FIFTH ORDER OF BUSINESS Presentation and Approval of Engineer's Report dated October 26, 2023

Ms. Burns stated that they had a version that was sent yesterday that was in front of the Board, but there were changes that were made. Ms. Gentry explained that there was a version circulated earlier this morning that had corrections to the legal description and the maps attached to the report to reflect the most recent Boundary Amendment that they completed on October 3rd and had been updated. She pointed out that it also updates the title of the report and the date of the report to the second amended and restated Engineer's Report dated November 7, 2023.

Mr. Malavé stated that the report was now stated as a second amended and restated Engineer's Report with the November 7th date. He explained that it provides contraction of a parcel as per the approved ordinance and they provided the same description of all the infrastructure for the previous reports and elimination of some of the lot numbers that were eliminated. He added that in addition, they updated their cost estimate to reflect current 2023 costs and to show the phasing of those costs on Exhibit 7 and per the three different types of projects, Brentwood, Cascade, and Wynnstone. He noted that the number of new units was modified to 2702 based on the current layouts and to certify that those costs should be adequate to build the project as noted and stated in the Engineer's Report. He was happy to answer any questions. Hearing none,

On MOTION by Mr. Heath, seconded by Mr. Lavoie, with all in favor, the Second Amended and Restated Engineer's Report dated November 7, 2023, was approved in substantial form.

SIXTH ORDER OF BUSINESS

Presentation and Approval of Preliminary Supplemental Assessment Methodology for Assessment Area Two dated November 7, 2023

Ms. Burns stated that there would be changes to this report because of the acreage that was noted in the Engineer's Report, but the numbers and the assessments should be the same. She gave

a brief description of this report. She explained that this report allocates debt to the parcels and the Assessment Area Two that benefit from the Capital Improvement Plan that Mr. Malave just noted. She reviewed the tables attached starting with table 1, which shows their development plan, and they have a total 590 units in this assessment area. Table 2 shows the Capital Improvement Plan cost estimates, and the cost estimate total was \$17,443,750. Table 3 shows an estimated bond sizing of \$8,570,000, which is the most current estimate that they have from FMS. Table 4 outlines their improvement costs per unit. Table 5 shows the par debt per unit for each of those product types. Table 6 breaks down the net and gross annual debt assessment per unit. Table 7 includes the preliminary assessment roll, and this is what will be updated because this references the acres. This will be updated to reflect the new acreage and boundary that was provided in the Engineer's Report that was circulated this morning.

On MOTION by Mr. Heath, seconded by Mr. Lavoie, with all in favor, the Preliminary Supplemental Assessment Methodology for Assessment Area Two dated November 7, 2023, was approved in substantial form.

SEVENTH ORDER OF BUSINESS

Consideration of Resolution 2024-03 Delegation Resolution for Series 2023 Assessment Area Two Bonds

Ms. Bligh stated that this was Delegation Resolution 2024-03 and was the supplemental resolution contemplated when the Board adopted the original bond resolution in March of 2021. She explained that this delegation resolution contains documents as exhibit to sell one series of bonds, the primary purpose of providing funds to pay all or a portion of the costs of the public infrastructure for 590 residential units. She noted that they were referring to this project as the Assessment Area Two project, which is also described as Schedule One. She pointed out that late yesterday, they sent a revised delegation resolution, which reflects the updated title of the consultant reports, the date of the consultant reports as well as an updated Schedule One, which includes the probable cost table from the Engineer's Report. She added that the forms of documents attached to this resolution were listed on page three and they include a Second Supplemental Trust Indenture, a Bond Purchase Contract, a Preliminary Limited Offering Memorandum, a Rule 15c2-12 certificate as well as a Continuing Disclosure Agreement. She pointed out in Sections Four and Five that Florida law requires certain findings, so they don't have to do a public offering. She

explained that those findings were listed under Section Four. She added that Section Five lists the parameters for the bonds, which include any optional redemption of the bonds to be determined at pricing. The interest rate on Assessment Area Two bonds shall not exceed the maximum rate allowed by Florida law. The aggregate principal amount of the Assessment Area Two bonds shall not exceed \$10,000,000. The Assessment Area Two bonds shall have a final maturity no later than the maximum term allowed by Florida law, which is currently 30 years of principal amortization. Also, the price at which the Assessment Area Two Bonds shall be sold to the Underwriter shall not be less than 98.0% of the aggregate face amount of the Assessment Area Two Bonds, exclusive of original issue discount. She was happy to answer any questions.

He explained that the palms were establishing well, but they wanted to get them pruned. Before the executive visit a few weeks ago, everything was mowed, beds detailed, palms trimmed, and they sent out their maintenance crew to deal with some things as far as some staining on the monuments, etc. He pointed out that one thing they have noticed was the well system has a lot of iron in it and was spraying the iron all over the monuments and the sidewalks. He noted that it might be beneficial to them to look into a water softener system. He stated that they were continuing to monitor the progress at the amenity. Ms. Burns stated that they were approved, and they currently have vendors working on the site. He offered to answer any questions. It was asked if he could get some quotes for the softener.
