiate with more than one firm at a time. If the Board is unable to negotiate a satisfactory agreement with any of the selected firms, the Committee shall recommend additional firms in order of the firms' respective competence and qualifications. Negotiations shall continue, beginning with the first-named firm on the list, until an agreement is reached or the list of firms is exhausted.
- (b) Where compensation was selected as a factor used in evaluating the proposals, the Board shall select the highest-ranked qualified firm or document in its public records the reason for not selecting the highest-ranked qualified firm.
- (c) In negotiations with firms under this Rule, the Board may allow the District Manager, District Counsel, or other designee to conduct negotiations on its behalf.

- (d) Notwithstanding the foregoing, the Board may reject any or all proposals. The Board shall not consider any proposal, or enter into any contract for Auditing Services, unless the proposed agreed-upon compensation is reasonable to satisfy the requirements of Section 218.39 of the Florida Statutes, and the needs of the District.
- (8) Contract. Any agreement reached under this Rule shall be evidenced by a written contract, which may take the form of an engagement letter signed and executed by both parties. The written contract shall include all provisions and conditions of the procurement of such services and shall include, at a minimum, the following:
  - (a) A provision specifying the services to be provided and fees or other compensation for such services;
  - (b) A provision requiring that invoices for fees or other compensation be submitted in sufficient detail to demonstrate compliance with the terms of the contract;
  - (c) A provision setting forth deadlines for the auditor to submit a preliminary draft audit report to the District for review and to submit a final audit report no later than June 30 of the fiscal year that follows the fiscal year for which the audit is being conducted;
  - (d) A provision specifying the contract period, including renewals, and conditions under which the contract may be terminated or renewed. The maximum contract period including renewals shall be five (5) years. A renewal may be done without the use of the auditor selection procedures provided in this Rule but must be in writing.
  - (e) Provisions required by law that require the auditor to comply with public records laws.
- (9) Notice of Award. Once a negotiated agreement with a firm or individual is reached, or the Board authorizes the execution of an agreement with a firm where compensation was a factor in the evaluation of proposals, notice of the intent to award, including the rejection of some or all proposals, shall be provided in writing to all proposers by United States Mail, hand delivery, facsimile, or overnight delivery service. The notice shall include the following statement: "Failure to file a protest within the time prescribed in Rule 3.11 of the Rules of the District shall constitute a waiver of proceedings under those Rules," or wording to that effect. Protests regarding the award of contracts under this Rule shall be as provided for in Rule 3.11. No proposer shall be entitled to recover any costs of proposal preparation or submittal from the District.

**Specific Authority:** §§ 190.011(5), 190.011(15), Fla. Stat.

**Law Implemented:** §§ 119.0701, 218.33, 218.391, Fla. Stat.

### **Rule 3.3      Purchase of Insurance.**

- (1) Scope. The purchases of life, health, accident, hospitalization, legal expense, or annuity insurance, or all of any kinds of such insurance for the officers and employees of the District, and for health, accident, hospitalization, and legal expenses upon a group insurance plan by the District, shall be governed by this Rule. This Rule does not apply to the purchase of any other type of insurance by the District, including but not limited to liability insurance, property insurance, and directors and officers insurance. Nothing in this Rule shall require the District to purchase insurance.
- (2) Procedure. For a purchase of insurance within the scope of these Rules, the following procedure shall be followed:
  - (a) The Board shall cause to be prepared a Notice of Invitation to Bid.
  - (b) Notice of the Invitation to Bid shall be advertised at least once in a newspaper of general circulation within the District. The notice shall allow at least fourteen (14) days for submittal of bids.
  - (c) The District may maintain a list of persons interested in receiving notices of Invitations to Bid. The District shall make reasonable efforts to provide copies of any notices to such persons, but the failure to do so shall not give such consultants any bid protest or other rights or otherwise disqualify any otherwise valid procurement process.
  - (d) Bids shall be opened at the time and place noted in the Invitation to Bid.
  - (e) If only one (1) response to an Invitation is received, the District may proceed with the purchase. If no response to an Invitation to Bid is received, the District may take whatever steps are reasonably necessary in order to proceed with the purchase.
  - (f) The Board has the right to reject any and all bids and such reservations shall be included in all solicitations and advertisements.
  - (g) Simultaneously with the review of the submitted bids, the District may undertake negotiations with those companies that have submitted reasonable and timely bids and, in the opinion of the District, are fully qualified and capable of meeting all services and requirements. Bid responses shall be evaluated in accordance with the specifications and criteria contained in the Invitation to Bid; in addition, the total cost to the District, the cost, if any, to the District officers, employees, or their dependents, the geographic location of the company's headquarters and offices in relation to the District, and the ability of the company to guarantee premium stability may be considered. A contract to purchase

insurance shall be awarded to that company whose response to the Invitation to Bid best meets the overall needs of the District, its officers, employees, and/or dependents.

- (h) Notice of the intent to award, including rejection of some or all bids, shall be provided in writing to all bidders by United States Mail, by hand delivery, or by overnight delivery service. The notice shall include the following statement: "Failure to file a protest within the time prescribed in Rule 3.11 of the Rules of the District shall constitute a waiver of proceedings under those Rules," or wording to that effect. Protests of the District's procurement of insurance under this Rule shall be in accordance with the procedures set forth in Rule 3.11.

**Specific Authority:** §§ 190.011(5), 190.011(15), Fla. Stat.

**Law Implemented:** § 112.08, Fla. Stat.

### **Rule 3.4      Pre-qualification**

- (1) Scope. In its discretion, the District may undertake a pre-qualification process in accordance with this Rule for vendors to provide construction services, goods, supplies, and materials, Contractual Services, and maintenance services.
- (2) Procedure. When the District seeks to pre-qualify vendors, the following procedures shall apply:
  - (a) The Board shall cause to be prepared a Request for Qualifications.
  - (b) For construction services exceeding the thresholds described in Section 255.20 of the Florida Statutes, the Board must advertise the proposed pre-qualification criteria and procedures and allow at least seven (7) days notice of the public hearing for comments on such pre-qualification criteria and procedures. At such public hearing, potential vendors may object to such pre-qualification criteria and procedures. Following such public hearing, the Board shall formally adopt pre-qualification criteria and procedures prior to the advertisement of the Request for Qualifications for construction services.
  - (c) The Request for Qualifications shall be advertised at least once in a newspaper of general circulation within the District and within the county in which the District is located. The notice shall allow at least seven (7) days for submittal of qualifications for goods, supplies and materials, Contractual Services, maintenance services, and construction services under two hundred fifty thousand dollars (\$250,000). The notice shall allow at least twenty-one (21) days for submittal of qualifications for construction services estimated to cost over two hundred fifty thousand dollars (\$250,000) and thirty (30) days for construction services estimated to cost over five hundred thousand dollars (\$500,000).
  - (d) The District may maintain lists of persons interested in receiving notices of Requests for Qualifications. The District shall make a good faith effort to provide written notice, by electronic mail, United States Mail, hand delivery, or facsimile, to persons who provide their name and address to the District Manager for inclusion on the list. However, failure of a person to receive the notice shall not invalidate any pre-qualification determination or contract awarded in accordance with these Rules and shall not be a basis for a protest of any pre-qualification determination or contract award.
  - (e) If the District has pre-qualified vendors for a particular category of purchase, at the option of the District, only those persons who have been pre-qualified will be eligible to submit bids, proposals, replies or responses in response to the applicable Invitation to Bid, Request for Proposals,

Invitation to Negotiate, or Competitive Solicitation.

- (f) In order to be eligible to submit qualifications, a firm or individual must, at the time of receipt of the qualifications:
  - (i) Hold all required applicable state professional licenses in good standing;
  - (ii) Hold all required applicable federal licenses in good standing, if any;
  - (iii) Hold a current and active Florida corporate charter or be authorized to do business in the State of Florida in accordance with Chapter 607 of the Florida Statutes, if the vendor is a corporation; and
  - (iv) Meet any special pre-qualification requirements set forth in the Request for Qualifications.

Evidence of compliance with these Rules must be submitted with the qualifications if required by the District. Failure to submit evidence of compliance when required may be grounds for rejection of the qualifications.

- (g) Qualifications shall be presented to the Board, or a committee appointed by the Board, for evaluation in accordance with the Request for Qualifications and this Rule. Minor variations in the qualifications may be waived by the Board. A variation is minor if waiver of the variation does not create a competitive advantage or disadvantage of a material nature.
- (h) All vendors determined by the District to meet the pre-qualification requirements shall be pre-qualified. To assure full understanding of the responsiveness to the requirements contained in a Request for Qualifications, discussions may be conducted with qualified vendors. Vendors shall be accorded fair treatment prior to the submittal date with respect to any opportunity for discussion and revision of qualifications. For construction services, any contractor pre-qualified and considered eligible by the Department of Transportation to bid to perform the type of work the project entails shall be presumed to be qualified to perform the project.
- (i) The Board shall have the right to reject all qualifications if there are not enough to be competitive or if rejection is determined to be in the best interest of the District. No vendor shall be entitled to recover any costs of qualification preparation or submittal from the District.

(j) Notice of intent to pre-qualify, including rejection of some or all qualifications, shall be provided in writing to all vendors by United States Mail, electronic mail, hand delivery, facsimile, or overnight delivery service. The notice shall include the following statement: "Failure to file a protest within the time prescribed in Rule 3.11 of the Rules of the District shall constitute a waiver of proceedings under those Rules," or wording to that effect. Protests of the District's pre-qualification decisions under this Rule shall be in accordance with the procedures set forth in Rule 3.11; provided however, protests related to the pre-qualification criteria and procedures for construction services shall be resolved in accordance with section (2)(b) of this Rule and Section 255.20(1)(b) of the Florida Statutes.

(3) Suspension, Revocation, or Denial of Qualification

(a) The District, for good cause, may deny, suspend, or revoke a prequalified vendor's pre-qualified status. A suspension, revocation, or denial for good cause shall prohibit the vendor from bidding on any District construction contract for which qualification is required, shall constitute a determination of non-responsibility to bid on any other District construction or maintenance contract, and shall prohibit the vendor from acting as a material supplier or subcontractor on any District contract or project during the period of suspension, revocation, or denial. Good cause shall include the following:

- i. One of the circumstances specified under Section 337.16(2), Fla. Stat., has occurred.
- ii. Affiliated contractors submitted more than one proposal for the same work. In this event the pre-qualified status of all of the affiliated bidders will be revoked, suspended, or denied. All bids of affiliated bidders will be rejected.
- iii. The vendor made or submitted false, deceptive, or fraudulent statements, certifications, or materials in any claim for payment or any information required by any District contract.
- iv. The vendor or its affiliate defaulted on any contract or a contract surety assumed control of financial responsibility for any contract of the vendor.
- v. The vendor's qualification to bid is suspended, revoked, or denied by any other public or semi-public entity, or the vendor has been the subject of a civil enforcement proceeding or settlement involving a public or semi-public entity.
- vi. The vendor failed to comply with contract or warranty requirements or failed to follow District direction in the performance of a contract.
- vii. The vendor failed to timely furnish all contract documents required by

the contract specifications, special provisions, or by any state or federal statutes or regulations. If the vendor fails to furnish any of the subject contract documents by the expiration of the period of suspension, revocation, or denial set forth above, the vendor's pre-qualified status shall remain suspended, revoked, or denied until the documents are furnished.

- viii. The vendor failed to notify the District within 10 days of the vendor, or any of its affiliates, being declared in default or otherwise not completing work on a contract or being suspended from qualification to bid or denied qualification to bid by any other public or semi-public agency.
  - ix. The vendor did not pay its subcontractors or suppliers in a timely manner or in compliance with contract documents.
  - x. The vendor has demonstrated instances of poor or unsatisfactory performance, deficient management resulting in project delay, poor quality workmanship, a history of payment of liquidated damages, untimely completion of projects, uncooperative attitude, contract litigation, inflated claims or defaults.
  - xi. An affiliate of the vendor has previously been determined by the District to be non-responsible, and the specified period of suspension, revocation, denial, or non-responsibility remains in effect.
  - xii. The vendor or affiliate(s) has been convicted of a contract crime.
    - 1. The term "contract crime" means any violation of state or federal antitrust laws with respect to a public contract or any violation of any state or federal law involving fraud, bribery, collusion, conspiracy, or material misrepresentation with respect to a public contract.
    - 2. The term "convicted" or "conviction" means a finding of guilt or a conviction of a contract crime, with or without an adjudication of guilt, in any federal or state trial court of record as a result of a jury verdict, nonjury trial, or entry of a plea of guilty or nolo contendere.
- (b) A denial, suspension, or revocation shall prohibit the vendor from being a subcontractor on District work during the period of denial, suspension, or revocation, except when a prime contractor's bid has used prices of a subcontractor who becomes disqualified after the bid, but before the request for authorization to sublet is presented.
- (c) The District shall inform the vendor in writing of its intent to deny, suspend, or revoke its pre-qualified status and inform the vendor of its right to a hearing,

the procedure which must be followed, and the applicable time limits. If a hearing is requested within 10 days after the receipt of the notice of intent, the hearing shall be held within 30 days after receipt by the District of the request for the hearing. The decision shall be issued within 15 days after the hearing.

- (d) Such suspension or revocation shall not affect the vendor's obligations under any preexisting contract.
- (e) In the case of contract crimes, the vendor's pre-qualified status under this Rule shall be revoked indefinitely. For all violations of Rule 3.4(3)(a) other than for the vendor's conviction for contract crimes, the revocation, denial, or suspension of a vendor's pre-qualified status under this Rule shall be for a specific period of time based on the seriousness of the deficiency.

Examples of factors affecting the seriousness of a deficiency are:

- i. Impacts on project schedule, cost, or quality of work;
- ii. Unsafe conditions allowed to exist;
- iii. Complaints from the public;
- iv. Delay or interference with the bidding process;
- v. The potential for repetition;
- vi. Integrity of the public contracting process;
- vii. Effect on the health, safety, and welfare of the public.

**Specific Authority:** §§ 190.011(5), 190.011(15), Fla. Stat.

**Law Implemented:** §§ 190.033, 255.0525, 255.20, Fla. Stat.

**Rule 3.5      Construction Contracts, Not Design-Build.**

- (1) Scope. All contracts for the construction or improvement of any building, structure, or other public construction works authorized by Chapter 190 of the Florida Statutes, the costs of which are estimated by the District in accordance with generally accepted cost accounting principles to be in excess of the threshold amount for applicability of Section 255.20 of the Florida Statutes, as that amount may be indexed or amended from time to time, shall be let under the terms of these Rules and the procedures of Section 255.20 of the Florida Statutes, as the same may be amended from time to time. A project shall not be divided solely to avoid the threshold bidding requirements.
- (2) Procedure. When a purchase of construction services is within the scope of this Rule, the following procedures shall apply:
  - (a) The Board shall cause to be prepared an Invitation to Bid, Request for Proposals, Invitation to Negotiate, or Competitive Solicitation.
  - (b) Notice of the Invitation to Bid, Request for Proposals, Invitation to Negotiate, or Competitive Solicitation shall be advertised at least once in a newspaper of general circulation in the District and in the county in which the District is located. The notice shall also include the amount of the bid bond, if one is required. The notice shall allow at least twenty-one (21) days for submittal of sealed bids, proposals, replies, or responses, unless the Board, for good cause, determines a shorter period of time is appropriate. Any project projected to cost more than five hundred thousand dollars (\$500,000) must be noticed at least thirty (30) days prior to the date for submittal of bids, proposals, replies, or responses. If the Board has previously pre-qualified contractors pursuant to Rule 3.4 and determined that only the contractors that have been pre-qualified will be permitted to submit bids, proposals, replies, and responses, the Notice of Invitation to Bid, Request for Proposals, Invitation to Negotiate, or Competitive Solicitation need not be published. Instead, the Notice of Invitation to Bid, Request for Proposals, Invitation to Negotiate, or Competitive Solicitation shall be sent to the pre-qualified contractors by United States Mail, hand delivery, facsimile, or overnight delivery service.
  - (c) The District may maintain lists of persons interested in receiving notices of Invitations to Bid, Requests for Proposals, Invitations to Negotiate, and Competitive Solicitations. The District shall make a good faith effort to provide written notice, by electronic mail, United States Mail, hand delivery, or facsimile, to persons who provide their name and address to the District Manager for inclusion on the list. However, failure of a person to receive the notice shall not invalidate any contract awarded in accordance with this Rule and shall not be a basis for a protest of any contract award.

- (d) If the District has pre-qualified providers of construction services, then, at the option of the District, only those persons who have been pre-qualified will be eligible to submit bids, proposals, replies, or responses to Invitations to Bid, Requests for Proposals, Invitations to Negotiate, and Competitive Solicitations.
- (e) In order to be eligible to submit a bid, proposal, reply, or response, a firm or individual must, at the time of receipt of the bids, proposals, replies, or responses:
  - (i) Hold all required applicable state professional licenses in good standing;
  - (ii) Hold all required applicable federal licenses in good standing, if any;
  - (iii) Hold a current and active Florida corporate charter or be authorized to do business in the State of Florida in accordance with Chapter 607 of the Florida Statutes, if the bidder is a corporation; and
  - (iv) Meet any special pre-qualification requirements set forth in the Invitation to Bid, Request for Proposals, Invitation to Negotiate, or Competitive Solicitation.

Any contractor that has been found guilty by a court of any violation of federal labor or employment tax laws regarding subjects including but not limited to, reemployment assistance, safety, tax withholding, worker's compensation, unemployment tax, social security and Medicare tax, wage or hour, or prevailing rate laws within the past 5 years may be considered ineligible by the District to submit a bid, response, or proposal for a District project.

Evidence of compliance with these Rules must be submitted with the bid, proposal, reply, or response, if required by the District. Failure to submit evidence of compliance when required may be grounds for rejection of the bid, proposal, reply, or response.

- (f) Bids, proposals, replies, and responses, or the portions of which that include the price, shall be publicly opened at a meeting noticed in accordance with Rule 1.3, and at which at least one district representative is present. The name of each bidder and the price submitted in the bid shall be announced at such meeting and shall be made available upon request. Minutes should be taken at the meeting and maintained by the District. Bids, proposals, replies, and responses shall be evaluated in

accordance with the respective Invitation to Bid, Request for Proposals, Invitation to Negotiate, or Competitive Solicitation and these Rules. Minor variations in the bids, proposals, replies, or responses may be waived by the Board. A variation is minor if waiver of the variation does not create a competitive advantage or disadvantage of a material nature. Mistakes in arithmetic extension of pricing may be corrected by the Board. Bids and proposals may not be modified or supplemented after opening; provided however, additional information may be requested and/or provided to evidence compliance, make non-material modifications, clarifications, or supplementations, and as otherwise permitted by Florida law.

- (g) The lowest Responsive Bid submitted by a Responsive and Responsible Bidder in response to an Invitation to Bid shall be accepted. In relation to a Request for Proposals, Invitation to Negotiate, or Competitive Solicitation, the Board shall select the Responsive Proposal, Reply, or Response submitted by a Responsive and Responsible Vendor which is most advantageous to the District. To assure full understanding of the responsiveness to the solicitation requirements contained in a Request for Proposals, Invitation to Negotiate, or Competitive Solicitation, discussions may be conducted with qualified vendors. Vendors shall be accorded fair treatment prior to the submittal date with respect to any opportunity for discussion, preparation, and revision of bids, proposals, replies, and responses.
- (h) The Board shall have the right to reject all bids, proposals, replies, or responses because they exceed the amount of funds budgeted for the purchase, if there are not enough to be competitive, or if rejection is determined to be in the best interest of the District. No contractor shall be entitled to recover any costs of bid, proposal, response, or reply preparation or submittal from the District.
- (i) The Board may require potential contractors to furnish bid bonds, performance bonds, and/or other bonds with a responsible surety to be approved by the Board.
- (j) Notice of intent to award, including rejection of some or all bids, proposals, replies, or responses, shall be provided in writing to all contractors by United States Mail, hand delivery, facsimile, or overnight delivery service. The notice shall include the following statement: "Failure to file a protest within the time prescribed in Rule 3.11 of the Rules of the District shall constitute a waiver of proceedings under those Rules," or wording to that effect. Protests of the District's purchase of construction services under this Rule shall be in accordance with the procedures set forth in Rule 3.11.
- (k) If less than three (3) Responsive Bids, Proposals, Replies, or Responses are received, the District may purchase construction services or may reject the

bids, proposals, replies, or responses for a lack of competitiveness. If no Responsive Bid, Proposal, Reply, or Response is received, the District may proceed with the procurement of construction services, in the manner the Board determines is in the best interests of the District, which may include but is not limited to a direct purchase of the construction services without further competitive selection processes.

- (3) Sole Source; Government. Construction services that are only available from a single source are exempt from this Rule. Construction services provided by governmental agencies are exempt from this Rule. This Rule shall not apply to the purchase of construction services, which may include goods, supplies, or materials, that are purchased under a federal, state, or local government contract that has been competitively procured by such federal, state, or local government in a manner consistent with the material procurement requirements of these Rules. A contract for construction services is exempt from this Rule if state or federal law prescribes with whom the District must contract or if the rate of payment is established during the appropriation process.
- (4) Contracts; Public Records. In accordance with Florida law, each contract entered into pursuant to this Rule shall include provisions required by law that require the contractor to comply with public records laws.
- (5) Emergency Purchases. The District may make an Emergency Purchase without complying with these rules. The fact that an Emergency Purchase has occurred or is necessary shall be noted in the minutes of the next Board Meeting.
- (6) Exceptions. This Rule is inapplicable when:
  - (a) The project is undertaken as repair or maintenance of an existing public facility;
  - (b) The funding source of the project will be diminished or lost because the time required to competitively award the project after the funds become available exceeds the time within which the funding source must be spent;
  - (c) The District has competitively awarded a project and the contractor has abandoned the project or the District has terminated the contract; or
  - (d) The District, after public notice, conducts a public meeting under Section 286.011 of the Florida Statutes, and finds by a majority vote of the Board that it is in the public's best interest to perform the project using its own services, employees, and equipment.

Specific Authority: §§ 190.011(5), 190.011(15), Fla. Stat.

Law Implemented: §§ 119.0701, 189.053, 190.033, 255.0518, 255.0525, 255.20, 287.055, Fla. Stat.

**Rule 3.6 Construction Contracts, Design-Build.**

(1) Scope. The District may utilize Design-Build Contracts for any public construction project for which the Board determines that use of such contract is in the best interest of the District. When letting a Design-Build Contract, the District shall use the following procedure:

(2) Procedure.

(a) The District shall utilize a Design Criteria Professional meeting the requirements of Section 287.055(2)(k) of the Florida Statutes, when developing a Design Criteria Package, evaluating the proposals and qualifications submitted by Design-Build Firms, and determining compliance of the project construction with the Design Criteria Package. The Design Criteria Professional may be an employee of the District, may be the District Engineer selected by the District pursuant to Section 287.055 of the Florida Statutes, or may be retained pursuant to Rule 3.1. The Design Criteria Professional is not eligible to render services under a Design-Build Contract executed pursuant to the Design Criteria Package.

(b) A Design Criteria Package for the construction project shall be prepared and sealed by the Design Criteria Professional. If the project utilizes existing plans, the Design Criteria Professional shall create a Design Criteria Package by supplementing the plans with project specific requirements, if any.

(c) The Board may either choose to award the Design-Build Contract pursuant to the competitive proposal selection process set forth in Section 287.055(9) of the Florida Statutes, or pursuant to the qualifications-based selection process pursuant to Rule 3.1.

(i) Qualifications-Based Selection. If the process set forth in Rule 3.1 is utilized, subsequent to competitive negotiations, a guaranteed maximum price and guaranteed completion date shall be established.

(ii) Competitive Proposal-Based Selection. If the competitive proposal selection process is utilized, the Board, in consultation with the Design Criteria Professional, shall establish the criteria, standards and procedures for the evaluation of Design-Build Proposals based on price, technical, and design aspects of the project, weighted for the project. After a Design Criteria Package and the standards and procedures for evaluation of proposals have been developed, competitive proposals from qualified firms shall be solicited pursuant to the design criteria by the following procedure:

1. A Request for Proposals shall be advertised at least once in a newspaper of general circulation in the county in which

the District is located. The notice shall allow at least twenty-one (21) days for submittal of sealed proposals, unless the Board, for good cause, determines a shorter period of time is appropriate. Any project projected to cost more than five hundred thousand dollars (\$500,000) must be noticed at least thirty (30) days prior to the date for submittal of proposals.

2. The District may maintain lists of persons interested in receiving notices of Requests for Proposals. The District shall make a good faith effort to provide written notice, by electronic mail, United States Mail, hand delivery, or facsimile, to persons who provide their name and address to the District Manager for inclusion on the list. However, failure of a person to receive the notice shall not invalidate any contract awarded in accordance with this Rule and shall not be a basis for a protest of any contract award.
3. In order to be eligible to submit a proposal, a firm must, at the time of receipt of the proposals:
  - a. Hold the required applicable state professional licenses in good standing, as defined by Section 287.055(2)(h) of the Florida Statutes;
  - b. Hold all required applicable federal licenses in good standing, if any;
  - c. Hold a current and active Florida corporate charter or be authorized to do business in the State of Florida in accordance with Chapter 607 of the Florida Statutes, if the proposer is a corporation;
  - d. Meet any special pre-qualification requirements set forth in the Request for Proposals and Design Criteria Package.

Any contractor that has been found guilty by a court of any violation of federal labor or employment tax laws regarding subjects including but not limited to reemployment assistance, safety, tax withholding, worker's compensation, unemployment tax, social security and Medicare tax, wage or hour, or prevailing rate laws within the past 5 years may be considered ineligible by the District to submit a bid, response, or proposal for a District project.

Evidence of compliance with these Rules must be submitted with the proposal if required by the District. Failure to submit evidence of compliance when required may be grounds for rejection of the proposal.

4. The proposals, or the portions of which that include the price, shall be publicly opened at a meeting noticed in accordance with Rule 1.3, and at which at least one district representative is present. The name of each bidder and the price submitted in the bid shall be announced at such meeting and shall be made available upon request. Minutes should be taken at the meeting and maintained by the District. In consultation with the Design Criteria Professional, the Board shall evaluate the proposals received based on evaluation criteria and procedures established prior to the solicitation of proposals, including but not limited to qualifications, availability, and past work of the firms and the partners and members thereof. The Board shall then select no fewer than three (3) Design-Build Firms as the most qualified.
5. The Board shall have the right to reject all proposals if the proposals are too high, or rejection is determined to be in the best interest of the District. No vendor shall be entitled to recover any costs of proposal preparation or submittal from the District.
6. If less than three (3) Responsive Proposals are received, the District may purchase design-build services or may reject the proposals for lack of competitiveness. If no Responsive Proposals are received, the District may proceed with the procurement of design-build services in the manner the Board determines is in the best interests of the District, which may include but is not limited to a direct purchase of the design-build services without further competitive selection processes.
7. Notice of the rankings adopted by the Board, including the rejection of some or all proposals, shall be provided in writing to all consultants by United States Mail, hand delivery, facsimile, or overnight delivery service. The notice shall include the following statement: "Failure to file a protest within the time prescribed in Rule 3.11 of the Rules of the District shall constitute a waiver of proceedings under those Rules," or wording to that effect. Protests of

the District's rankings under this Rule shall be in accordance with the procedures set forth in Rule 3.11.

8. The Board shall negotiate a contract with the firm ranking the highest based on the evaluation standards and shall establish a price which the Board determines is fair, competitive and reasonable. Should the Board be unable to negotiate a satisfactory contract with the firm considered to be the most qualified at a price considered by the Board to be fair, competitive, and reasonable, negotiations with that firm must be terminated. The Board shall then undertake negotiations with the second most qualified firm, based on the ranking by the evaluation standards. Should the Board be unable to negotiate a satisfactory contract with the firm considered to be the second most qualified at a price considered by the Board to be fair, competitive, and reasonable, negotiations with that firm must be terminated. The Board shall then undertake negotiations with the third most qualified firm. Should the Board be unable to negotiate a satisfactory contract with the firm considered to be the third most qualified at a price considered by the Board to be fair, competitive, and reasonable, negotiations with that firm must be terminated. Should the Board be unable to negotiate a satisfactory contract with any of the selected firms, the Board shall select additional firms in order of their rankings based on the evaluation standards and continue negotiations until an agreement is reached or the list of firms is exhausted.
  9. After the Board contracts with a firm, the firm shall bring to the Board for approval, detailed working drawings of the project.
  10. The Design Criteria Professional shall evaluate the compliance of the detailed working drawings and project construction with the Design Criteria Package and shall provide the Board with a report of the same.
- (3) Contracts; Public Records. In accordance with Florida law, each contract entered into pursuant to this Rule shall include provisions required by law that require the contractor to comply with public records laws.
- (4) Emergency Purchase. The Board may, in case of public emergency, declare an emergency and immediately proceed with negotiations with the best qualified

Design-Build Firm available at the time. The fact that an Emergency Purchase has occurred shall be noted in the minutes of the next Board meeting.

(5) Exceptions. This Rule is inapplicable when:

- (a) The project is undertaken as repair or maintenance of an existing public facility;
- (b) The funding source of the project will be diminished or lost because the time required to competitively award the project after the funds become available exceeds the time within which the funding source must be spent;
- (c) The District has competitively awarded a project and the contractor has abandoned the project or the District has terminated the contractor; or
- (d) The District, after public notice, conducts a public meeting under Section 286.011 of the Florida Statutes, and finds by a majority vote of the Board that it is in the public's best interest to perform the project using its own services, employees, and equipment.

**Specific Authority:** §§ 190.011(5), 190.011(15), Fla. Stat.

**Law Implemented:** §§ 119.0701, 189.053, 190.033, 255.0518, 255.0525, 255.20, 287.055, Fla. Stat.

**Rule 3.7      Payment and Performance Bonds.**

- (1)    Scope. This Rule shall apply to contracts for the construction of a public building, for the prosecution and completion of a public work, or for repairs upon a public building or public work and shall be construed in addition to terms prescribed by any other Rule that may also apply to such contracts.
  
- (2)    Required Bond. Upon entering into a contract for any of the services described in section (1) of this Rule in excess of \$200,000, the Board should require that the contractor, before commencing the work, execute and record a payment and performance bond in an amount equal to the contract price. Notwithstanding the terms of the contract or any other law, the District may not make payment to the contractor until the contractor has provided to the District a certified copy of the recorded bond.
  
- (3)    Discretionary Bond. At the discretion of the Board, upon entering into a contract for any of the services described in section (1) of this Rule for an amount not exceeding \$200,000, the contractor may be exempted from executing a payment and performance bond.

**Specific Authority:** §§ 190.011(5), 190.011(15), Fla. Stat.

**Law Implemented:** § 255.05, Fla. Stat.

**Rule 3.8      Goods, Supplies, and Materials.**

- (1) Purpose and Scope. All purchases of goods, supplies, or materials exceeding the amount provided in Section 287.017 of the Florida Statutes, for CATEGORY FOUR, shall be purchased under the terms of this Rule. Contracts for purchases of “goods, supplies, and materials” do not include printing, insurance, advertising, or legal notices. A contract involving goods, supplies, or materials plus maintenance services may, in the discretion of the Board, be treated as a contract for maintenance services. However, a purchase shall not be divided solely in order to avoid the threshold bidding requirements.
- (2) Procedure. When a purchase of goods, supplies, or materials is within the scope of this Rule, the following procedures shall apply:
  - (a) The Board shall cause to be prepared an Invitation to Bid, Request for Proposals, Invitation to Negotiate, or Competitive Solicitation.
  - (b) Notice of the Invitation to Bid, Request for Proposals, Invitation to Negotiate, or Competitive Solicitation shall be advertised at least once in a newspaper of general circulation within the District and within the county in which the District is located. The notice shall also include the amount of the bid bond, if one is required. The notice shall allow at least seven (7) days for submittal of bids, proposals, replies, or responses.
  - (c) The District may maintain lists of persons interested in receiving notices of Invitations to Bid, Requests for Proposals, Invitations to Negotiate, or Competitive Solicitations. The District shall make a good faith effort to provide written notice, by electronic mail, United States Mail, hand delivery, or facsimile, to persons who provide their name and address to the District Manager for inclusion on the list. However, failure of a person to receive the notice shall not invalidate any contract awarded in accordance with this Rule and shall not be a basis for a protest of any contract award.
  - (d) If the District has pre-qualified suppliers of goods, supplies, and materials, then, at the option of the District, only those persons who have been pre-qualified will be eligible to submit bids, proposals, replies, or responses.
  - (e) In order to be eligible to submit a bid, proposal, reply, or response, a firm or individual must, at the time of receipt of the bids, proposals, replies, or responses:
    - (i) Hold all required applicable state professional licenses in good standing;
    - (ii) Hold all required applicable federal licenses in good standing, if any;

- (iii) Hold a current and active Florida corporate charter or be authorized to do business in the State of Florida in accordance with Chapter 607 of the Florida Statutes, if the vendor is a corporation; and
- (iv) Meet any special pre-qualification requirements set forth in the Invitation to Bid, Request for Proposals, Invitation to Negotiate, or Competitive Solicitation.

Evidence of compliance with these Rules must be submitted with the bid, proposal, reply or response if required by the District. Failure to submit evidence of compliance when required may be grounds for rejection of the bid, proposal, reply, or response.

Any firm or individual whose principal place of business is outside the State of Florida must also submit a written opinion of an attorney at law licensed to practice law in that foreign state, as to the preferences, if any or none, granted by the law of that foreign state to business entities whose principal places of business are in that foreign state, in the letting of any or all public contracts. Failure to submit such a written opinion or submission of a false or misleading written opinion may be grounds for rejection of the bid, proposal, reply, or response.

- (f) Bids, proposals, replies, and responses shall be publicly opened at the time and place noted on the Invitation to Bid, Request for Proposals, Invitation to Negotiate, or Competitive Solicitation. Bids, proposals, replies, and responses shall be evaluated in accordance with the respective Invitation to Bid, Request for Proposals, Invitation to Negotiate, or Competitive Solicitation, and this Rule. Minor variations in the bids, proposals, replies, or responses may be waived by the Board. A variation is minor if waiver of the variation does not create a competitive advantage or disadvantage of a material nature. Mistakes in arithmetic extension of pricing may be corrected by the Board. Bids and proposals may not be modified or supplemented after opening; provided however, additional information may be requested and/or provided to evidence compliance, make non-material modifications, clarifications, or supplementations, and as otherwise permitted by Florida law.
- (g) The lowest Responsive Bid, after taking into account the preferences provided for in this subsection, submitted by a Responsive and Responsible Bidder in response to an Invitation to Bid, Request for Proposals, Invitation to Negotiate, or Competitive Solicitation shall be accepted. If the lowest Responsive Bid is submitted by a Responsive and Responsible Bidder whose principal place of business is located in a foreign state which does not grant a preference in competitive purchase to businesses whose principal place of business are in that foreign state, the lowest Responsible

and Responsive Bidder whose principal place of business is in the State of Florida shall be awarded a preference of five (5) percent. If the lowest Responsive Bid is submitted by a Responsive and Responsible Bidder whose principal place of business is located in a foreign state which grants a preference in competitive purchase to businesses whose principal place of business are in that foreign state, the lowest Responsible and Responsive Bidder whose principal place of business is in the State of Florida shall be awarded a preference equal to the preference granted by such foreign state.

To assure full understanding of the responsiveness to the solicitation requirements contained in an Invitation to Bid, Request for Proposals, Invitation to Negotiate, or Competitive Solicitation, discussions may be conducted with qualified vendors. Vendors shall be accorded fair treatment prior to the submittal date with respect to any opportunity for discussion, preparation, and revision of bids, proposals, replies, and responses.

- (h) The Board shall have the right to reject all bids, proposals, replies, or responses because they exceed the amount of funds budgeted for the purchase, if there are not enough to be competitive, or if rejection is determined to be in the best interest of the District. No vendor shall be entitled to recover any costs of bid, proposal, reply, or response preparation or submittal from the District.
- (i) The Board may require bidders and proposers to furnish bid bonds, performance bonds, and/or other bonds with a responsible surety to be approved by the Board.
- (j) Notice of intent to award, including rejection of some or all bids, proposals, replies, or responses shall be provided in writing to all vendors by United States Mail, hand delivery, facsimile, or overnight delivery service. The notice shall include the following statement: "Failure to file a protest within the time prescribed in Rule 3.11 of the Rules of the District shall constitute a waiver of proceedings under those Rules," or wording to that effect. Protests of the District's purchase of goods, supplies, and materials under this Rule shall be in accordance with the procedures set forth in Rule 3.11.
- (k) If less than three (3) Responsive Bids, Proposals, Replies, or Responses are received, the District may purchase goods, supplies, or materials, or may reject the bids, proposals, replies, or responses for a lack of competitiveness. If no Responsive Bid, Proposal, Reply, or Response is received, the District may proceed with the procurement of goods, supplies, and materials, in the manner the Board determines is in the best interests of the District, which may include but is not limited to a direct

purchase of the goods, supplies, and materials without further competitive selection processes.

- (3) Goods, Supplies, and Materials included in a Construction Contract Awarded Pursuant to Rule 3.5 or 3.6. There may be occasions where the District has undergone the competitive purchase of construction services which contract may include the provision of goods, supplies, or materials. In that instance, the District may approve a change order to the contract and directly purchase the goods, supplies, and materials. Such purchase of goods, supplies, and materials deducted from a competitively purchased construction contract shall be exempt from this Rule.
- (4) Exemption. Goods, supplies, and materials that are only available from a single source are exempt from this Rule. Goods, supplies, and materials provided by governmental agencies are exempt from this Rule. A contract for goods, supplies, or materials is exempt from this Rule if state or federal law prescribes with whom the District must contract or if the rate of payment is established during the appropriation process. This Rule shall not apply to the purchase of goods, supplies or materials that are purchased under a federal, state, or local government contract that has been competitively procured by such federal, state, or local government in a manner consistent with the material procurement requirements of these Rules.
- (5) Renewal. Contracts for the purchase of goods, supplies, and/or materials subject to this Rule may be renewed for a maximum period of five (5) years.
- (6) Emergency Purchases. The District may make an Emergency Purchase without complying with these rules. The fact that an Emergency Purchase has occurred or is necessary shall be noted in the minutes of the next Board meeting.

**Specific Authority:** §§ 190.011(5), 190.011(15), Fla. Stat.

**Law Implemented:** §§ 189.053, 190.033, 287.017, 287.084, Fla. Stat.

**Rule 3.9      Maintenance Services.**

- (1) Scope. All contracts for maintenance of any District facility or project shall be set under the terms of this Rule if the cost exceeds the amount provided in Section 287.017 of the Florida Statutes, for CATEGORY FOUR. A contract involving goods, supplies, and materials plus maintenance services may, in the discretion of the Board, be treated as a contract for maintenance services. However, a purchase shall not be divided solely in order to avoid the threshold bidding requirements.
- (2) Procedure. When a purchase of maintenance services is within the scope of this Rule, the following procedures shall apply:
  - (a) The Board shall cause to be prepared an Invitation to Bid, Request for Proposals, Invitation to Negotiate, or Competitive Solicitation.
  - (b) Notice of the Invitation to Bid, Request for Proposals, Invitation to Negotiate, or Competitive Solicitation shall be advertised at least once in a newspaper of general circulation within the District and within the county in which the District is located. The notice shall also include the amount of the bid bond, if one is required. The notice shall allow at least seven (7) days for submittal of bids, proposals, replies, or responses.
  - (c) The District may maintain lists of persons interested in receiving notices of Invitations to Bid, Requests for Proposals, Invitations to Negotiate, and Competitive Solicitations. The District shall make a good faith effort to provide written notice, by electronic mail, United States Mail, hand delivery, or facsimile, to persons who provide their name and address to the District Manager for inclusion on the list. However, failure of a person to receive the notice shall not invalidate any contract awarded in accordance with this Rule and shall not be a basis for a protest of any contract award.
  - (d) If the District has pre-qualified suppliers of maintenance services, then, at the option of the District, only those persons who have been pre-qualified will be eligible to submit bids, proposals, replies, and responses.
  - (e) In order to be eligible to submit a bid, proposal, reply, or response, a firm or individual must, at the time of receipt of the bids, proposals, replies, or responses:
    - (i) Hold all required applicable state professional licenses in good standing;
    - (ii) Hold all required applicable federal licenses in good standing, if any;

- (iii) Hold a current and active Florida corporate charter or be authorized to do business in the State of Florida in accordance with Chapter 607 of the Florida Statutes, if the vendor is a corporation; and
- (iv) Meet any special pre-qualification requirements set forth in the Invitation to Bid, Request for Proposals, Invitation to Negotiate, or Competitive Solicitation.

Evidence of compliance with these Rules must be submitted with the bid, proposal, reply, or response if required by the District. Failure to submit evidence of compliance when required may be grounds for rejection of the bid, proposal, reply, or response.

- (f) Bids, proposals, replies, and responses shall be publicly opened at the time and place noted on the Invitation to Bid, Request for Proposals, Invitation to Negotiate, or Competitive Solicitation. Bids, proposals, replies, and responses shall be evaluated in accordance with the respective Invitation to Bid, Request for Proposals, Invitation to Negotiate, or Competitive Solicitation, and these Rules. Minor variations in the bids, proposals, replies, and responses may be waived by the Board. A variation is minor if waiver of the variation does not create a competitive advantage or disadvantage of a material nature. Mistakes in arithmetic extension of pricing may be corrected by the Board. Bids and proposals may not be modified or supplemented after opening; provided however, additional information may be requested and/or provided to evidence compliance, make non-material modifications, clarifications, or supplementations, and as otherwise permitted by Florida law.
- (g) The lowest Responsive Bid submitted in response to an Invitation to Bid by a Responsive and Responsible Bidder shall be accepted. In relation to a Request for Proposals, Invitation to Negotiate or Competitive Solicitation the Board shall select the Responsive Proposal, Reply, or Response submitted by a Responsive and Responsible Vendor which is most advantageous to the District. To assure full understanding of the responsiveness to the solicitation requirements contained in a Request for Proposals, Invitation to Negotiate, or Competitive Solicitation, discussions may be conducted with qualified vendors. Vendors shall be accorded fair treatment prior to the submittal date with respect to any opportunity for discussion, preparation, and revision of bids, proposals, replies, or responses.
- (h) The Board shall have the right to reject all bids, proposals, replies, or responses because they exceed the amount of funds budgeted for the purchase, if there are not enough to be competitive, or if rejection is determined to be in the best interest of the District. No Vendor shall be

entitled to recover any costs of bid, proposal, reply, or response preparation or submittal from the District.

- (i) The Board may require bidders and proposers to furnish bid bonds, performance bonds, and/or other bonds with a responsible surety to be approved by the Board.
  - (j) Notice of intent to award, including rejection of some or all bids, proposals, replies, or responses shall be provided in writing to all vendors by United States Mail, hand delivery, facsimile, or overnight delivery service. The notice shall include the following statement: "Failure to file a protest within the time prescribed in Rule 3.11 of the Rules of the District shall constitute a waiver of proceedings under those Rules," or wording to that effect. Protests of the District's procurement of maintenance services under this Rule shall be in accordance with the procedures set forth in Rule 3.11.
  - (k) If less than three (3) Responsive Bids, Proposals, Replies, or Responses are received, the District may purchase the maintenance services or may reject the bids, proposals, replies, or responses for a lack of competitiveness. If no Responsive Bid, Proposal, Reply, or Response is received, the District may proceed with the procurement of maintenance services, in the manner the Board determines is in the best interests of the District, which may include but is not limited to a direct purchase of the maintenance services without further competitive selection processes.
- (3) Exemptions. Maintenance services that are only available from a single source are exempt from this Rule. Maintenance services provided by governmental agencies are exempt from this Rule. A contract for maintenance services is exempt from this Rule if state or federal law prescribes with whom the District must contract or if the rate of payment is established during the appropriation process.
  - (4) Renewal. Contracts for the purchase of maintenance services subject to this Rule may be renewed for a maximum period of five (5) years.
  - (5) Contracts; Public Records. In accordance with Florida law, each contract entered into pursuant to this Rule shall include provisions required by law that require the contractor to comply with public records laws.
  - (6) Emergency Purchases. The District may make an Emergency Purchase without complying with these rules. The fact that an Emergency Purchase has occurred or is necessary shall be noted in the minutes of the next Board meeting.

**Specific Authority:** §§ 190.011(5), 190.011(15), 190.033, Fla. Stat.

**Law Implemented:** §§ 119.0701, 190.033, 287.017, Fla. Stat.

**Rule 3.10      Contractual Services.**

- (1) Exemption from Competitive Purchase. Pursuant to Section 190.033(3) of the Florida Statutes, Contractual Services shall not be subject to competitive purchasing requirements. If an agreement is predominantly for Contractual Services, but also includes maintenance services or the purchase of goods and services, the contract shall not be subject to competitive purchasing requirements. Regardless of whether an advertisement or solicitation for Contractual Services is identified as an Invitation to Bid, Request for Proposals, Invitation to Negotiate, or Competitive Solicitation, no rights or remedies under these Rules, including but not limited to protest rights, are conferred on persons, firms, or vendors proposing to provide Contractual Services to the District.
- (2) Contracts; Public Records. In accordance with Florida law, each contract for Contractual Services shall include provisions required by law that require the contractor to comply with public records laws.

**Specific Authority:** §§ 190.011(5), 190.011(15), Fla. Stat.

**Law Implemented:** §§ 119.0701, 190.011(3), 190.033, Fla. Stat.

**Rule 3.11      Protests with Respect to Proceedings under Rules 3.1, 3.2, 3.3, 3.4, 3.5, 3.6, 3.8, and 3.9.**

The resolution of any protests with respect to proceedings under Rules 3.1, 3.2, 3.3, 3.4, 3.5, 3.6, 3.8, and 3.9 shall be in accordance with this Rule.

(1)      Filing.

- (a)      With respect to a protest regarding qualifications, specifications, documentation, or other requirements contained in a Request for Qualifications, Request for Proposals, Invitation to Bid, or Competitive Solicitation issued by the District, the notice of protest shall be filed in writing within seventy-two (72) calendar hours (excluding Saturdays, Sundays, and state holidays) after the first advertisement of the Request for Qualifications, Request for Proposals, Invitation to Bid, or Competitive Solicitation. A formal protest setting forth with particularity the facts and law upon which the protest is based shall be filed within seven (7) calendar days (including Saturdays, Sundays, and state holidays) after the initial notice of protest was filed. For purposes of this Rule, wherever applicable, filing will be perfected and deemed to have occurred upon receipt by the District. Failure to file a notice of protest shall constitute a waiver of all rights to protest the District's intended decision. Failure to file a formal written protest shall constitute an abandonment of the protest proceedings and shall automatically terminate the protest proceedings.
- (b)      Except for those situations covered by subsection (1)(a) of this Rule, any firm or person who is affected adversely by a District's ranking or intended award under Rules 3.1, 3.2, 3.3, 3.4, 3.5, 3.6, 3.8, or 3.9 and desires to contest the District's ranking or intended award, shall file with the District a written notice of protest within seventy-two (72) calendar hours (excluding Saturdays, Sundays, and state holidays) after receipt of the notice of the District's ranking or intended award. A formal protest setting forth with particularity the facts and law upon which the protest is based shall be filed within seven (7) calendar days (including Saturdays, Sundays, and state holidays) after the initial notice of protest was filed. For purposes of this Rule, wherever applicable, filing will be perfected and deemed to have occurred upon receipt by the District. Failure to file a notice of protest shall constitute a waiver of all rights to protest the District's ranking or intended award. Failure to file a formal written protest shall constitute an abandonment of the protest proceedings and shall automatically terminate the protest proceedings.
- (c)      If the requirement for the posting of a protest bond and the amount of the protest bond, which may be expressed by a percentage of the contract to be awarded or a set amount, is disclosed in the District's competitive solicitation documents for a particular purchase under Rules 3.1, 3.2, 3.3,

3.4, 3.5, 3.6, 3.8, or 3.9, any person who files a notice of protest must post the protest bond. The amount of the protest bond shall be determined by District staff after consultation with the Board and within the limits, if any, imposed by Florida law. In the event the protest is successful, the protest bond shall be refunded to the protestor. In the event the protest is unsuccessful, the protest bond shall be applied towards the District's costs, expenses, and attorney's fees associated with hearing and defending the protest. In the event the protest is settled by mutual agreement of the parties, the protest bond shall be distributed as agreed to by the District and protestor.

- (d) The District does not accept documents filed by electronic mail or facsimile transmission. Filings are only accepted during normal business hours.
- (2) Contract Execution. Upon receipt of a notice of protest which has been timely filed, the District shall not execute the contract under protest until the subject of the protest is resolved. However, if the District sets forth in writing particular facts and circumstances showing that delay incident to protest proceedings will jeopardize the funding for the project, will materially increase the cost of the project, or will create an immediate and serious danger to the public health, safety, or welfare, the contract may be executed.
- (3) Informal Proceeding. If the Board determines a protest does not involve a disputed issue of material fact, the Board may, but is not obligated to, schedule an informal proceeding to consider the protest. Such informal proceeding shall be at a time and place determined by the Board. Notice of such proceeding shall be sent via facsimile, United States Mail, or hand delivery to the protestor and any substantially affected persons or parties not less than three (3) calendar days prior to such informal proceeding. Within thirty (30) calendar days following the informal proceeding, the Board shall issue a written decision setting forth the factual, legal, and policy grounds for its decision.
- (4) Formal Proceeding. If the Board determines a protest involves disputed issues of material fact or if the Board elects not to use the informal proceeding process provided for in section (3) of this Rule, the District shall schedule a formal hearing to resolve the protest. The Chairperson shall designate any member of the Board (including the Chairperson), District Manager, District Counsel, or other person as a hearing officer to conduct the hearing. The hearing officer may:
  - (a) Administer oaths and affirmations;
  - (b) Rule upon offers of proof and receive relevant evidence;
  - (c) Regulate the course of the hearing, including any pre-hearing matters;
  - (d) Enter orders; and

- (e) Make or receive offers of settlement, stipulation, and adjustment.

The hearing officer shall, within thirty (30) days after the hearing or receipt of the hearing transcript, whichever is later, file a recommended order which shall include a caption, time and place of hearing, appearances entered at the hearing, statement of the issues, findings of fact and conclusions of law, separately stated, and a recommendation for final District action. The District shall allow each party fifteen (15) days in which to submit written exceptions to the recommended order. The District shall issue a final order within sixty (60) days after the filing of the recommended order.

- (5) Intervenors. Other substantially affected persons may join the proceedings as intervenors on appropriate terms which shall not unduly delay the proceedings.
- (6) Rejection of all Qualifications, Bids, Proposals, Replies and Responses after Receipt of Notice of Protest. If the Board determines there was a violation of law, defect, or an irregularity in the competitive solicitation process, the Bids, Proposals, Replies, and Responses are too high, or if the Board determines it is otherwise in the District's best interest, the Board may reject all qualifications, bids, proposals, replies, and responses and start the competitive solicitation process anew. If the Board decides to reject all qualifications, bids, proposals, replies, and responses and start the competitive solicitation process anew, any pending protests shall automatically terminate.
- (7) Settlement. Nothing herein shall preclude the settlement of any protest under this Rule at any time.

**Specific Authority:** §§ 190.011(5), 190.011(15), Fla. Stat.

**Law Implemented:** § 190.033, Fla. Stat.

**Rule 4.0        Effective Date.**

These Rules shall be effective May 20, 2021, except that no election of officers required by these Rules shall be required until after the next regular election for the Board.

**Specific Authority:** §§ 190.011(5), 190.011(15), Fla. Stat.

**Law Implemented:** §§ 190.011(5), 190.011(15), Fla. Stat.

## SECTION C

# SECTION 1

## **RESOLUTION 2021-31**

### **RESOLUTION OF THE BOARD OF SUPERVISORS OF THE WESTSIDE HAINES CITY COMMUNITY DEVELOPMENT DISTRICT EXPRESSING ITS INTENT TO UTILIZE THE UNIFORM METHOD OF LEVYING, COLLECTING, AND ENFORCING NON-AD VALOREM ASSESSMENTS WHICH MAY BE LEVIED BY THE WESTSIDE HAINES CITY COMMUNITY DEVELOPMENT DISTRICT IN ACCORDANCE WITH SECTION 197.3632, FLORIDA STATUTES; PROVIDING A SEVERABILITY CLAUSE; AND PROVIDING AN EFFECTIVE DATE.**

**WHEREAS**, the Westside Haines City Community Development District (“District”) was established pursuant to the provisions of Chapter 190, *Florida Statutes*, which authorizes the District to levy certain assessments which include benefit and maintenance assessments and further authorizes the District to levy special assessments pursuant to Chapters 170 and 197, *Florida Statutes*, for the acquisition, maintenance, construction, or reconstruction of assessable improvements authorized by Chapter 190, *Florida Statutes*; and

**WHEREAS**, the above referenced assessments are non-ad valorem in nature and, therefore, may be levied and collected under the provisions of Section 197.3632, *Florida Statutes*, in which the State of Florida has provided a uniform method for the levying, collecting, and enforcing such non-ad valorem assessments (the “Uniform Method”); and

**WHEREAS**, the Board has previously adopted Resolution 2021-11 declaring the intent to use the Uniform Method for the levy, collection and enforcement of non-ad valorem special assessments authorized by Section 197.3632, *Florida Statutes*, over certain lands within the District as described therein; and

**WHEREAS**, pursuant to Section 197.3632, *Florida Statutes*, the District has caused notice of a public hearing on the District’s intent to use the Uniform Method to be advertised weekly in a newspaper of general circulation within Polk County for four (4) consecutive weeks prior to such hearing; and

**WHEREAS**, the District has held a public hearing pursuant to Section 197.3632, *Florida Statutes*, where public and landowners were allowed to give testimony regarding the use of the Uniform Method; and

**WHEREAS**, the District desires to use the Uniform Method for the levy, collection and enforcement of non-ad valorem special assessments authorized by Section 197.3632, *Florida Statutes*, for special assessments, including benefit and maintenance assessments, over all the lands in the District as further described in **Exhibit A**.

**NOW, THEREFORE, BE IT RESOLVED BY THE BOARD  
OF SUPERVISORS OF THE WESTSIDE HAINES CITY  
COMMUNITY DEVELOPMENT DISTRICT:**

**SECTION 1.** The Westside Haines City Community Development District upon conducting its public hearing as required by Section 197.3632, *Florida Statutes*, hereby expresses its need and intent to use the Uniform Method of collecting assessments imposed by the District over the lands described in **Exhibit A**, as provided in Chapters 170 and 190, *Florida Statutes*, each of which are non-ad valorem assessments that may be collected annually pursuant to the provisions of Chapter 190, *Florida Statutes*, for the purpose of paying principal and interest on any and all of its indebtedness and for the purpose of paying the cost of operating and maintaining its assessable improvements. The legal description of the boundaries of the real property subject to a levy of assessments is attached and made a part of this Resolution as **Exhibit A**. The non-ad valorem assessments and the District's use of the Uniform Method of collecting its non-ad valorem assessment(s) may continue in any given year when the Board of Supervisors determines that use of the uniform method for that year is in the best interests of the District.

**SECTION 2.** The District's Secretary is authorized to provide the Property Appraiser and Tax Collector of Polk County and the Department of Revenue of the State of Florida with a copy of this Resolution and enter into any agreements with the Property Appraiser and/or Tax Collector necessary to carry out the provisions of this Resolution.

**SECTION 3.** If any provision of this Resolution is held to be illegal or invalid, the other provisions shall remain in full force and effect.

**SECTION 4.** This Resolution shall become effective upon its passage and shall remain in effect unless rescinded or repealed.

**PASSED AND ADOPTED** this 20<sup>th</sup> day of May, 2021.

The Westside Haines City Community Development District  
Attn: Jill Burns, District Manager  
c/o Government Management Services-Central Florida, LLC  
219 E. Livingston Street,  
Orlando, Florida 32801

**RE: Request for Qualifications for Engineering Services for the Westside Haines City Community Development District**

Dear Ms. Burns,

Our firm has put together a strong, focused and experienced team to deliver each task under this contract efficiently and effectively. Dewberry has served as the District Engineer for over 25 Community Development Districts (CDDs) in Florida, which allows us to provide the Westside Haines City CDD with the unique experience, familiarity, and understanding of the type of services that will be requested.

Dewberry's Florida operation is backed by the resources and stability of a national firm and specializes in site/civil, environmental, utility infrastructure, transportation engineering, surveying, and land development services. Dewberry has 15 office locations and over 300 employees in Florida, allowing us to bring expertise, qualifications, and resources to clients throughout the State. Dewberry's depth of professional resources and expertise touches every aspect of the CDD's ongoing needs. From 200 acres to close to 10,000 acres, we offer the CDD a solid team built on past experience to efficiently address the associated scope of work, as well as, the added depth of services involving engineering, environmental, surveying, and construction management for a full service approach.

We have extensive knowledge and understanding of the Westside Haines City CDD and are able to provide the specific assignments noted in your RFQ. We understand the needs of the District because we are currently the Interim District Engineers.

Dewberry currently has no conflicts with any homebuilder within Westside Haines City. Although our past history with numerous CDDs speaks for itself, we are committed to proving ourselves as a valuable partner to provide engineering services to Westside Haines City.

It would be our privilege to serve as the District Engineer. We appreciate this opportunity to provide information about our capabilities and welcome the possibility to personally expand upon them.

Sincerely,

A handwritten signature in blue ink, appearing to read "Rey Malave", is written over a horizontal line.

15. FIRM NAME AND LOCATION (City and State) Dewberry Engineers Inc. (Orlando, FL)					
16. EDUCATION (Degree and Specialization) BS/Environmental Engineering		17. CURRENT PROFESSIONAL REGISTRATION (State and Discipline) FL Professional Engineer #57501			
18. OTHER PROFESSIONAL QUALIFICATIONS (Publications, Organizations, Training, Awards, etc.)					

Joe Keezel has more than 24 years of experience designing major transportation systems and thoroughfares, working primarily on FDOT projects. He has managed several major highway projects, including a capacity project that widened a rural four-lane state highway to an urban six-lane section; replaced twin bridges; and updated drainage, signing, pavement markings, and signals. He was project manager for two district-wide contracts and prepared construction documents for more than 10 resurfacing, restoration and rehabilitation projects ranging from two-lane rural to multi-lane urban. Joe also prepared several designs with limited survey using as-built plans, right-of-way maps and SLD's, as well as, prepared several projects with SMART plans and letter sets all of which have been constructed with no claims.

Marybeth Morin has 24 years of experience in structural design of transportation structures. She is responsible for the design and plans production of projects from the preliminary stages to final design. These projects include minor grade separations, water crossings and interchanges. She has experience in AASHTO and Florida I-Beam girders, precast-prestressed slab units and steel I-girders. She also has experience in alternatives development, design-build work and miscellaneous structures. Miscellaneous structures include sign structure, mast arm, noise, buffer and retaining wall, box culvert and strain pole foundation design. Marybeth is responsible for project design, coordination and plans production.

**19. RELEVANT PROJECTS**

a.	(1) TITLE AND LOCATION (City and State) <b>Live Oak Lake CDD (Twin Lakes Development) (Osceola County, FL)</b>	(2) YEAR COMPLETED	
		PROFESSIONAL SERVICES 2019	CONSTRUCTION (If applicable) N/A
	(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE <b>Senior Structural Engineer.</b> Live Oak Lake CDD is a multi-phased, active adult community consisting of residential units, green open space tracts with community facilities, and a community amenity center. Marybeth was responsible for the design and overseeing the construction of the vehicular bridge that crosses existing Bullis Road, connecting the northern pool and amenity area with the remainder of the development. The bridge is a single span FIB-36 with spread footing, which reduces vibration and cost, MSE walls with concrete drainage ditch, and splash pads for run off. The bridge utilizes a custom railing with stone veneer, architectural finishes, and custom planters for a high level aesthetic result.		
b.	(1) TITLE AND LOCATION (City and State) <b>Wekiva Parkway (CFX, Orange County, FL)</b>	(2) YEAR COMPLETED	
		PROFESSIONAL SERVICES 2015	CONSTRUCTION (If applicable) 2017
	(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE <b>Senior Structural Engineer.</b> The Wekiva Parkway (SR 429) is a new alignment, high speed, limited access facility in northwest Orange County. Segment 203 extends from just north of Ponkan Road to north of Kelly Park Road, a distance of approximately 2.2 miles. The project includes bridge structures over the Lake Victor floodplain, a future access road and Kelly Park Road. A partial cloverleaf interchange will be provided at Kelly Park Road. The project includes modifications to several local arterials and off-site stormwater management facilities.		
c.	(1) TITLE AND LOCATION (City and State) <b>Suncoast Parkway 2, Section 2 (FDOT, Turnpike Enterprise, Citrus County, FL)</b>	(2) YEAR COMPLETED	
		PROFESSIONAL SERVICES 2016	CONSTRUCTION (If applicable) Est. 2020
	(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE <b>Senior Structural Engineer.</b> This section of the Suncoast Parkway 2 Project is for the design of a new roadway and is located from south of Grover Cleveland Boulevard to north of County Road 486, for a distance of approximately 8.5 miles. This new alignment project includes a major intersection and several county road crossings; traversing through heavy wooded areas, borrow pits, and subdivisions. Marybeth was responsible for bridge design and plans production.		
d.	(1) TITLE AND LOCATION (City and State) <b>State Road 20 over Chipola River Bridge (FDOT, District 3, Calhoun County, FL)</b>	(2) YEAR COMPLETED	
		PROFESSIONAL SERVICES 2010	CONSTRUCTION (If applicable) 2015
	(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE <b>Senior Structural Engineer.</b> This project involves the design of the replacement for the existing SR 20 bridge over Chipola River in Calhoun County. The existing bridge, constructed in 1941, is structurally deficient and functionally obsolete. The replacement structure will have fewer spans than the existing structure to expedite construction and improve the waterway. The bridge is located in an environmentally sensitive area with two protected species known to exist within the project limits. A permanent shifted alignment for the new bridge, as well as the use of a temporary bridge structure, was investigated for maintenance of traffic during construction.		

**E. RESUMES OF KEY PERSONNEL PROPOSED FOR THIS CONTRACT**  
(Complete one Section E for each key person.)

12. NAME <b>Sean Carrigan, PE</b>	13. ROLE IN THIS CONTRACT <b>Senior Stormwater Engineer</b>	14. YEARS EXPERIENCE	
		a. TOTAL <b>14</b>	b. WITH CURRENT FIRM <b>2</b>
15. FIRM NAME AND LOCATION (City and State) <b>Dewberry Engineers Inc. (Orlando, FL)</b>			
16. EDUCATION (Degree and Specialization) <b>BS/Civil Engineering</b>		17. CURRENT PROFESSIONAL REGISTRATION (State and Discipline) <b>FL Professional Engineer #73041</b>	
18. OTHER PROFESSIONAL QUALIFICATIONS (Publications, Organizations, Training, Awards, etc.)			

Sean Carrigan has 14 years of experience in roadway drainage design, including erosion control, environmental permitting, and PD&E studies on various roadway projects for FDOT, as well as, municipal government clients throughout Florida. Sean's key expertise is in the design of open and closed drainage collection systems, culverts and stormwater management facilities, performing hydrological/hydraulic analysis for the design and construction of transportation projects, assisting in the coordination and compiling of environmental permitting applications for the approval by permitting agencies. He is skilled in the utilization of MicroStation, ASAD, ICPR, POND5 Modeling, Hy-8, HEC-RAS, GeoHEC-RAS, Culvert Service Life Estimator, Win-TR55, GeoPak Drainage, Corridor Modeling, BMPTRAINS, Bluebeam and Microsoft Office.

19. RELEVANT PROJECTS			
a.	(1) TITLE AND LOCATION (City and State) <b>State Road 5 at Matanzas Woods Parkway (FDOT, District Five, Flagler County, FL)</b>	(2) YEAR COMPLETED	
		PROFESSIONAL SERVICES <b>2019</b>	CONSTRUCTION (If applicable) <b>Ongoing</b>
	(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE	<input checked="" type="checkbox"/> Check if project performed with current firm	
<b>Senior Drainage Engineer.</b> Through our continuing services contract with District Five, this project involved the design of a multi-lane roundabout at the intersection of State Road 5 (US 1) and Matanzas Woods Parkway. The project also included updating pedestrian features at the intersection.			
b.	(1) TITLE AND LOCATION (City and State) <b>State Road A1A at State Road 520 Intersection Improvements, (FDOT, District Five, Brevard County, FL)</b>	(2) YEAR COMPLETED	
		PROFESSIONAL SERVICES <b>2019</b>	CONSTRUCTION (If applicable) <b>Ongoing</b>
	(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE	<input checked="" type="checkbox"/> Check if project performed with current firm	
<b>Senior Drainage Engineer.</b> Through our continuing services contract with District Five, this project improved the intersection for pedestrians and northbound left turning motorists by removing the free flow right turn lanes, realigning the east approach, and extending the northbound dual left turn lanes at the intersection of State Road A1A and State Road 520 in accordance with PPM Vol I Chapter 25. Also included in the project was the extension of the existing northbound left turn lane at the intersection of State Road A1A and Canaveral Plaza Boulevard (Marion Lane).			
c.	(1) TITLE AND LOCATION (City and State) <b>10th Avenue Complete Streets Feasibility and PD&amp;E Study (FDOT, District One, Manatee County, FL)</b>	(2) YEAR COMPLETED	
		PROFESSIONAL SERVICES <b>Ongoing</b>	CONSTRUCTION (If applicable) <b>N/A</b>
	(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE	<input checked="" type="checkbox"/> Check if project performed with current firm	
<b>Senior Drainage Engineer.</b> This study develops and evaluates complete street improvements along 10th Avenue from Riverside Drive to 17th Street West in the City of Palmetto to enhance multimodal mobility along the corridor. The approximately 1.1-mile study proposes complete street applications such as wider sidewalks, bicycle lanes, multimodal paths, enhanced transit amenities, reconfigured on-street parking, traffic calming measures, streetscaping aesthetics, and stormwater control features.			
d.	(1) TITLE AND LOCATION (City and State) <b>State Road 436 Milling and Resurfacing (FDOT, District Five, Seminole County, FL)</b>	(2) YEAR COMPLETED	
		PROFESSIONAL SERVICES <b>2019</b>	CONSTRUCTION (If applicable) <b>Ongoing</b>
	(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE	<input checked="" type="checkbox"/> Check if project performed with current firm	
<b>Senior Drainage Engineer.</b> This project involves adding proposed dual left turn lanes at the intersection of SR 436 and Ronald Reagan Boulevard. The purpose of the project is to improve traffic flow, safety and mobility at the intersection.			
e.	(1) TITLE AND LOCATION (City and State) <b>I-4 Beyond the Ultimate, Segment 5 (FDOT, District One, Polk County, FL)</b>	(2) YEAR COMPLETED	
		PROFESSIONAL SERVICES <b>Ongoing</b>	CONSTRUCTION (If applicable) <b>Ongoing</b>
	(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE	<input checked="" type="checkbox"/> Check if project performed with current firm	
<b>Senior Drainage Engineer.</b> The I-4 Beyond the Ultimate Segment 5 is a 4.5-mile section of I-4 from West of State Road 25/US 27 to west of County Road 532 (Polk/Osceola County Line) in Polk County, including the US 27 Interchange. The proposed I-4/ US 27 interchange is a full service partial cloverleaf interchange with loop ramps in the northwest and southeast quadrants. Eleven new bridges, substantial modifications to the ramp terminal intersections and improvements along US 27 are proposed with this project.			

**E. RESUMES OF KEY PERSONNEL PROPOSED FOR THIS CONTRACT**  
(Complete one Section E for each key person.)

12. NAME <b>Bobby Johnson, PE</b>	13. ROLE IN THIS CONTRACT <b>Senior Utility Engineer</b>	14. YEARS EXPERIENCE	
		a. TOTAL <b>16</b>	b. WITH CURRENT FIRM <b>16</b>

24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT *(Include scope, size, and cost)*

Live Oak Lakes CDD (Twin Lakes Development) is a multi-phased, active adult community consisting of residential units, green open space tracts with community facilities, and a community amenity center located just off of Live Oak Lake. The development is situated just east of Hickory Tree Road and west of Live Oak Lake and Sardine Lake in Osceola County. Phases 1 – 8 consists of a mix of 50', 70' and duplex units totaling 2,023 units.

A 42,000 plus square foot amenity clubhouse is currently being constructed alongside the oversized pool and cabana area, which includes a bar for food and beverages. The outdoor rec space is under construction just to the south. This area was designed to include bocci ball, pickle ball, horseshoes, tennis courts, and a half basketball court. It also provides walking trails, a boat dock, and a dock for fishing.

In addition to civil engineering services, we also provided roadway design, bridge design, and signal design within the first phase. We were responsible for the roadway widening design of Hickory Tree Road, where services also included drainage and utility extensions. We extended New Nolte Road from the existing intersection east through the first phase of construction. This 150' right-of-way is master planned to be a 4 lane divided major collector road in the future. We also designed and oversaw the construction of the vehicular bridge that crosses existing Bullis Road, connecting the northern pool and amenity area with the remainder of the development. We provided signal design for the New Nolte and Hickory Tree Road Intersection, which also includes golf cart paths and golf cart path crossings at the updated intersection.

Utilities have been master designed for the build out of the development, which will include city master transmission mains for the 24" potable water main and 24" reclaim main; along with 5 sanitary lift stations to service the phases of the development as they are constructed. Phase 1 of the project utilizes two sanitary lift stations, a portion of the 24" potable and reclaim mains. The first lift station is located on the west side of Hickory Tree Road. The second lift station is located along the extension of Nolte Road east of Hickory Tree Road. This lift station has been

designed to accept additional flows from future phases of this development. This lift station pumps into a force main down the Nolte Road extension and connects to the existing 20" force main located within the Hickory Tree right-of-way.

Viera Planned Development and CDD is a 2,000-acre mixed-use development in the City of Viera, located east of I-95 and north of Murrell Road in Brevard County. The project consists of 2,000 single-family units, 900 multi-family units, and over 20,000 square feet of commercial and retail space. With over 600 acres of existing on-site wetlands and lakes, this project presented some unique design challenges; including creating a viable community that balanced the developable parcels with existing ecological systems. Additional challenges related to the need to tie into both existing and proposed roadways and proposed master utilities serving the project.

Dewberry permitted the stormwater drainage and wetland modifications of the master stormwater system that consisted of both lakes and wetlands that provided storage through the SJRWMD and Brevard County. We also monitor the wetland systems in compliance with the SJRWMD permit as well as the design of the entire infrastructure.

Dewberry continues to serve as the District Engineer for this project. Our services included consulting services, civil engineering, environmental services, permitting, planning, surveying, construction administration and presentations to the Board of Supervisors for the CDD. Dewberry also gives presentations to the Board of Supervisors for the CDD and is on-call to the District Manager.

# FIRM QUALIFICATIONS

Dewberry is a leading, multi-disciplined firm with a proven history of providing professional services to a wide variety of public- and private-sector clients. Established in 1956, Dewberry is headquartered in Fairfax, Virginia, with 50 locations and over 2,000 professionals nationwide, including our local office in Orlando. Recognized for combining unsurpassed commitment to client service with deep subject matter expertise, Dewberry is dedicated to solving clients' most complex challenges and transforming their communities.

Dewberry's Florida operation is backed by the resources and stability of a national firm and specializes in site/civil, environmental, utility infrastructure, transportation engineering, surveying, architecture, and land development services. Dewberry has 15 office locations and over 300 employees in Florida, bringing expertise, qualifications, and resources to cities and counties throughout the state. Dewberry supports large and small projects in the following primary service areas:

- Alternative delivery
- Architecture
- Building engineering
- Disaster response and emergency management
- Energy services
- Environmental services
- Geospatial services
- Mechanical, electrical, and plumbing services
- Program management
- Site/civil services
- Surveying/mapping
- Sustainability
- Transportation
- Water/wastewater/reclaimed water services

We put clients first, we build strong and lasting relationships to become trusted advisors to our clients. Personal commitment to our clients and standing behind our work are central principles of the "Dewberry Way."

## Relevant Experience

The absolute best predictor of future success is past performance and we have a lot of experience in all areas required for this contract. Whether we are providing professional design engineering services or as a previous District Engineer, our track record speaks for itself.

**DEWBERRY HAS  
300+ EMPLOYEES  
IN FLORIDA**

During past years in business, **no other Central Florida firm has been more involved in Florida's explosive development.** This is demonstrated by the work we have performed for hundreds of clients over four decades. We have developed a unique general approach to land development projects. Our approach is tried-and-true, and it has proven, time-and-time-again, to reduce the coordination efforts for our clients and, importantly, it produces successful projects.

Dewberry has also developed a "Land Development Process" Manual. All our professional staff members are required to know our quality procedures and to stay abreast of regulatory changes. The purpose of this manual is to describe the method and process in which Dewberry provides planning, design and construction related services for Land Development projects. This process minimizes the opportunity for missed deadlines, decreases errors and omissions on the plans, plats, calculations and permits, and maximizes the opportunity to produce high quality, build-able projects, resulting in satisfied clients and a positive company reputation in the engineering community.

We have a defined, workable Quality Control Plan. Every submittal is checked by an independent reviewer using our written quality control procedures. These procedures include Sufficiency Checklists to ensure that the documents are complete. The quality control checks are scheduled within the project master schedule to ensure that time is allocated to make revisions. All of our firm's staff use Quality Control Manuals to ensure that the project is being prepared correctly the first time. All of this detail means that our clients can be confident that they are getting the best possible product from Dewberry.

The following CDD projects are representative of our relevant project experience:

- Baytree CDD, Brevard County
- Cascades at Groveland CDD, Lake County

- VillaSol CDD, Osceola County
- West Villages Improvement District, Sarasota County

### Project Approach

We have prepared an organizational approach to fit the specific categories of the organization and operations to support both large and small engineering projects. Through our many years of serving as District Engineer, we've been successful at becoming an extension of the CDD's Project Management group, with the ability to understand project needs and proposing only on what is necessary to complete the task at hand. Our management team is committed to a quality product that is consistent with Westside Haines City CDD's policies and procedures.

Serving as District Engineer is **Rey Malavé, PE**. Rey has 41 years of experience in civil engineering and a diversified background in the design and permitting of infrastructure systems, including public facilities, utility systems, office

buildings, commercial developments, recreational facilities and industrial developments. He has extensive experience with permitting agencies, including FDEP, FDOT, Florida Water Management Districts, and other local agencies. He has served as the District Engineer for over 25 CDDs and Improvement Districts in Florida.

### Transportation Services

Dewberry has provided roadway and bridge design services to numerous governmental agencies throughout Florida for over 30 years. Our projects have ranged from minor intersection improvements and milling and resurfacing of existing roadways to capacity improvements and complex, multilevel interchanges. The extensive experience of our staff in the design, preparation of construction documents and post design services for roadways, bridges, and associated systems provides Westside Haines City with the expertise to handle any type of transportation related assignment. Our transportation design staff, coupled with the survey, drainage, environmental, and permitting capabilities, allows us to efficiently complete any assignment, as all disciplines required are available in-house.

Traffic design may include one or more of the following items, dependent upon a specific project: signing design, pavement marking design, signal warrant analysis, signalization design, lighting justification, lighting design and traffic studies. We have extensive experience in these phases of the project and we are qualified to perform all aspects of traffic engineering.

Engineering services related to structural design may be required for bridge widenings, bridge rail replacements, box culvert extensions, retaining walls, sheet piling, overhead sign structures, multi-post guide signs, signal poles, mast arms light poles and foundations for signs, signal poles and lighting. We have an experienced in-house staff to provide these services.

### Water/Wastewater Services

Our team can provide both utility analyses of existing master systems, preparation and updates to master plans, as well as prepare utility construction plans. Dewberry can analyze the existing utility systems and make recommendations for upgrades or replacement. We have designed numerous utility collection and transmission facilities, gravity sewers, force mains, reuse water and potable water systems. We have also designed numerous wastewater and water pump stations. We also have experience in the transformation of septic tank systems by the installation of new sewer systems.

## H. ADDITIONAL INFORMATION

30. PROVIDE ANY ADDITIONAL INFORMATION REQUESTED BY THE AGENCY. ATTACH ADDITIONAL SHEETS AS NEEDED.

### Stormwater Management Services

Our integrated stormwater management services range from large basin studies to the design of collection systems. Our team has performed analysis on various projects throughout Florida. We have designed culvert replacements to extensions on numerous roadway projects, ranging from two-lane rural widening to multi-lane expressways.

Drainage design and permitting are critical parts of any project. We will provide assistance to the CDD in coordination with MS4 support, total maximum daily loads, Numeric Nutrient Criteria support, Drainage, Erosion and sediment control, Stormwater Basin Modeling, Assessment and evaluation drainage systems, design and construction plans for stormwater management systems and coordination with state and federal agencies.

Assumptions and/or omissions in this area can cause significant delays in the project schedule, increase costs during construction and even lead to possible litigation against the CDD. We are experienced in identifying, analyzing and addressing drainage impacts associated with a variety of project types. Our drainage staff is knowledgeable of Water Management District criteria and we are adept at developing creative and innovative solutions to drainage problems. We also have experience preparing flood studies with FEMA. At the heart of our approach is a thorough document review of the existing plans, USGS Quadrangle Maps, USDA Soil Survey, FEMA Flood Insurance Maps and aerial photographs. With this data in hand, we will perform a field review during the pre-scope meeting, identify all drainage and permitting issues, and discuss possible drainage solutions with the CDD. Existing drainage patterns, ponding concerns and erosion problems will be documented. We will contact the CDD's Maintenance Engineer to discuss any concerns regarding the project area.

### Survey and Mapping Services

Dewberry has provided continuing surveying services for several counties and municipalities throughout the State of Florida. Our large in-house survey staff, with numerous crews out of our Orlando office, are well-versed in the rigors of on-call assignments and the immediate response time that they require. We utilize state-of-the-art equipment to provide cost effective surveying, right of way mapping, utility designation and subsurface utility engineering (SUE) for roadway, municipal, and civil development projects. We have extensive experience in boundary surveys, topographic design surveys, tree surveys, inventory surveys, and underground utility mapping. Our survey team has a dedicated staff of Photogrammetrists who specialize in

aerial photogrammetry, fixed and aerial LiDAR, and GIS mapping.

Our services for surveying and mapping may include: as-built surveys, boundary surveys, eminent domain surveys, GIS, legal description preparation, plat preparation, property sketches, right-of-way mapping, SUE, topographic surveys, and utility surveys.

SUE technology combines geophysics, surveying and civil engineering to better locate underground utilities. This service helps our clients avoid costly utility conflicts and construction delays caused by inaccurately plotted utilities. Our 3-D Laser Scanning equipment allows our survey crews to accurately collect field data comprehensively and, most importantly, safely. Dewberry is one of a select few firms in the state to have this technology.

### Environmental/Permitting Services

From determining wetland lines, to the understanding of current rules and regulations for water management districts, our staff has full understanding and experience in providing these services for cities and other governmental agencies. We have obtained permits with the various local, State and Federal agencies for a variety of projects. We understand how to prepare permit applications, work closely with the agencies and obtain permits for your projects. Dewberry will track the permit status for each agency, keep the CDD informed of the progress of all permits and respond promptly to all requests for additional information.

As part of our efforts for Westside Haines City CDD, we will assist in determining the permits needed for each development project along with the anticipated schedules for obtaining each permit. Additionally, we have experience in permitting with governmental agencies such as the Water Management Districts, FDEP, Florida Fish and Wildlife Conservation Commission, U.S. Army Corps of Engineers, and FDOT. We have staff that consists of both engineers and environmental scientists, many of which have worked previously for various permitting agencies.

### Landscape Architecture/Planning

Dewberry has extensive landscape architecture experience throughout Florida. Our project experience includes residential, retail office, mixed-use, streetscapes and recreational uses as well as hardscape and irrigation design. Our hardscape designs have included corporate plazas, streetscapes, fountains, amenity areas for multi-family projects, and urban plazas.

## H. ADDITIONAL INFORMATION

30. PROVIDE ANY ADDITIONAL INFORMATION REQUESTED BY THE AGENCY. ATTACH ADDITIONAL SHEETS AS NEEDED.

Our planning services to Westside Haines City CDD will include presentations to CDD Commissioners and public meetings, where we would provide assistance to the CDD for the understanding of technical issues, proposed developments, projected roadway designs, possible right-of-way changes, and to provide a professional and expert opinion on issues that may be needed by the CDD. Dewberry can assist the CDD with the following planning services:

- Comprehensive planning
- Review of comprehensive plan amendments
- Preparing land development regulations, including form based codes, GIS and Mapping services
- Transportation planning
- Revitalization/redevelopment planning

### Construction Administration/CEI

We have continually provided construction administration services to our clients on most of the projects we have designed. Dewberry understands the importance of establishing and maintaining budgets. As a project is constructed, it is imperative that our team monitor the project budget and keep the CDD consistently informed. We have worked with many cities and counties on providing all construction services, including the assistance in the preparation of bid documents, prebid meetings, pre-construction meetings, construction administration, site observation, pay application review and approvals. We also provide shop drawing reviews and approvals per construction documents. We will provide assistance to CDD staff in the administration of construction contracts. Our team is currently providing these services to many municipalities across the state of Florida.

Our Construction Administration staff is prepared to support the CDD in various construction management related tasks. We routinely perform these services for both our public and private clients. Our services include:

- Construction Inspection
- Shop Drawing Review
- Pay Application Verification
- Construction Scheduling
- Utility Company Coordination
- Final Regulatory Acceptance
- Record Drawings
- Project Value Engineering

- Bid Document Preparation
- Bid Summarization and Analysis
- Contract Preparation

### Task Initiation

Our Project Approach will vary due to the type of assignment; however, the important first steps in task initiation involve Data Gathering and Scope Development.

### Data Gathering

This phase consists of defining the project objectives, identifying elements involved in the task, conducting a field review meeting (if required) and developing a detailed scope of services.

This phase will begin once a specific task or project has been identified by the CDD. Once identified, we will coordinate with the CDD to obtain all existing information. This data collection effort is very important in that it provides us valuable information prior to developing the scope of services.

If applicable or desired, an on-site field review meeting will be held jointly with the CDD and other appropriate agencies to discuss the task objectives and identify areas of concern. Discussions regarding the projects background, scope requirements, project constraints and other relevant issues will be held to reach an understanding of the overall project goals. Based on the data collection effort and the initial on-site field meeting, the specific plan elements required for the task will be identified and agreed to with the CDD prior to developing a scope of services.

### Scope Development

A detailed scope of services, fee estimate, and schedule for the each task will be developed based on the data gathering efforts and discussions. This scope and work effort will be heavily influenced by the quality of the data collected and the specific needs of each task. Man-hour estimates will be provided for each discipline involved. The scope and work effort will be prepared and negotiated quickly, so as not to affect the schedule.

### Other Considerations

#### COST CONTROL

We constantly review our designs and look for ways to save our clients time and money. We exercise common sense engineering to provide practical design solutions and not merely based on the way things have always been done in the past.

## H. ADDITIONAL INFORMATION

30. PROVIDE ANY ADDITIONAL INFORMATION REQUESTED BY THE AGENCY. ATTACH ADDITIONAL SHEETS AS NEEDED.

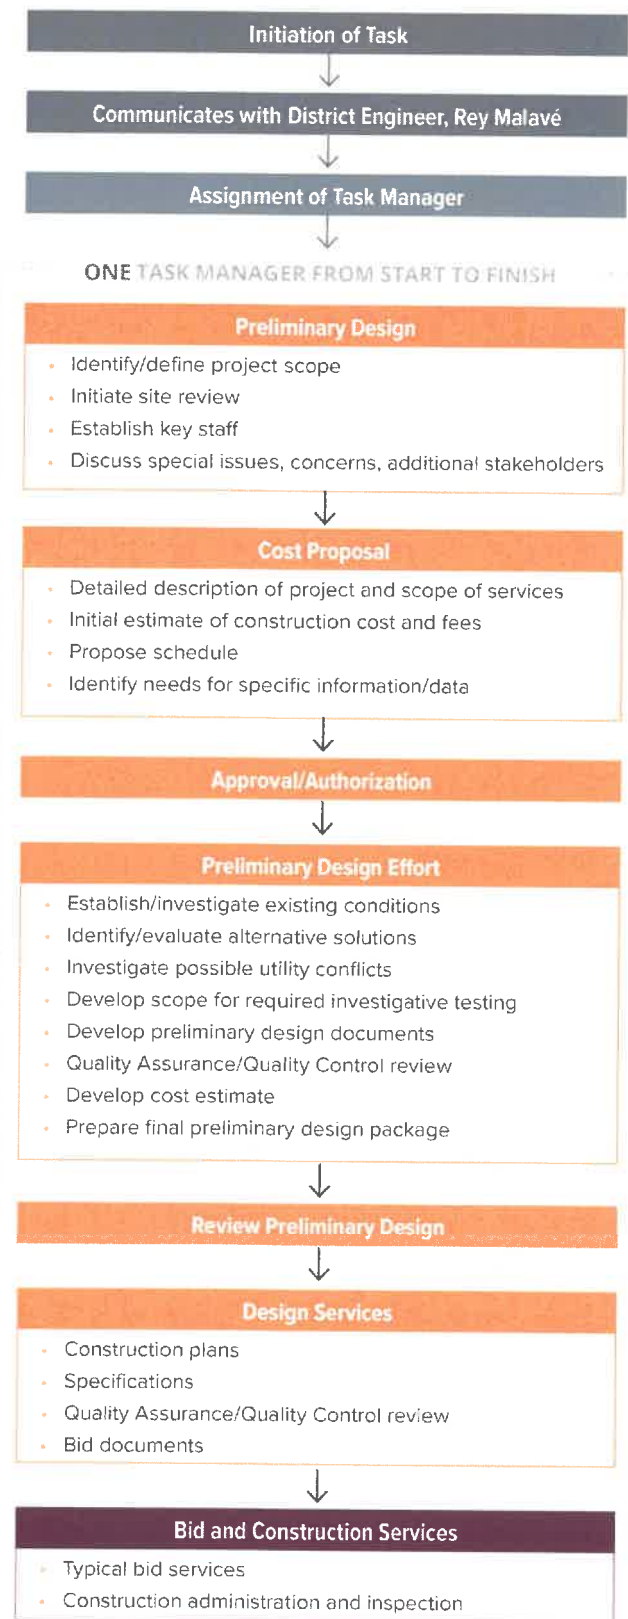

### PROJECT COSTS

We understand the financial constraints that clients face, due to the budget cuts and rising construction and right-of-way costs. We will review all designs, prepared by Dewberry or others, for cost savings measures that will not affect the intention or safety of the project. Our recent experience has shown that minor changes in the design can save materials, and reduce or avoid costly business damage claims and/or right-of-way impacts. Another key to cost controls is to estimate costs early in the design process and as the design evolves, not just near the end of the design process. Early cost estimating allows for more options to be explored to keep projects within budget or to notify the CDD that budgets may need to be adjusted.

### PROJECT SCHEDULE

The importance of maintaining the project schedule through the design or review process cannot be overstated. Dewberry is committed to developing and adhering to the project schedule for each assignment. This is important to us, as well, because if we fail to successfully complete any assignment on time, our ability to obtain additional assignments with Westside Haines City will be limited. Furthermore, we will maintain an overall schedule of projects to help with internal and external coordination. We fully understand what is required to keep a project on schedule. The following proven actions will be used by our team to control the project schedule:

- **Experienced Client Manager.** Our District Engineer, Rey, routinely manages multi discipline projects, where coordination is critical. Dewberry's wide range of in-house services ensures close coordination between each discipline, enabling us to direct our staffing resources.
- **Weekly Team Meetings.** Coordination will be ensured through weekly team meetings. These meetings will be used to track progress on individual tasks and as a planning tool.
- **Monthly Progress Reports.** Monthly progress reports will be supplied to Westside Haines City. These reports will be an effective snapshot of the status of each assignment and will be used to identify any potential schedule issues.
- **Being Proactive.** While managing the schedule, we will be proactive (vs. reactive) on all tasks. Emphasis will be placed on the activity start dates to ensure

## H. ADDITIONAL INFORMATION

30. PROVIDE ANY ADDITIONAL INFORMATION REQUESTED BY THE AGENCY. ATTACH ADDITIONAL SHEETS AS NEEDED.

timely completion.

### NPDES MS4 PROGRAM SUPPORT

Having completed numerous programs for other cities and counties, we understand the MS4 Program and have the staff that will assist the CDD in updates, compliance questions and recommendations as needed in the ongoing program.

### INDEPENDENT PEER REVIEW

An independent peer review is performed for each phase submittal. This review is performed by senior level staff not directly involved in the project and may be located in a separate office.

### CONSTRUCTABILITY/BIDABILITY REVIEW

Prior to the 90 and 100 percent submittals, the plans will be subjected to a constructability/bidability review. This review will be performed by our in-house construction administrators.

### Quality Assurance/Quality Control

Dewberry understands the value of repeat business. Our commitment to personalized client service is such that we guarantee we will respond to each client's needs promptly and effectively. From the beginning, we recognized that functional efficiency and technical excellence must be provided as a matter of course in engineering design. Each project produced by our firm reflects this corporate commitment to excellence and our insurance is our Quality Control Plan. Our Quality Assurance Plan and procedures are based on the philosophies that:

- **Plan.** Quality is controlled by adequate planning, coordination, supervision and technical direction, proper definition of job requirements and procedures and the involvement of experienced professionals.
- **Do.** Quality is achieved by individuals performing work functions carefully and "doing it right the first time".
- **Check.** Quality is verified through checking, reviewing and supervision of work activities, with documentation

by objective individuals who were not directly responsible for performing the initial work.

- **Act.** Quality is ensured by having a manager perform quality assurance functions that involve monitoring and close review of not only the work but also the procedures used in performing the work.

### Asset Management

The Dewberry Team is a leader in developing comprehensive, strategic asset management programs for public infrastructure. We typically utilize and coordinate with IT, GIS, mapping, and other appropriate technologies. Our asset management services are part of an approach for helping clients build dynamic, sustainable organizations that are capable of and committed to delivering the highest possible level of value and service to their customers.

Our team brings a level of credibility to the process that cannot be gained from a strict management-only consulting approach. Over the coming future years, aging infrastructure will require an increasing higher portion of an organization's Capital and Renewal & Replacement (R&R) dollars. Planning today must focus on risk based assessments, including targeted condition assessment to quantify and prioritize limited R&R and capital dollars. The Dewberry Team is comprised of subject matter experts that champion this innovative approach.

## Individual Licenses

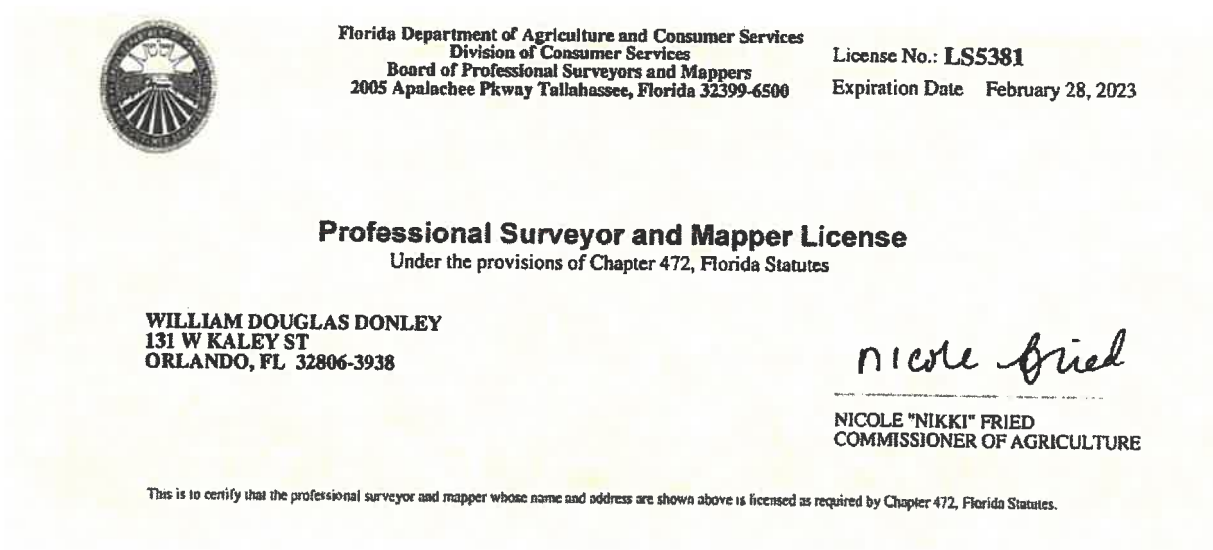

## SECTION 3: Qualifications and Experience

---

# QUALIFICATIONS AND EXPERIENCE

## Ability and Adequacy of Professional Personnel

We have carefully selected our team of professionals and technical experts to match our experience and expertise with the qualifications required. Our firm has a varied array of experience, disciplines, and available resources available to provide the required services to the Westside Haines City. Our team can provide engineering design, planning management, technical, and administrative services as requested by Westside Haines City and will make a commitment to prioritize the CDD's needs.

Our District Engineer, **Rey Malavé, PE**, Associate Vice President at Dewberry, has 41 years of civil engineering experience for both public and private clients and has served as the project manager for numerous private commercial and residential developments across Florida. This includes Dowden West CDD in Orlando; Live Oak Lake CDD (Twin Lakes Development) in Osceola County; Cascades at Groveland CDD in Groveland; Baytree CDD in Brevard County; and the Lakewood Ranch CDDs in Sarasota and Manatee Counties.

Rey has a proven track record for meeting budgets and schedules on complex and short time frame design projects. He is known for his ability to quickly adapt to changing schedules, design parameters, and client needs. Rey's diversified background in engineering design includes all aspects of land development engineering including master drainage, stormwater management design, site grading, water and reclaim distribution and sewer collection/transmission systems, as well as, project reviews for permitting agencies.

Serving as Assistant District Engineer is **Peter Armans, PE**. He has 11 years of experience in planning, design, rehabilitation, condition assessment, and construction management of water distribution systems, sewer conveyance systems, and stormwater management systems. He provides oversight and review for various inspection technologies and methodologies and has in-depth experience with scoping, budgeting, advertising, and negotiating construction activities and contracts.

## Why Dewberry?

**District Engineer for 25+ CDDs across Florida**

**Local, experienced District Engineer ready to work for you**

**Comprehensive understanding of CDD's infrastructure and operational needs**

**300+ employees in 15 offices within Florida, including a local office in Orlando**

**Cohesive group of professionals integrated across service areas to leverage success for our clients**

**60+ years helping clients build and shape communities**

This includes Montecito CDD in Satellite Beach; Narcoosee CDD in Orlando; Deer Run CDD in Bannell; Vierra East CDD in Viera, and VillaSol CDD in Osceola County.

Our project management and organizational structure within each key service areas demonstrates our thorough understanding of the scope of this contract and our desire to meet the objectives of the project assignments.

Our senior experienced professionals are all well versed in addressing their particular specialty area and have associates working under their direction to efficiently tackle any assignment from Westside Haines City. This organizational structure has a long history of success as a model that Dewberry has implemented across the country for similar CDDs and public agencies.

We will continue to develop and apply innovative concepts and techniques to effectively and

**FIGURE 3.1** We build strong and lasting relationships with our clients. The caliber of our people and combining unsurpassed client service with deep subject matter expertise is what sets us apart. We operate with the highest level of ethics and transparency. Our integrity—and that of our people—is second to none. Personal commitment to our clients and standing behind our work are two central tenants of our cultural statement, “Dewberry at Work.”

efficiently design and manage all tasks. It is important to note that Dewberry is a full-service civil engineering firm that can meet your needs for any project – large or small. Dewberry can react quickly to your requests and provide all technical support under one roof.

For more information on our project management team, we have provided résumés in our Standard Form 330 included in **Section 1: Standard Form 330** of our proposal.

### Certified Minority Business

Dewberry Engineers Inc. is not a certified minority business.

### Willingness to Meet Time and Budget Requirements

Dewberry recognizes the importance of maintaining project budgets. We have a long history of providing on-schedule services and projects that fit within the client’s budget. Over 85% of our work is from repeat clients ... a testament to our ability to work within a budget and schedule.

The following proven actions will be used by our team to control the project budget:

- **Experienced Staff.** The most effective means of meeting the design budget and schedule is by using experienced staff with the knowledge, training and equipment necessary to perform their assigned tasks. Dewberry’s Project Team has these attributes.
- **Construction Budget Controls.** We are acutely aware of the volatile construction materials market and its impact on construction budgets. As such, we periodically update our cost data to ensure that the most current unit prices are being used for the construction cost estimates.
- **Project Schedule.** One way we keep costs in line is by developing and maintaining a schedule for each task. We build a design quality control checking date into every schedule prior to the submittal date for all project deliverables. We have found that focusing on the submittal date often results in rushed or incomplete quality control checks of the plans. Therefore, we will schedule a quality check date at least two weeks prior to the submittal date to make sure that the process is completed. This also

allows our District Engineer and team to focus on the quality control date, resulting in plenty of time for the process to work and thus further committing to the project's budget.

### Past Experience and Performance

For more than 45 years, our land development professionals have combined an unsurpassed commitment to serving Florida developers with a deep subject matter expertise in a broad spectrum of professional services. We have served as District Engineer for over 25 CDDs across Florida, varying in size from 200 acres to close to 10,000 acres. We are experienced in CDDs from the creation to the continued operations.

Our clients benefit from our local experience and presence, and our familiarity with entitlement issues, plan development and review processes, and local codes and ordinances. We offer creative and cost-effective designs that transform communities.

We provide our residential clients with a range of services that include land planning, entitlement

**DEWBERRY WAS

## Geographic Location

With 15 office locations and over 300 employees in Florida, we bring expertise, qualifications, and resources to clients throughout the State.

Located in our Orlando office, Rey and Peter will be responsive, make frequent visits, and be readily available for meetings, presentations, or site visits. Additionally, our project team includes local, Orlando staff members proposed for this contract, which leads all components of our assignments to be developed concurrently by a cohesive team.

By utilizing our extensive presence within Central Florida, our approach to the CDD's projects will combine our understanding of the various project assignments with our experience in identifying the CDD's needs to develop the appropriate project team for each assignment. This allows us to minimize the time needed from project request to "boots on the ground" activity.

In addition, our Project Team is supported by nationally-recognized subject matter experts and dedicated quality control staff who have the required capacity to provide the array of required services to Westside Haines City. This depth of organization permits us to call upon specialists and a broad base of support to satisfy diverse or manpower intensive tasks.

## Current and Projected Workloads

Dewberry has an excellent track record of meeting time and budget requirements on the projects we have highlighted in this response and will meet this goal with Westside Haines City. **We are fully available for this contract!**

Our team, supported by a strong in-house team of infrastructure design specialists, planners, surveyors, environmental scientists, right-of-way mappers, roadway engineers, maintenance of traffic engineers and construction inspection personnel, has the capacity to address all of the CDD's needs throughout the term of this contract.

Due to the capacity and availability of our proposed staff, we can commit to the CDD our dedicated team members for these important projects.

## Volume of Work Previously Awarded to Consultant by District

Although Dewberry has not worked for the Westside Haines City CDD, we have extensive working experience with numerous CDDs. As demonstrated throughout our proposal, we currently serve as the District Engineer for over 25 CDDs in Florida, which allows us to provide Westside Haines City with the unique experience, familiarity, and understanding of the type of services that will be requested.

## Westside Haines City Community Development District Engineer RFQ Ranking Sheet

[illegible]
